1.3. Data on the issuer's auditor(s):

Full company name: **HLB Vneshaudit Closed Joint Stock Company**

Abbreviated company name: **HLB Vneshaudit CJSC**

Location of the auditor company: **123610, Moscow, Krasnopresnenskaya embankment, 12, entrance 3, office 701**

Phone and fax numbers: **(495) 967 04 95, 967 04 97**

e-mail: info@vneshaudit.ru

Number, date of delivery and date of expiry of the license for realization of the auditor activity:

license for realization of auditor activities E 000548; issued on 25 June 2002 by The Ministry of Finance of the Russian Federation, valid till 25 June 2012.

The fiscal years, for which the auditor held independent check of book keeping and financial (accounting) statements of the issuer: the fiscal years 2005, 2006, and 2007

Factors which may influence independence of auditors from the issuer, including the information on presence of the essential interests connecting auditors (officials of auditors) with the issuer (officials of the issuer): none.

Presence of stakes of auditors (officials of auditors) in the issuer's authorized capital: none;

The issuer did not grant borrowed funds to auditors (officials of auditors);

Presence of close business mutual relations (participation in promotion of issuer's products (services), participation in joint enterprise activities, etc.), and family ties between the issuer and auditors: none;

The issuer's officials who are simultaneously auditors' officials: none.

The measures undertaken by the issuer and auditors to decrease the specified factors:

The main measure undertaken by the issuer to decrease the issuer and the auditor's dependence from each other is a process of thorough examination of the auditor's candidate to ensure its independence from the issuer. The auditor is completely independent from the issuer's governance body according to the requirements of Article 12 of the Federal Law "On Auditor Activity"; the amount of remuneration of the auditor is not made dependent on the results of the check held.

The procedure of the issuer's auditor selection:

The procedure of the tender connected with selection of the auditor, is not applied now:

Under the Decision of OJSC "MOESK" as of 13 December 2006 (Minutes 37 as of 15 December 2006), the Company created the Audit Committee under the Board of Directors of OJSC "MOESK", the competence of which among other issues includes "issue of preparation for the Company Board of Directors of the recommendations concerning a nominee of the Company Auditor, which shall be elected from among the independent auditors possessing high professional reputation, for the subsequent approval of this nominee by the Company General Shareholder Meeting; development of recommendations on the conditions of carrying out of the competitive selection of the Company Auditor, participation in carrying out the competitive selection of the Company auditor in case of its carrying out".

The procedure of nomination of the auditor, including the governance body, making the corresponding decision:

According to item 10.2., Article 10, the issuer's Charter, the competence of the issuer's general meeting of participants includes:

«approval of the Company Auditor».

According to item 15.1. of Article 15 of the issuer's Charter, the competence of the issuer's Board of Directors includes the item:

"Recommendations to the Company General Shareholders Meeting on the amount of remuneration and compensation paid to members of the Company Checkup Committee and definition of the amount of payment for the Auditor's services".

The information on the works held by the auditor within the limits of special auditor tasks:

The Auditor did not hold works within the limits of special auditor tasks.

The procedure of definition of the auditor's remuneration amount:

According to item 21.9. of Article 21 of the issuer's Charter, the amount of payment for the auditor's services is defined by the Board of Directors.

There are no deferred and back payments for services rendered by the auditor

1.4. Data on the issuer's appraiser:

The appraiser was not involved by the issue for:

Definitions of market cost of placed securities and the placed securities which are in circulation (obligations on which were not executed);

Definitions of market cost of property which is a subject of pledge under placed bonds of the issuer with mortgaging maintenance or placed bonds of the issuer with mortgaging maintenance, obligations on which are not executed;

Definitions of market cost of the fixed assets or real estate of the issuer in which relation the issuer carried out the revaluation of cost reflected in other sections of the quarterly report;

Rendering of other services in an estimation, connected with realisation of securities issue, the information about which is underlined in the quarterly report.

The financial adviser on securities market, and also other persons rendering to the issuer consulting services, the securities (bond) issue connected with realisation and signed by prospectus of securities, were not involved by the issuer.

1.5. Data on the issuer's advisers:

The financial adviser on the securities market that signed the prospectus for securities (ordinary uncertificated stocks);:

The full company name: *OTKRITIE Brokerage house Joint Stock Company*

The shortened company name: *OTKRITIE Brokerage house JSC*

1.6. Data on other persons who signed the quarterly report:

There are no other persons who signed the issuer's quarterly report and who were not mentioned in the above items of this section:

II. Main information on the issuer's financial and economic standing

2.1. Indicators of the issuer's financial and economic activities

The indicators of financial and economic activities as of the date of the end of the third quarter of the current fiscal year.

The information is not available in this accounting period.

2.2. Issuer's market capitalization

The information on the issuer's market capitalization is not available for the last 5 years because was registered as legal person.

Data on market capitalization of the issue is placed for last complete fiscal year and on close date of accounting quarter of current fiscal year:

As the issuer's stocks as of 31 December 2005 on the organized markets were not outstanding, it is not possible to define market capitalization of the issuer under the method provided in Regulations for the Information Disclosing by Issuers of Equity Securities approved by Order as of 16 March 2005 No. 05-5/pz-n (No.05-5/pz-n) (as amended by Order of FFMS of Russia as of 1 November 2005 No. 05-57/pz-n (No.05-57pz-n)).

For the purposes of this paragraph, the issuer's market capitalization at 31 December 2005 is defined on the basis of the net asset value. Calculation of net asset value of OJSC "Moscow United Electric Grid Company" is made under the method specified in "Procedure of estimation of net asset value of joint-stock companies" approved by Order of the Ministry of Finance of Russia and Federal Commission for the Securities of Russia as of 29 January 2003 No. 10n/03-6/pz (10n/03-6/n3).

The issuer's market capitalization as of 31 December 2005 was RUR 27,135,086 thousand.

OJSC «Moscow United Electric Grid Company» stocks in 2006 are admitted to the reference on OJSC «Russian Trading System Stock exchange», NP « Russian Trading System Stock exchange» and Joint-Stock Company «MICEX Stock Exchange » (MICEX Stock exchange).

The Company stocks are included in quotation list "B" of Closed Joint-Stock Company «MICEX Stock exchange» and OJSC «Russian Trading System Stock exchange».

Market capitalisation for the accounting quarter of the current fiscal year is calculated as product of total of corresponding category (type) stocks on the market price of one stock, disclosed by the organizer of trade on a securities market and defined according to the Procedure of payments of issue securities market price and investment stock of stock investment funds, admitted to the reference through organizers of the trade, the confirmed Decision of Federal Commission on Securities of Russia as of 24.12.2003 №03-52/ps.

For calculation of market capitalisation the Company uses the data on a market price of one stock, disclosed by Joint-Stock Company «MICEX Stock exchange».

2.3. Issuer's liabilities

2.3.1. Accounts payable

The information is not available in this accounting period.

2.3.2. Issuer's credit history

The information on operating credit contracts, the amount of the principle debt under which exceeds 5% of the balance sheet assets of OJSC "MOESK" at the date of the last completed quarter prior to making the respective contract as of 30 September 2008 is presented in table 1.

Table 1.

<i>Liability name</i>	<i>Creditor (debtee) name</i>	<i>Amount of the principle debt (RUR'000)</i>	<i>Currency of the contract</i>	<i>Term of repayment</i>	<i>Presence of a delay in execution of the liability with regard to the payment of the amount of the principle debt or interest</i>
<i>Credit line</i>	<i>Open Joint Stock Company "Alfabank"</i>	<i>370,000.00</i>	<i>2 350 000 000,00</i>	<i>12.09.2006</i>	<i>None</i>

In the third quarter 2006, the issuer placed unconvertible interest certificated bearer bonds of series 01 (state registration number is 4-01-65116-D as of 22 June 2006) with the repayment term on the 1820th day from the date of the beginning of placement of bonds of the issue.

The volume of the securities issue at par value: 6,000,000,000 (six billion) rubles, 17.75% of the issuer's balance sheet assets as of 31 March 2006

The date of the state registration of the report on results of the securities issuance: 24 October 2006

The number of securities of the issue: 6,000,000 (six million) pieces

Face-value of each security released: 1 000 (one thousand) rubles

The general amount of income under the first coupon, available for distribution under Bonds of the issue equals 240 840 000 (two hundred forty million eight hundred forty thousand) rubles; the percent amount and (or) other income which is available for distribution under one Bond of the issue equals 40 (forty) rubles 14 (fourteen) copecks.

Date in which the obligation on income payment under the first coupon under Bonds should be executed: 13 March, 2007

The general percent amount and (or) other income paid under Bonds: 0 (Zero) of rubles.

2.3.3. Liabilities of the issuer from the securing granted to the third parties

Data on the issue obligations from the maintenance given to the third parties on a close date of accounting quarter are not placed in connection with absence of the generated indicators of the annual accounting reporting, terms of preparation and representation of which, according to the law «About book keeping» (№Ф3-129 from 21.11.1196) make 90 days from the moment of the fiscal year termination.

2.3.4. Issuer's other liabilities

At the date of drawing up of the quarterly report, the issuer has no agreements and obligations, including futures transactions which are not reflected in its accounting balance sheet, which may have a significant effect on the issuer's financial standing, its liquidity, sources of financing and conditions of their use, results of activities and charges.

2.4. The purposes of issue and ways of use of the funds received as a result of placement of issue securities:

The purpose of bonds issue was re-structuring of a credit portfolio, creation of public credit history.

2.5. Risks connected with purchase of equity securities placed (or being in the process of placement)

2.5.1. Industry risks

Influence of possible deterioration of the situation in the issuer's sector on its activities and execution of obligations under securities:

The issuer started its economic activities in the second quarter 2005. The basis of the company activities is electric energy transmission to the end user and to adjacent electric grids of other owners, and operation of electric grids on the territory of Moscow and the Moscow region.

The most significant changes in the electric power industry for the issuer are:

- *Changing of tariff policy of electric power transportation that may have an adverse effect on the financial and economic standing of the enterprise.*

According to the issuer, deterioration of the environment in the sector may be connected with:

The operational risks connected with deterioration of the equipment and deterioration of the fixed capital. Possible negative changes in the sector: an opportunity of occurrence of emergencies, loss of reliability of power supply, breaks in manufacture of electric power, decrease in capacity of generating stations.

The issuer's actions for these risks reduction:

- *Reconstruction of operating and construction of new transmission lines, transformer substations and distribution equipment;*
- *Modernisation of fixed capital.*

Besides, the issuer is subject to industrial risks:

- *Risk of transition to works with the enforced (accident preventive allowable) cross flow;*
- *Risk of single drastic increase in loading over the planned value on the basis of consumers' applications;*
- *Technical risks connected with operation of the equipment. They are caused by such factors as operation of the equipment with maximum deviations from normative and technical requirements; mistakes of operational personnel; disruption of the dispatching schedule and breach of discipline.*

The issuer's actions to reduce these risks:

The issuer holds analysis of probable risk situations in order to forecast an occurrence of risks at realization of the production program and taking measures on protection against their influence. The main Company's forms of reduction and compensation of the damage amount are:

- *Insurance: commercial insurance of the property, hazardous industrial objects, vehicles, civil liability, insurance of the personnel against accidents and illnesses, and medical insurance;*
- *Self-insurance: creation of reserves of materials and spare parts, performance of actions to increase reliability of the power supply system;*
- *Analysis of scripts: forecasting of possible ways of development of the current situation, planning of actions on localization and liquidation of consequences of failures;*
- *Control over duly replacement, reconstruction of the depreciated or overloaded equipment, performance of repair works, over functioning of the labour safety management system, environment and sources of pollution.*

The risks connected with possible change of the prices for raw material, services used by the issuer in its activities (separately in the internal and external markets) and their influence on the issuer's activities and execution of obligations under securities:

The risks connected with increasing prices for the equipment and other material resources used by the issuer in its activities.

The issuer's actions to reduce these risks:

- *Creation of the competitive environment in the sphere of works and services purchasing;*
- *Optimization of expenses for repair and operational needs and capital construction;*
- *Elimination of cross purchases;*

The risks connected with possible change of the prices for products and/or the issuer's services (separately in the internal and external markets) and their influence on the issuer's activities and execution of obligations under securities:

The risks connected with state regulation of tariffs for the electric power, as a result of which they may be established below the economically feasible level.

Possible influence of negative changes: deterioration of the issuer's financial and economic standing.

The issuer's actions to reduce these risks:

- *Carrying out of works on making long-term contracts on electric power transportation;*
- *Carrying out of the balanced financial policy;*
- *Strengthening of works with the state legislative and executive authorities.*

The issuer does not plan to carry out activities on the foreign market, and in this connection the essential negative influence on the issuer's activities may render only global deterioration of the situation in the world fuel and energy market which may also affect Russia.

2.5.2. Country and regional risks

Country risks

Negative changes of the situation in Russia which may affect the issuer's economic situation and its activities are not expected in the near future. But the destabilization of the economic situation in the country connected with the crisis in the world financial markets or sharp reduction of prices is entirely possible. Besides, the destabilization of the situation in the country due to occurrence of labour conflicts, increase of the social tension as a result of unpopular actions of the authorities may take place at realization of reforms in the economic sector.

Regional risks

The main industrial activities of the issuer are carried out in Moscow and the Moscow region. This is one of the most developed regions of the country, which rooms a plenty of consumers of the electric power. Thus, the energy consumption constantly grows. All this allows to speak about the stability of the issuer and its minor susceptibility to regional risks.

The growth of the gross national product and production growth in the country and, in particular, in the most densely populated and historically industrial areas of Moscow and the Moscow region gives grounds for making a positive forecast on the issuer's development. The issuer estimates the political and economic situation in the region as stable. The further improvement in the economic standing of the region will certainly render a positive influence on the issuer's activities and will be favorably reflected in its financial standing. Negative changes of the situation in the region of the issuer's business and in the Russian Federation as a whole which may affect the issuer's activities and economic standing are not expected in the near future.

The issuer's assumed actions in the event of negative influence of change of the situation in the country and region on its activities:

The major part of these risks may not be controlled by the issuer due to their global scale. In case of destabilization of the situation in Russia or in a separate region which may affect the issuer's activities, the latter will take a number of measures on anti-recessionary management for the purpose of the maximal decrease in negative influence of the situation on the issuer.

The risks connected with possible military conflicts, introduction of state of emergency and strikes in the country (countries) and region, where the issuer is registered as the tax bearer and/or carries out primary activities:

The risks connected with possible military conflicts, introduction of state of emergency and strikes with reference to the Russian Federation and the Moscow region are estimated by the issuer as minimal.

The risks connected with geographical features of the country (countries) and region, in which the issuer is registered as the tax bearer and/or carries out primary activities (including the raised danger of acts of nature, possible breaks of the transport communication in connection with a remoteness and/or inaccessibility, etc.):

The issuer carries out the activities in the region with the developed infrastructure and is not subject to the risks connected with breaks of the transport communication in connection with remoteness and/or inaccessibility.

Influence of the specified risks on the issuer's activities with reference to the Russian Federation and the Moscow region is estimated as minimal.

The issuer runs the risks connected with raised danger of acts of nature: breakage of transmission lines during hurricane, a strong snowfall, ice.

The issuer's actions to decrease the influence of these risks are designing of transmission lines in view of features of weather in the region, and insurance.

2.5.3. Financial risks

Susceptibility of the issuer to the risks connected with change of interest rates, exchange rate of foreign currencies, in connection with activities of the issuer or in connection with the hedging which is carried out by the issuer in order to decrease adverse consequences of influence of the above-stated risks:

Within the limits of planned financial and economic policy, the issuer is going to involve various extra means and in due time to carry out repayment of obligations. Hence, the issuer is subject to risk of change of interest rates under interest obligations. This risk is estimated as small.

The primary clients who carry out transportation of the electric power are residents of the Russian Federation; the prices for transportation of the electric power are also expressed in the currency of the Russian Federation. In this connection the issuer is poorly subject to risks of change of exchange rates of foreign currencies.

Susceptibility of the issuer's financial standing (its liquidity, sources of financing, results of activities, etc.) to the exchange rate change:

The issuer's financial standing, its liquidity, sources of financing, results of activities depend on changes of the rate of exchange, because the issuer's activities are planned to be carried out so that its assets and liabilities are expressed in the national currency. Besides, the issuer does not plan to carry out activities on the foreign market. Therefore, the influence of change of the rate of national currency in relation to US dollar on the issuer's financial standing is estimated as insignificant.

The issuer's assumed actions in case of negative influence of change of the exchange rate and interest rates on the issuer's activities:

Susceptibility of the issuer to the risk of change of the exchange rate of foreign currencies is estimated by the issuer as insignificant, because the issuer's all obligations are expressed in the currency of the Russian Federation.

The issuer runs the risk of change of interest rates. In case of interest rates increase, the expenses for servicing extra means will also go up.

The issuer's assumed actions in case of negative influence of the interest rates change on its activities:

- *Attraction of long-term credits and loans in order to avoid a negative influence of short-term fluctuations of interest rates;*
- *Decrease in the share of credits and loans in the issuer's current assets.*

Influence of inflation:

A negative impact of inflation on the issuer's financial and economic activities may be limited to the following risks:

- *Risk of the losses connected with losses in real value of debt receivable at an essential debt rescheduling or a delay in payment;*
- *Risk of increase in interest payable;*
- *Risk of increase of the production cost of goods, products, works, services due to an increase in the price for energy, transport charges, wages, etc.*
- *Risk of reduction of real value of means under the investment program.*

The critical value of the inflation, in opinion of the issuer:

The scheduled rates of inflation established by the Government of the Russian Federation among the purposes of the economic policy, as a whole, are fulfilled and tend to reduction. Nevertheless, at escalation of inflation, the issuer plans to raise the turnover rate of current assets due to changing contractual relations with consumers. In view of the fact that there is a restriction on raising of the issuer's tariffs on electric energy transmission within the limits of no more than 10% a year, and potential profitability of activities, in opinion of the issuer, the value of inflation which are a matter of difficulties for the issuer is at least 40% per annum.

The issuer's assumed actions to reduce the risk caused by inflation:

If the value of inflation exceeds the specified critical values, the issuer plans to increase a share of short-term financial instruments in its assets, and to hold actions to reduce internal costs.

The indicators of the issuer's financial reporting which are most subject to changes as a result of the specified financial risks' influence:

The main indicator which is most subject to changes connected with financial risks, is the company profit. Along with a growth of interest rates, the interest payments for using credits of commercial banks increase and, accordingly, the company profit decreases. Besides, the profit does down at an increase in the cost price of electric power transportation and fixing of tariffs at the legislative level.

The risks influencing the specified indicators of the issuer's financial reporting and probability of their occurrence:

A substantial growth of interest rates and, as a consequence, growth of expenses for service of the issuer's debts.

The probability of their occurrence is estimated as low.

2.5.4. Legal risks

The legal risks connected with the issuer's activities:

Changes of the currency regulation:

Changes of the currency and customs legislation of the Russian Federation do not influence the Company activities and, hence, do not entail occurrence of legal risks on them.

Changes of the tax laws:

Now the Government of the Russian Federation pursues a policy of decrease in tax load on the Russian tax bearers. In this connection, amending the tax laws regarding an increase in tax rates is not expected in the near future.

This risk is considered as insignificant.

In order to minimize the risk of wrong calculation and/or payment of the taxes caused the varying treatment of norms of the legislation, the Company holds a permanent work on optimization of tax schemes of calculation of tax base in strict compliance with the current legislation of the Russian Federation.

In case of amending the operating procedure and terms of the taxation, the issuer aims to plan the financial and economic activities taking in account these changes.

Changes of rules of the customs control and duties:

Changes of rules of the customs control and duties which may create legal risks connected with the issuer's activities are not expected.

Changes of requirements on licensing the issuer's primary activities issuer or licensing rights to use objects, the availability of which is limited (including natural resources):

Changes of requirements on licensing the Company primary activities may lead to an increase in the term of preparation of the documents which are necessary for prolongation of the validity of the license, and necessity of the compliance with the requirements established. However, as a whole, this risk should be considered insignificant, except for the cases when the requirements will be set which cannot be met by the Company, or the compliance with which will be connected with excessive expenses for prolongation of the license or for realization of the activities which are subject to licensing, that may lead to the termination of this activities line.

In case of change of requirements on licensing the primary activities of the issuer or licensing of rights to use objects, the availability or circulation of which is limited, the issuer will take necessary measures to obtain the respective licenses and permits.

Changes of the judiciary practice connected with activities of the issuer (including concerning license granting):

The probability of change of judiciary practice concerning the items connected with the Company activities is insignificant. The legal risk management is based on optimization of the process of legal official registration of papers and support of activities of the Company. For minimization of legal risks, any Company business processes subject to risks (for example, the completion of contracts), pass obligatory legal examination.

In case of amending judiciary practice on the issues connected with the issuer's activities, the issuer will plan the financial and economic activities taking into account these changes.

In connection with the fact that the issuer does not plan to hold activities on foreign markets, the analysis of influence of the legal risks connected with the issuer's activities on foreign markets is not provided.

2.5.5. Risks connected with the issuer's activities

The risks which are peculiar exclusively to the issuer:

There is a risk of a delay in reception of the licenses which are necessary for realization of certain kinds of the company activities in connection with changes of the legislation in the field of license granting with coming in effect of the Federal Law as of 2 July 2005 No. 80-FZ (80-Φ3) "Amending the Federal Law "On granting licenses for certain activities", the Federal Law "Protection of rights of legal entities and individual businessmen at carrying out the state control (supervision)" and the Administrative Offences Code of the Russian Federation".

There is a risk of a delay in renewal of licenses, which is connected with the company re-structuring.

The issuer estimates risk of non-prolongation of the effect of the issuer's license for holding a certain line of activities or for use of objects, the availability of which is limited (including natural resources) as insignificant.

The possible responsibility of the issuer under debts of the third parties also does not render much influence on the issuer's financial standing.

The possibility of loss of consumers, the turnover with which is at least 10 percent of the total proceeds from products (works, services) is regarded by the issuer as insignificant.

The issuer runs the risks connected with a seasonal nature of consumption of electric energy. The peak of consumption is observed in the autumn and winter period; in connection with this the issuer runs risks of the grids' overload.

There are no other risks connected with activities of the issuer, which are peculiar exclusively to the issuer.

This section 2.5 describes only the risks which, in the issuer's opinion, are material. There may be other risks which were not included in this section. Other risks the issuer is unaware of, or which are now not material for the issuer, may have a potential negative impact on the issuer's economic activities.

III. Detailed information on the issuer

3.1. Issuer's establishment and development history

3.1.1. Data on the issuer's name

The issuer's full company name in Russian:

Открытое акционерное общество «Московская объединенная электросетевая компания»

The issuer's full company name in English:

Open Joint-Stock Company "Moscow United Electric Grid Company"

The issuer's shortened company name in Russian:

OJSC «Московская объединенная электросетевая компания»;

OJSC «МОЭСК»

The issuer's shortened company name in English:

OJSC "Moscow United Electric Grid Company"

OJSC "MOESK".

The current name was put into effect on 14 September 2006.

The issuer's name is not registered as a trade mark or a service mark.

According to the decision of the annual general shareholders meeting of OJSC "Moscow Regional Electric Grid Company" as of 26 June 2006 (Minutes No. 3 as of 6 July 2006), changes were made to the Company Charter which are connected with its company name.

The previous full company name of the issuer in Russian:

Открытое акционерное общество «Московская областная электросетевая компания»

In English: ***Open Joint-Stock Company "Moscow Regional Electric Grid Company"***

The previous shortened company name of the issuer in Russian:

OJSC «Moscow Regional Electric Grid Company»

In English: ***OJSC "Moscow Regional Electric Grid Company"***

3.1.2. Data on the state registration of the issuer

Primary state registration number of the legal entity (PSRN): ***1057746555811***

Date of state registration: ***1 April 2005***

Name of registering body according to the data specified in the certificate on making an entry in the Uniform State Register of Legal Entities: ***Interdistrict Inspection of the Federal Tax Service no. 46 in Moscow.***

3.1.3. Data on the issuer's creation and development

Time of existence of the issuer from the date of its state registration (1 April 2005) is 1 year and 9 months.

The issuer was established for an indefinite time.

The brief description of the history of the issuer's creation and development:

Open Joint-Stock Company "Moscow United Electric Grid Company", renamed as OJSC "Moscow Regional Electric Grid Company" (Minutes No. 3 of the annual general shareholder meeting of OJSC "Moscow Regional Electric Grid Company" as of 6 July 2006) was created as a result of reorganization of OAO Mosenergo in the form of a spin-off (Minutes No.1 as of 29 June 2004 of the annual General shareholders meeting of OAO Mosenergo).

The Company is a legal successor with regard to a part of the rights and duties of OAO Mosenergo according to the separation balance sheet of OAO Mosenergo approved by the annual general shareholders meeting of OAO Mosenergo (Minutes No. 1 as of 29 June 2004)

The purpose of creation of the issuer: *according to the issuer's Charter (item 3.1. Article 3), the main purpose of the Company's activities is profit making.*

The Company primary goal is transformation, distribution and supply of the electric energy to consumers.

According to the issuer's Charter (item 3.2. Article 3), the Company's activities are as follows:

- *rendering services on gathering, transmission and processing of the technological information, including the measurements and registration;*

- *diagnostics, operation, repair of electric grids and other electric grid facilities and technological management by them;*

- *diagnostics, operation, repair of technological communication networks, means of measurements and calculation, equipment of relay protection and emergency preventive automatics and other technological equipment connected with operation of grid facilities and technological management by them;*

- *development of long-term forecasting, perspective and current plans of development of the electric grid complex, target complex scientific and technical, economic and social programs;*

- *development of electric grids and other electric grid facilities including designing, engineering researches, construction, reconstruction, modernisation, installation and adjustment;*

- *development of technological communication grids, means of measurements and registration, equipment of relay protection and emergency preventive automatics and other process equipment connected with operation of electric grid facilities, including designing, engineering researches, construction, reconstruction, modernisation, installation and adjustment;*

- *operation of explosive, chemically and fire-dangerous industrial objects connected with functioning of electric grid facilities;*

- *activities for prevention and extinguishing of fires, installation, repair and servicing of means of maintenance of fire safety of buildings and constructions connected with functioning of electric grid facilities;*

- *realization of the technological control, carrying out of examination of industrial safety and labour safety at electric grid facilities;*

- *storage of oil products used for the technological purposes;*

- realization of foreign trade activities, trade and economic and scientific and technical cooperation with foreign firms, in order to support the Company activities stipulated by its Charter;
- educational activity for the purpose of preparation, retraining and training of the personnel, including examination by the personnel of rules of technical operation, fire prevention rules, and other normative documents;
- transportation of cargoes and passengers by automobile, railway and air vehicles for the technological purposes;
- operation, maintenance works and repair of automobile, railway and air vehicles and the load-lifting mechanisms used for the technological purposes;
- security activities exclusively in interests of own safety within the limits of security service created by the Company which in its activities is guided by the Law of the Russian Federation "On private detective and security activities in the Russian Federation" and the current legislation of the Russian Federation;
- Company and carrying out of defensive actions concerning mobilization preparation, civil defence, extreme situations and protection of the state secret information, according to the current legislation of the Russian Federation;
- liquidation of consequences of the failures at communication lines, contact and power electric systems;
- other lines of activities which are not forbidden by the legislation of the Russian Federation;

The Company may be engaged in certain kinds of activities defined by federal laws only on the basis of a special permit (license).

The issuer's mission: *the issuer's mission is not defined by the issuer's internal documents.*

Other information on the issuer's activities which is important at taking a decision on the issuer's securities purchasing: *none.*

3.1.4. Contact information

The location of the issuer: *142100, Moscow region, Podolsk city, Ordzhonikidze street, 27*

The location of the issuer's constantly operating executive body:

115114, Moscow, 2nd Paveletsky passage, 3, bld. 2

Contact telephone numbers of the issuer: *(495) 982-38-57; 981-89-77*

Fax: *(495) 585-14-51*

Email: odou@moesk.ru

The Internet website where the information on the issuer and the securities issued by it is available: odou@moek.mosenergo.elektra.ru

The functions of the issuer's special division for works with shareholders and investors are assigned to the IR Department of OJSC "Moscow United Electric Grid Company"

The location: *115114, Moscow city, Derbenevskaya emb., 7, bld. 14*

Telephone number: *(495) 980-12-64, 980-12-65*

Fax: *(495) 585-14-74*

Email: : *SobakinaTV@ocb.ia.moesk.mosenergo.elektra.ru*

3.1.5. Taxpayer identification number

TIN is *5036065113*

3.1.6. Branches and representative offices of the issuer:

<i>Name of the representative office/ branch</i>	"Southern Electric Networks"
<i>Date of opening</i>	1 April 2005
<i>Location</i>	115201, Moscow, Kashirskoye high road, 18
<i>Full name of the director of the representative office/ branch, Term of the effect of the power of attorney</i>	<i>Alexander Igorevich Raev</i> Term of the effect of the power of attorney: Till 01 August 2007 № 198-D as of 14.11.2006

<i>Date of opening</i>	1 April 2005
<i>Location</i>	107140, Moscow, Nizhnyaya Krasnoselskaya, 6, bld. 1
<i>Full name of the director of the representative office/ branch, Term of the effect of the power of attorney</i>	Gennandy Emmanuilovich Trakhtenberg Term of the effect of the power of attorney: till 31 December 2008

3.2. Issuer's main economic activities

3.2.1. Issuer's industry

Codes of the main kinds of economic activities of the issuer under the All-Russian Classifier of Economic Activities (OKVED): 40.10.2 28.11 31.10.9 31.20 31.20.9 31.62.9 33.20
40.10.3 41.00 45.11 45.2 45.3 45.4 55.12 55.23 55.51 60.10 63.12
63.21.2 63.40 64.20 70.12 70.20 90.00

3.2.2 Issuer's main economic activities

The information is not placed in the given accounting period.

3.2.3. Issuer's materials, goods (raw material) and suppliers

The information is not placed in the given accounting period.

3.2.4. Sales markets of the issuer's products (works, services)

The main markets on which the issuer carries out its activities:

According to the purposes of creation the issue carries out the primary activity on provision services for a fee in electric energy transfer to Moscow and Moscow region where it is the largest organisation of such profile.

Possible factors, which can negatively influence on production sale by the issue (works, services) and possible actions of the issue on reduction of such influence:

Major factors, which can negatively affect on production sale by the issue (works, services) are incomplete and untimely fee on a principal view of activity and occurrence of emergencies in the issue electric networks.

With a view of reduction of negative factors influence on the issue activity, the primary goals are:

- *Expansion of services commodity market,*
- *Optimisation of productions,*
- *Decrease in costs by transfer to the electric power,*
- *Constructing and modernisation of the equipment with modern technologies using,*
- *Attraction of contract organisations on fixing the indications of the electric power account devices,*
- *Volumes formation of rendered services in electric energy transfer and measuring complexes service.*

3.2.5. Issuer's licenses

As of 31 December 2006, the issuer disposes of the following special permits (licenses):

1. Number: № EE-00-005288 (E);

Date of issue: **18 April .2005;**

Period of validity: **till 18 April 2010;**

Authority that issued the special permit (license): **Federal Service for Ecological, Technological and Atomic Supervision;**

Business line: **activities on operation of electric networks [reception, transfer and distribution of electric energy; maintenance service and repair of electric networks.**

2. Number: **No. № ET-00-005244 (C);**

Date of issue: **12 April 2005;**

Period of validity: **till 12 April 2010;**

Authority that issued the special permit (license): **Federal Service for Ecological, Technological and Atomic Supervision;**

Business line: **activities on operation of electric networks [reception, transfer and distribution of electric energy; maintenance service and repair of electric networks.**

3. Number: **№ HN-02-000430 (H);**

Date of issue: **24 June 2005;**

Period of validity: **till 24 June 2010;**

Authority that issued the special permit (license): **Federal Service for Ecological, Technological and Atomic Supervision;**

Business line: **storage of oil, gas and products of their processing**

4. Number: **No. № 1/08123;**

Date of issue: **8 July 2005;**

Period of validity: **8 July 2010;**

Authority that issued the special permit (license): **The Central Administration of The RF-EMERCOM State Fire-Fighting Service;**

Business line: **activities on fire prevention and fighting**

5. Number: **No. № 2/1337;**

Date of issue: **8 July 2005;**

Period of validity: **8 July 2010;**

Authority that issued the special permit (license): **The Central Administration of the RF-EMERCOM State Fire-Fighting Service;**

Business line: **manufacturing of works on assembling, repair and servicing of fire safety devices of buildings and structures.**

6. Number: **№ 3/01238;**

Date of issue: **17 June 2005;**

Period of validity: **17 June 2010;**

Authority that issued the special permit (license): **The Central Administration of the RF-EMERCOM State Fire-Fighting Service;**

Business line: **operation of fire-dangerous industrial objects.**

7. Number: № *GS-1-50-02-27-0-5036065113-028482-1*;
Date of issue: *12 September 2005*;
Period of validity: *12 September 2010*;
Authority that issued the special permit (license): *The Federal Service for Construction housing maintenance and utilities*;
Business line: Buildings constructing of I and II levels of responsibility according to the state standard
8. Number: № *GS-1-50-02-26-0-5036065113-028481-1*;
Date of issue: *29 August 2005*;
Period of validity: *29 August 2010*;
Authority that issued the special permit (license): *The Federal Service for Construction housing maintenance and utilities*;
Business line: Buildings constructing of I and II levels of responsibility according to the state standard.
9. Number: № *001162-P*;
Date of issue: *26 July 2005*;
Period of validity: *26 July 2010*;
Authority that issued the special permit (license):): *The Federal Technical Regulation and Metrology Agency*;
Business line: activities on measurement devices repairing
10. Number: №*37600*;
Date of issue: *23 December 2005*;
Period of validity: *23 December 2010*;
Authority that issued the special permit (license): *The Federal Service for Supervision in the Sphere of Communications*;
Business line: **Telecommunication service on granting of communication channels..**
11. Number: №*37601*
Date of issue: *23 December 2005*;
Period of validity: *23 December 2010*;
Authority that issued the special permit (license): *Federal service on supervision in communication sphere*;
Business line: **Services of local telecommunication, except for services of local telecommunication with payphones using and means of collective access.**
12. Number: №*37667*
Date of issue: *23 December 2005*;
Period of validity: *23 December 2010*;
Authority that issued the special permit (license): *Federal service on supervision in communication sphere*;

Business line: Telecommunication service on transfer of voice data to data transmission networks.

13. Number: *№ЭБ-02-000952 (К)*;

Date of issue: *29 June 2006* ;

Period of validity: *29 June 2012*;

Authority that issued the special permit (license): *Federal Service for Ecological, Technological and Atomic Supervision*;

Business line: *Operation of explosive industrial objects*

14. Number: *№8924*;

Date of issue: *27 July 2006*;

Period of validity: *27 July 2010*;

Authority that issued the special permit (license): *The Administration of the Federal Security Service of the Russian Federation for Moscow and Moscow Region*;

Business line: *holding actions and (or) services in the field of the state secret protection.*

The issuer plans to obtain a number of additional special permits (licenses) which are necessary for its normal functioning including rendering services in communication.

The issuer's forecast on a probability of prolongation of a special permit (license):

The issuer estimates the risk of non-prolongation of the available special permits (licenses) as minimal.

3.2.6. Issuer's joint activities

The issuer is not engaged in the joint activities with other Companies.

3.2.7. Additional requirements to the issuers which are joint-stock investment funds, insurance or credit Companies, and mortgage agents

The issuer is not a joint-stock investment fund, insurance or credit Company, mortgage agent.

3.2.8. Additional requirements to the issuers, the primary activities of which are extraction of minerals

The information is not presented, as the issuer does not carry out extraction of minerals, including extraction of precious metal and jewel, and has no subsidiaries or dependent entities which conduct activities on extraction of the specified minerals.

3.2.9. Additional requirements to the issuers, the primary activities of which are rendering communication services

The information is not presented, as the issuer's primary activities do not include rendering communication services.

3.3. Issuer's plans of the future activities

The brief description of the issuer's plans concerning the future activities

In conformity with the Charter, the main goal of the issuer's activities is profit making. On this basis, the issuer plans to continue works in the field of the primary activities - electric energy transmission.

As may be necessary, in the event of a growth of loading and deterioration, activities on re-equipment and reconstruction of the fixed assets will be held.

The sources of the future incomes:

OJSC "Moscow United Electric Grid Company" plans the following sources of incomes:

- Transmission and distribution of electric energy;*
- Incomes from leasing out buildings and constructions;*
- Technological connection to electric networks;*
- Other incomes.*

Plans of new manufacture arrangement, expansion or decrease in production, working out of new kinds of production, modernisation and reconstruction of the fixed assets:

OJSC «Moscow United Electric Grid Company» provides in immediate prospects to continue works on reconstruction and modernization of operating electric networks and corresponding equipment.

The technological purposes of investments in the future will be replacement of existing worn out equipment on the new high-efficiency transferring equipment.

Plans of the Emitter include new consumers connection. New consumers connection means technological connection of power receivers to electric networks. It will allow the Emitter to raise reliability and quality of power supply due to installation of the highly technological equipment, simultaneously having expanded client base.

Payment leading up for new consumers connection in to Moscow and Moscow region according to Decision of Moscow REC as of 15.08.2006 №28, the order of the Fuel and energy complex of Moscow region as of 29.05.2006 №14/05-05, Decision of Moscow REC as of 08.09.2006 №39 will give additional possibilities for reconstruction and modernization of the company electronetwork equipment, introduction of modern technologies, increase of reliability and safety of Moscow electric systems work and Moscow region.

Within the limits of the Program realisation of prime stocks for Moscow power supply system reconstruction of Open Joint Stock Company «Moscow United Electric Grid Company » in 2006-2008 it is necessary to enter and reconstruct 27 substations which transformer capacity nearby 6 877 MVA and to stretch 463 km of cable and air-lines of electricity transmission pressure 110-220 sq.

Investments on OJSC "MOESK" project realisation for three years will equal 75 billion roubles. The program is directed on power supply reliability increase of consumers, increase in throughput of networks, occurrence nonadmission of capacity deficiency in the conditions of prompt growth of a power consumption.

Possible changing of primary activities.

The issuer's activities are connected with the electric power transmission. The issuer does not plan to change primary activities.

3.4. Participation of the issuer in industrial, bank and financial groups, holdings, concerns and associations

The company is included of Holding – JSC RAO “UES of Russia

Term of the issue participation in holding:

Since 1 April 2005 (From the date of the issue state registration).

3.5. Issuer's subsidiaries and dependent economic companies.

The issue has no affiliated and-or dependent companies.

3.6. Composition, structure and value of the issuer's fixed assets, information on plans for the fixed assets purchase, replacement, retirement, and all facts of the issuer's fixed assets encumbrance

3.6.1. Fixed assets

Information on the initial (recovery) value of fixed assets in the amount of the accrued depreciation is not disclosed in this accounting period.

Revaluation of the fixed assets and long-term rented fixed assets has not been carried out since the date of the issue state registration as the legal person (01.04.2005).

Amortization under the fixed asset objects is made by linear way, proceeding from the terms of efficient application of these objects.

IV. Data on the issuer's financial and economic activities:

4.1. Results of the issuer's financial and economic activities

4.1.1. Profit and loss

The information is not disclosing in the given accounting period.

4.1.2. Factors which influence changing of the amount of proceeds from selling by the issuer of the issuer's goods, products, works, services and profit (loss) from the primary activities.

The information is not disclosing in the given accounting period.

4.2. Issuer's liquidity, sufficiency of the equity and working capital

The information is not disclosing in the given accounting period

4.3. Amount and structure of the issuer's equity and working capital

4.3.1. Amount and structure of the equity and working capital

The information is not disclosing in the given accounting period

4.3.2. Issuer's financial investments

The information is not disclosing in the given accounting period

4.3.3. Issuer's intangible assets

The information is not disclosing in the given accounting period

4.4. Data on the issuer's policy and expenses in the field of scientific and technical development, licenses and patents, new development and research.

There is no policy of the issuer in the sphere of the research and development and costs for the implementation of the research and development from own funds for the period since the date of the state registration of the issuer till the moment of the forth quarter end of 2006.

The issuer neither created nor got the legal protection of the main objects of the intellectual property in the 4-th quarter of 2006.

There were no risk factors connected with the possibility of the validity expiration of the basic patents and licenses for trade marks use.

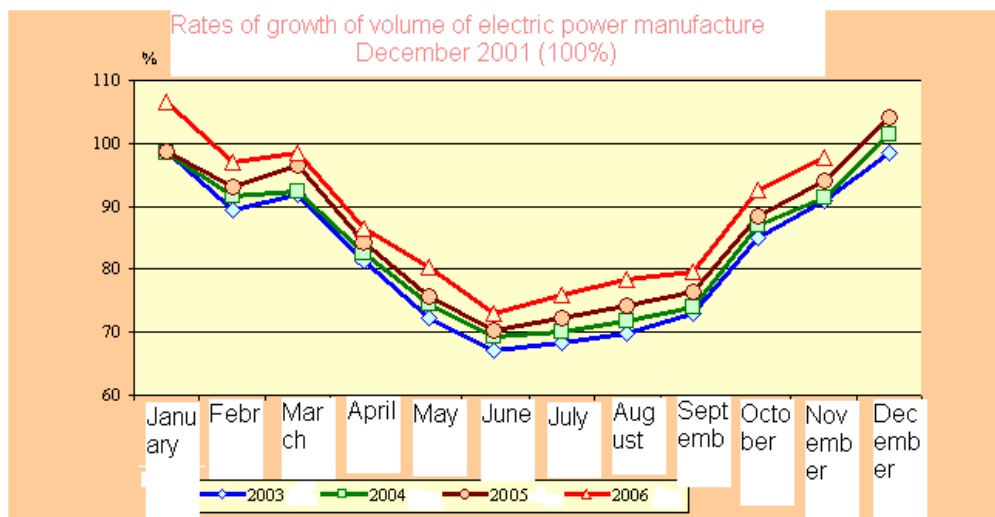

4.5. Analysis of tendencies of development in the sphere of the issuer's primary activities

Russian power industry is one of the largest in the world due to its installed capacity, production and sales of the power energy.

In 2005 in Russia it has been produced 952,2 kW/h of electric power (more than 5,5 % from world volume), that puts the Russian power sector on the 4-th place in the world after the USA, China and Japan. The cumulative established capacity in Russia equals 216 GW, that equals more than 7 % from the world amount.

For January-November of 2006, 895 billion kW/h of electricity power was produced. It outnumbers the correspondent period of 2005 by 39 billion kW/h (4.5%). The increase of the power production was conditioned by the increase of internal market demand and export also it is provided by increase in manufacture of the electric power on thermal and atomic power stations (105,9 % and 105,2 % to level of January-November, 2005, accordingly

Reduction of electric power development by hydroelectric power stations is connected with lowered afflux in water basins of hydroelectric power stations of the European part of Russia during the spring period of 2006. So, in January-November, 2006 electric power development on Volzhsko-Kamskiy cascade in accordance with January-November, 2005 has decreased by 5,8 billion kW/h (14,6 %), and as a whole on hydroelectric power stations by 1,6 billion kW/h (1,0 %).

Thus it is necessary to notice, that, since July, 2006 because of favorable hydrological conditions on a number of the rivers of Russia, the increase takes place in monthly development of the electric power at HYDROELECTRIC POWER STATION. So on Angaro-Yeniseisk cascade in November, 2006 electric power development in comparison with November, 2005 has increased by 0,7 billion kW/h (9,7 %), and as a whole on HPS on 1,4 billion kW/h (10,5 percent).

Manufacture and electric power distribution

	2005		2006		2006 to 2005, %	
	January- November	Including November	January- November	Including November	January- November	Including November
Power energy, billion kW/h	856,3	87,6	895,1	90,5	104,5	103,3
Including power production by the following stations: heat	559,6	60,7	592,9	62,2	105,9	102,4

<i>hydroelectric power</i>	161,1	13,1	159,5	14,5	99,0	110,5
<i>nuclear</i>	135,2	13,7	142,3	13,8	105,2	100,6

The amount of the electric power produced by the heat power stations in the general amount of the produced power was increased from 65.4% in January-November of 2005 up to 66.2% in January-November of 2006. The amount of the electric power produced by the hydro-electric power stations decreased accordingly from 18.8% down to 17,8 %. Nuclear power plants production dropped from 15.8% down to 15.9%.

Electric Power consumption for January-November, 2006 equals 880,4 billion kW/h, that on 4,1 % more than the corresponding period of 2005. Power consumption growth is noted not only in winter in conditions is abnormal low temperatures this year, but also in summer months.

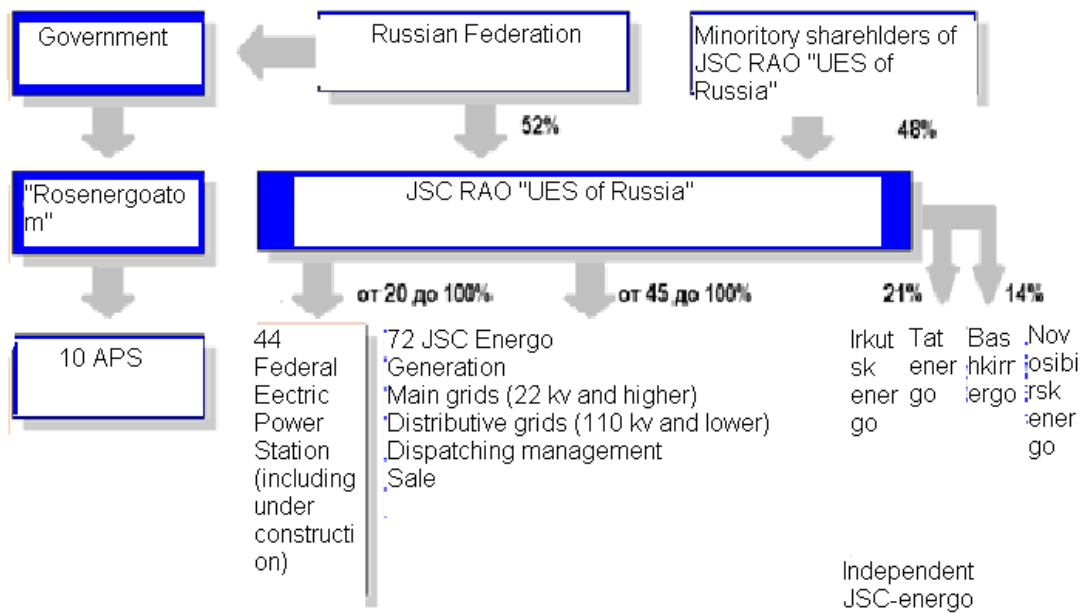

The analysis of manufacture dynamics of the electric power grants the right to consider branch of the electric power constantly growing.

The main player of electric power market in Russia is Open Joint Stock Company RAO "UES of Russia". OJSC RAO "UES of Russia" equals more than 70 % of the electric power in Russia, and development volume of the state atomic power stations (Rosenergoatom) is more then 15 % from total volume of development of the electric power in the country.

Fixed assets of sector have become outdated on 65-70 %. High level of deterioration negatively affects efficiency of generation. According to governmental «Power strategy of Russia for the period till 2020», the annual requirement for investments equals \$7-7,5 bln on replacement and expansion of park of the existing equipment. The problem of insufficient investment in power sector becomes especially actual in the light of strong growth of internal demand for the electric power last years. It creates serious threat of capacities deficiency in some regions already in 2007-2008, even despite high national level of power consumption.

Power stations networks depreciation, in some power supply systems there are not enough lines of high-voltage electricity transmissions. Thus, networks also require huge investments. These and many other things are the reasons have predetermined necessity of reforms for power sector of economy.

The basic companies working in electropower sector of Russia, are OJSC RAO "UES of Russia" and its affiliated companies, Rosenergoatom and a number of the independent power companies, such as Irkutskenergo. The state owns more than 52 % of stocks of OJSC RAO "UES of Russia", 40 % of stocks of Irkutskenergo and completely supervises of Rosenergoatom. The initial structure of sector before the reform assuming reorganisation of OJSC RAO "UES of Russia" and its affiliated companies, is resulted lower.

Source: OAO RAO UES of Russia

If JSC RAO UES of Russia and Irkutskenergo carry out operation of HPS (Heat Power Station) and HPS (Hydro Power Station) Rosenergoatom supervises all the atomic power station in Russia. The established capacity of JSC RAO UES of Russia equals 156 Gwt(72 % from total capacity of power companies of Russia), Rosenergoatom - 23 Gwt (11 % accordingly) and Irkutskenergo - almost 13 Gwt (6 % accordingly).

From the end of 1990th Russian electropower sector has faced a number of challenges, unresolved until this day.

- High degree of deterioration of the basic means of sector (> 70 %). There is a sharp necessity for investments for replacement and expansion of power stations, especially if to consider strong growth of demand for the electric power - more than \$7 billion annually. The state which is the main proprietor in the Russian power sector, is incapable to carry out so large investments.*
- the Initial structure of JSC RAO UES of Russia and its affiliated companies represented the opaque vertically integrated holdings including all stages of manufacture of the electric power: generation, transfer, distribution, dispatching, sale etc. Thus, these companies were not attractive to private investments.*
- the State pricing in the sector, based on a principle «expenses plus», was inefficient, as could not provide demanded profitableness on the investment. Now JSC RAO UES of Russia has changed the approach to management of costs in affiliated and dependent companies and ceased the method "expenses plus" for the method "inflation minus".*

- *High level of a parity of receivables and payables in the sector. In comparison with the end of 1990th, the current situation is much better, however is still far from the comprehensible level.*
- *the Problem of cross subsidising: tariffs for large consumers of the electric power above, than for the population while manufacture of the electric power for the population manages more expensively. Actually, large industrial consumers subsidise a current consumption with the population.*

Gravity of these problems demanded search of decisions. The state has chosen sector reform as a unique way to try to resolve a problem. Major principles of reforming of electric power industry have been put in pawn in the Basic directions of reforming of electric power industry of the Russian Federations confirmed by the Governmental order as of 11 July 2001 № 526. Since 2003 in power sector active process of reforming have been carried out.

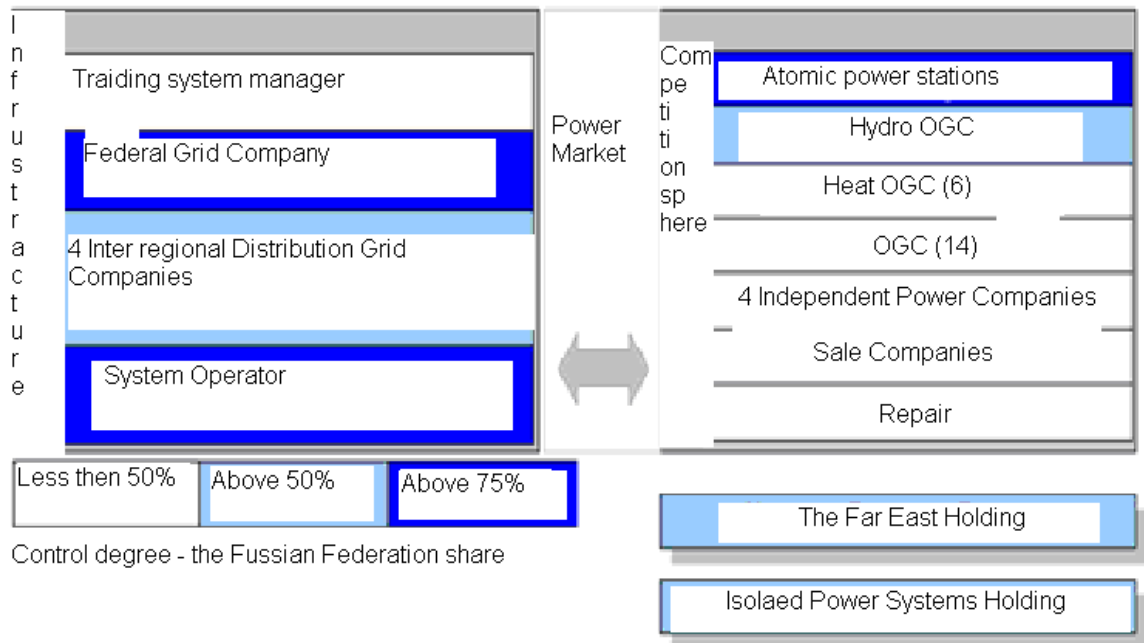

The following plan approved by the government in March, 2003, contains four basic points:

- *sector dividing by activity kinds on is natural-exclusive (transfer and electric power distribution, dispatching) and competitive (generation and sale) companies. This point means reorganisation of JSC RAO UES of Russia and its vertically-integrated regional affiliated companies (joint-stock company-energo) by transfer of different fields of activity to the corresponding companies.*
- *Creation of system of effective market relations in competitive fields of activity. It means, that existing relations regulated by the state in the electric power market should be transformed in market by liberalisation both wholesale, and retail electric power markets. Liberalisation of the market of the electric power includes three consecutive stages: creation of competitive sector of Federal Wholesale Electric Power Market “5-15” (finished); an establishment of short-term adjustable bilateral contracts (the beginning is expected in April, 2006); creation of long-term adjustable bilateral contracts (it is planned for 2007); gradual expansion of competitive sector to 100 % of the wholesale market of the electric power.*
- *not Discriminated access to services of natural monopolies.*
- *Effective and transparent state regulation of exclusive activity, stimulation of decrease in expenses and investments.*

Among the documents regulating process of re-structuring of a power complex, - the non-governmental Concept of Strategy of reforming of OJSC RAO UES f Russia «5+5», confirmed by JSC RAO UES of Russia Board of directors in May, 2003.

According to this Document and the amendments brought by the government in the initial plan, large federal power stations will be consolidated in seven wholesale generating companies (OGC) with the average established capacity for thermal power stations 9Gvt, and Hydro-OGC which will unite basically all hydroelectric power stations of Russia - to 28 GW. All other power stations which have not entered in OGC, should be united in fourteen territorial generating companies (TGC), and distributive networks will be consolidated in four inter-regional distributive network companies (IDGC). The general target structure of the Russian power sector after reform is resulted more low:

III 2. Goal structure of the branch

After reform competitive generation will be presented by seven large wholesale generating companies (Heat stations (6), Hydro (1)), fourteen territorial generating companies and several independent generating companies which will include the existing power companies independent JSC RAO UES of Russia, and also the new power stations constructed by private investors. Exclusive grids fields of activity, such as transfer and distribution, will be presented by the Federal grid company and four large inter-regional distributive companies, accordingly.

Result of the beginning transformations is:

- *Formation and high-grade functioning of the federal wholesale market of power (Federal Wholesale Electric Power Market);*
- *High-grade work of OJSC «FGC UES» and OJSC «SO-CDS UES»;*
- *Reforming of the regional power companies according to a base variant of reorganisation of joint-stock company-energo by allocation of new joint-stock companies with proportional distribution of stocks of the created companies between their shareholders. Generating, network, marketing assets are allocated in separate companies;*
 - *The beginning of formation of the wholesale generating companies on the basis of the large federal stations belonging to JSC RAO UES of Russia and joint-stock company-energo;*
 - *Continuation of formation of the regional network, distributive and marketing companies.*

Main factors influencing the branch condition:

For the past 5 years it is possible to point out the following tendencies characteristic for the branch in general:

- *considerable growth of power consumption since the end of 90-s and increase of the heat and electric power consumption;*
- *increase of the payment discipline of heat and electric power consumers;*
- *increase of the financial results of the power companies activity;*
- *regional systems' balance structure improvement;*
- *decrease of the cross subsidization level;*
- *ageing of the basic equipment (power stations, electric and heat grids) of power companies, lack of the investment resources for the support of the generating capacities.*

General assessment of the issuer's activity results in the given branch, the assessment of the correspondence of the issuer's activity results to the tendencies of the branch development and the reasons determining the acquired results of the activity:

It is necessary to point out the sustainable positive issuer's development dynamics. The issuer acquires the leading position not only at power transmission market of the Moscow Region, but the whole country.

Investment program of the Company determined the priority tasks: improvement of the distribution, development of the electric network, modernization of power transmission lines of the Moscow Region, increase of the reliable power supply in Moscow and the region owing to the construction of new owing centers, increase of the industry productivity, decrease of costs and dangerous impact on the environment. OJSC "MOESK" successfully implemented all the goals of 2007 directed to the elimination of the capacity deficiency in the Moscow Region. The reliability of power transmission in the region was increased. There were no limitations of power in first ten days of December, when the system loads outnumbered the highest loads of the cold 2006. Implementation of the Company's investment program will let eliminate all the restrictions during the power supply in Moscow and the Moscow Region for the period of the autumn and winter loads maximum in future. The Company has even more serious tasks directed to the decrease of accident risk, implementation of the maintenance programs, creation of the attractive environment for the shareholders and investors.

Opinions of the issuer's management bodies concerning the presented information are identical.

The major factors influencing a condition of branch:

For last 5 years it is possible to allocate the following tendencies, characteristic for branch as a whole:

- *considerable growth of power consumption from the end of 90th years, accordingly manufacture increase warmly - and the electric power;*
- *increase of payment discipline of consumers warmly - and the electric power;*
- *improvement of financial results of activity of the power companies;*
- *improvement of structure of balance of regional power supply systems;*
- *reduction of level of cross subsidizing;*
- *capital equipment ageing (power stations, electric and thermal networks) the power companies, a lack of investment resources on maintenance of generating capacities.*

The general estimation of results of activity of the emitter in the given branch, an estimation of conformity of results of activity of the emitter to tendencies of development of branch and the reasons proving received results of activity:

It is necessary to note steady positive dynamics of development of the emitter. The emitter occupies in the lead position in the market of transportation of the electric power not only in the Moscow region, but also in the country.

The investment program of the Society has defined priority problems: improvement of distributive ability and expansion of an electric network, modernization of transmission lines of the Moscow region, increase of reliability of electrosupply of Moscow and area at the expense of building of the

new feeding centers, production efficiency increase, reduction of costs, reduction of harmful influence by environment.

With a view of increase of reliability of power supply of consumers and decrease in breakdown susceptibility, realization of building of new objects, modernization and reconstruction operating, within the limits of execution of the Investment program confirmed by the Company Board of directors, new power objects were put into operation.

The most significant substations for reliable power supply of Moscow region are "Levoberezhnaya", "Vstrecha", «Gorovo», «Tepliy Stan», «Sokolniki», «Ugresha» and others. Constructing of cable lines «Grazhdanskaya-Vojkovskaya I and II», "Novobrattsevo-Vojkovskaya", "Vojkovskaya-Svoboda" are finishing. In 2006 above 3,5 billion rbl were spent on repair work.

The Company has even more serious tasks directed on further increase of work reliability of electonetwork complex in Moscow and Moscow region, decrease of accident risk, implementation of the maintenance programs, creation of the attractive environment for the shareholders and investors.

Opinions of the issuer's management bodies concerning the presented information are identical

4.5.1. Analysis of tendencies of development in the sphere of the issuer's primary activities

Factors and conditions influencing the issuer's activity and the forecast concerning their duration:

Factors and conditions influencing the issuer's activity comprise the following:

- *considerable amount of the state regulation of the branch, concerning the tariffs regulation for heat and electric power;*
- *the growth of power consumption in the place of the issuer's location;*
- *increase of payment discipline of heat and electricity power consumers;*
- *decrease of cross-subsidization level;*
- *ageing of the issuer's basic equipment lack of the investment resources for the generating capacities support;*
- *the given factors will influence the activity of the issuer during near several years.*

Activities taken by the issuer and activities the issuer is planning to take in future for the productive use of the given factors and conditions:

- *to carry out the fixed assets modernization;*
- *to provide the constant growth of all industrial chain constituents efficiency of the issuer;*
- *implementation of the improved procedures of the financial planning;*
- *efforts concentration for the provision of the timely acquisition of the money means concerning the current and overdue accounts receivable;*
- *restructuring of the obligations directed to their extinction during the longer period of time.*

Methods used by the issuer and methods the issuer plans to use in future to decrease the negative effect of factors and conditions influencing the issuer's activity:

- *development of the modern system of transmission and distribution of the electric power;*
- *decrease of losses of power;*
- *increase of the financial control and implementation of the program directed to the decrease of costs;*

- *risks management connected with the basic activity of the issuer;*
- *insurance of the property risks and civil responsibility risks and etc.*

Considerable events/factors which can negatively influence the possibility of the issuer's acquisition of higher results are as follows:

- *deterioration in business, political and social environment in the country;*
- *raw materials and equipment cost growth.*

The probability of the abovementioned factors is considered by the issuer as not high due to the current forecasts of the stable and successful development of the economic, political and social situation in the country in general.

Considerable conditions/factors which can improve the results of the issuer's activity and the possibility of their occurrence and the duration of their action:

There are no considerable factors that can improve the basic activity of the issuer – electric power transmission.

4.5.2. Issuer's competitors

Information on the general and supposed competitors of the issuer concerning the basic types of the activity:

In accordance with the "Strategy Concept of OAO RAO UES of Russia" for 2005-2008 "5+5" each segment of the Russian electric power market (generation, transmission and sale) has independent companies competing with each other. The activity of the issuer is the natural-monopolistic one.

List and factors of the issuer's competitive ability with the description of their influence, according to the issuer on the competitive ability of the produced goods (works and services):

It is not possible to evaluate the factors of the issuer's competitive ability as far as the issuer's activity is natural-monopolistic.

V. Detailed data on the persons that form part of the issuer's governance bodies, bodies of the issuer undertaking control over its financial and economic activities, and brief data on the staff (employees) of the issuer

5.1. Data on structure and competence of the issuer's governance bodies

Data on existing agreements concerning such payments in the current financial year:

The amount and order of remuneration and privileges to Board of directors members is established by "Regulation about remuneration and privileges payment to Board of directors members", confirmed by the Company Annual General meeting at 26 June, 2006

5.4. Data on the structure and competence of the issuer's bodies for control over financial and economic activities

The comprehensive description of the structure of the bodies for control over the issuer's financial and economic activities and their competence according to the issuer's Charter (constituent documents):

According to Article 21 of the issuer's Charter:

21.1. In order to ensure control over the Company financial and economic activities, the General Shareholder Meeting shall elect the Checkup Committee of the Company for the period till the next annual General Shareholder Meeting.

Should the Checkup Committee of the Company be elected at the extraordinary meeting of shareholders, the members of the Checkup Committee shall be considered elected for the period till the date of the holding of the Company annual General Shareholder Meeting.

The quantitative structure of the Checkup Committee shall be 5 (five) people.

21.2. By the decision of the Company General Shareholder Meeting, the powers of all or separate members of the Company Checkup Committee may be terminated early.

21.3. The competence of the Company Checkup Committee shall include the following:

- confirmation of the correctness of the information contained in the annual report, accounting balance sheet, income statement of the Company;*

- *analysis of the Company financial standing, revealing of the reserves for the improvement of the financial situation in the Company and working out of recommendations for the Company management bodies;*
- *organization and carrying out of an examination (audit) of the Company financial and economic activities, in particular:*
- *examination (audit) of the financial, accounting, settlement and other documentation of the Company which is connected with carrying out by the Company of financial and economic activities in order to ensure its compliance with the Russian Federation laws, the Charter, internal and other documents of the Company;*
- *control over safe keeping and use of fixed capital;*
- *control over the adherence to the order of writing off the insolvent debtors' debt to the Company losses;*
- *control over cash spending of the Company in accordance with the approved business plan and budget of the Company;*
- *control over the building up and use of the reserve and other specialized funds of the Company;*
- *examination of correctness and timely attributing and payment of dividends per the Company shares, interest per bonds and earnings per other securities;*
- *examination of the regulations issued earlier on the correction of violations and shortages revealed by the previous examinations (audits);*
- *carrying out of other actions (measures) connected with the examination of the Company financial and economic activities.*

21.4. All decisions on the issues referred to the competence of the Checkup Committee shall be made by the simple majority of the votes from the total number of its members.

21.5. The Checkup Committee shall be entitled and, in case of the revealed serious violations of the Company financial and economic activities, obliged to demand the convening of the Company extraordinary general shareholder meeting.

21.6. The procedure of the Company Checkup Committee's activities shall be determined by the internal document of the Company approved by the Company General Shareholder Meeting. The Checkup Committee in accordance with the decision on carrying out an examination (audit) in order to carry out the given examination (audit), shall be entitled to involve specialists in the respective field of law, economy, finance, accounting, management, economic security and other organizations, including the specialized ones.

21.7. The examination (audit) of the Company financial and economic activities may be carried out at any time at the initiative of the Company Checkup Committee, by the decision of the Company General Shareholder Meeting, the Company Board of Directors or upon the demand of the Company shareholder (shareholders) possessing in total at least 10 percent of the Company voting shares.

21.8. For the examination and approval of the Company annual financial reports, the Company General Shareholder Meeting shall annually approve the Company Auditor.

21.9. The amount of the remuneration of the services of the Auditor shall be determined by the Company Board of Directors.

21.10. The Company Auditor shall carry out the examination of the Company financial and economic activities in accordance with the requirements of the Russian Federation laws and on the grounds of the Contract signed with him/her.

21.11. Following the results of the examination of the Company financial and economic activities, the Company Checkup Committee, the Company Auditor shall compile a report, which shall contain:

- *confirmation of the correctness of the information contained in the Company reports and other financial documents;*
- *information on the facts of violation by the Company of the accounting procedures and submission of financial reports envisaged by legal regulations of the Russian Federation, as well*

as normative enactments of the Russian Federation while carrying out by the Company of financial and economic activities.

The procedure and the period for compiling the report on the results of the examination of the Company financial and economic activities shall be determined by the normative enactments of the Russian Federation and the Company internal documents.

Together with this, the Issuer's Bonds obligation fulfillment shall be carried out on the basis of NDC data. In this case, the Issuer's obligations are considered fulfilled in full scale and proper manner. If the bank account requisites and other information necessary for the Issuers' obligations fulfillment does not let timely carry out money means transmission such a delay can not be considered as delay in Bonds obligations performance, and the Bonds owner can not require the interest accrual or any other indemnification payment for such a delay in payment. In the abovementioned cases the Issuer as well as the Paying agent does not bear the responsibility for the delay in payments.

Not later than on the 2nd (second) working day before the date of the Bonds nominal value paying off the Issuer shall transmit necessary money means to the account of the Paying agent. On the basis of the List of Owners and/or Bonds' nominal holders of the given NDC, the Paying agent accounts the amounts of the money means subjected to payment of each of the persons indicated in the List of owners and/or Bonds nominal holders.

On the date of the Bonds nominal value paying off the Paying agent transmits necessary money means to the bank accounts of the persons entrusted to acquire the amounts of Bonds nominal value paying off determined in the list of Owners and/or Bonds nominal holders.

If one person is entrusted with the obligation to acquire the amounts of the Bonds nominal value paying off from the part of Bonds several holders such a person gets the amount concerning each Bonds holder.

After the accounts end with persons authorized to get the amount of the Bonds nominal value paying off by the person determined in the list of the owners and/or Bonds nominal holders, the Paying agent notifies NDC hereof. If the date of the Bonds nominal value paying off is a day off – irrespective of the fact whether it is a state holiday or accounting operations day off, the payment of the proper amount shall be carried out on the first working day following the day off. Bonds owner is not entitled to require interest accrual or any other indemnification for such a payment delay.

Bonds issue paying off term:

Paying off date:

In 1820th (On thousand eight hundred and twentieth) calendar day since the date of the Bonds placement.

Possibility and conditions of the early Bonds paying off.

The possibility of early bonds paying off is not determined.

Amount of the percent (coupon) Bonds revenue, the order and conditions of its payment:

The order of the coupon per cent rate determination:

1) First coupon per cent rate is determined by means of the contest carrying out among the Bonds potential buyers on the date of the Bonds placement beginning.

The order and conditions of the contest are determined in paragraph 8.3 of the Decision on the Securities issue and paragraph 2.7 of the Securities prospectus.

2) Together with the determination of the date of the Securities placement, the Issuer can take the decision to acquire the Bonds from their holders within 5 (Five) days of j-th coupon period ($j= 1,2...9$). Coupon percent rates which ordinal number is less or equal j shall be determined equal to the first coupon per cent rate. The abovementioned information including the ordinal number of the coupons which per cent rate is determined equal to the first coupon and also the ordinal number of the (j) coupon period, where the bonds owners can require the Issuer's Bonds acquirement shall be brought to the notice of the Bonds' potential buyers by means of information disclosure in the correspondent order stipulated by the Federal law "On securities market" and legal acts of the Securities Market Federal executive body determined in paragraph 11 of the Securities issue decision and paragraph 2.9. of the Securities prospectus.

If together with the determination of the date of the Bonds placement the Issuer did not take the decision on the Company's Bonds acquirement all coupons per cent rates beginning with the second one shall be determined equal to the first coupon per cent rate.

3) Coupons per cent rate, which amount (order of determination) was not stipulated by the Issuer before the date of the Bonds placement ($i=(j+1).....10$) shall be determined by the Issuer in figures after the State registration of the report on the result of the securities issue on the date of the determined i- coupon which comes at least 10 (Ten) calendar days prior to the date of the (i-1)-th coupon. The Issuer is entitled to determine on the date of the i-th stake coupon determination the amount of the non-determined coupons following the i-th coupon (together with this k – is the number of the last determined coupon.) I-th coupon per cent rate shall be brought by the Issuer to the notice of the Bonds owners in the order and in terms stipulated by paragraph 11.5 of the Securities issue decision and paragraph 2.9. of the Securities prospectus.

The Issuer informs the exchange on the decision taken including the certain stakes at least 10 (Ten) days prior the date of the (j-1) coupon period (the period j-th and the following coupons per cent rate is determined) end.

Should after the coupons rates' announcement the Bonds will retain the undetermined stakes at least of one of the following coupons, together with the notification on the stakes of the i-th and other Bonds determined coupons the Issuer is entitled to ensure the Bonds owners rights to require from the Issuer the Bonds Acquisition within 5 (Five) days of the k-th coupon period (if the Issuer determined the rate only of one i-th coupon, $i=k$). The abovementioned information including the ordinal number of the

coupons which per cent rate determined on the date of the i-th coupon determination and also the ordinal number of the coupon period (k), where the Bonds acquirement will take place shall be brought to the notice of the Bonds potential acquirers by means of publication in the order and terms determined in paragraph 1.1.5 of the Decision of the securities issue and paragraph 2.9. of the Securities prospectus.

The amount of payment concerning any coupon per one Bond is determined to a precision of one kopeck (rounding –up is carried out in accordance with the rules of the mathematical rounding-up. Together with this, the rule of the mathematical rounding-up is the method or rounding up where the meaning of one kopeck (num kopecks) does not change if the first figure following the rounded-up one equals from 0 to 4 and changes, increasing by one if the first figure following the rounded-up one equals 5-9).

First coupon per cent rate amount is the amount of 8.05 (eight point nought five) per cent per annum was approved by the decision of the sole executive body of the Open Joint Stock Company “Moscow Regional Power Grid Company”, since September 12, 2006.

In accordance with the Decision on the securities issue the second, third, fourth, fifth, sixth, seventh, eighth, ninth and tenth coupons of the Bonds is established equal the per cent rate of the first coupon.

The order and term of Bonds payment including the order and revenue payment term concerning each coupon.

Coupon (percent) period		Term (date) of the coupon (per cent) revenue payment	Date of the Bonds owners list compiling for the coupon (per cent) revenue payment
Beginning date	End date		

1. Coupon: First coupon per cent rate – C (1) – is determined by means of the contest carrying out among the Bonds potential buyers on the date of the Bonds placement beginning. The order and conditions of the contest are presented in paragraph 8.3. of the Bonds issue decision and paragraph 2.7 of the Securities prospectus.

<i>First coupon period beginning date is the date of the bonds placement</i>	<i>First coupon end date is 182nd (one hundred and eighty second) day since the date of Bonds placement beginning</i>	<i>First Bonds coupon revenue payment date is 182nd (one hundred and eighty second) day since the date of the Bonds placement beginning</i>	<i>Bonds coupon payment is carried out for benefit of Bonds owners as of the end of NDC operation day preceding the third working day before the date of the Bonds coupon revenue payment.</i>
<i>Bonds revenue payment is carried out by money means in the Russian Federation currency in cashless terms for the benefit of the Bonds holders.</i>			
<i>Bonds holder, if he/she is not the NDC depositor, is entitled but not obliged to entrust the Bonds nominal holder – NDC depositor to get the amounts of the Bonds revenue payment.</i>			
<i>If the Bonds holder did not entrust the NDC depositor to get for his/her benefit the amounts from the Bonds revenues payment the Bonds revenues payments shall be carried out for the benefit of the Bonds owner.</i>			
<i>It is presumed that the nominal holders – NDC depositors are entrusted with the right to acquire the Bonds revenue.</i>			

NDC depositor not authorized by their clients to acquire the amounts of bonds revenue prior to 13:00 (Moscow time) on the 3rd (third) working day before the date of the Bonds revenue payment shall transmit to NDC the list of owners containing all the account details determined further for the List of owners and/or Bonds nominal holders.

Bonds revenue payment is made for the benefit of the Bonds owners as of the end of the NDC operation day prior to 3 (Third) working day before the date of the Bonds revenue payment.

If among the owners who entrusted the nominal holder to get the amounts of the Bonds coupon revenue there are non residents and/or physical persons, the nominal holder is entitled to indicate in the list of the Bonds owners the following information:

- *Full name/ Name, last name and patronymic of the Bonds owner;*
- *Amount of shares belonging to the owner;*
- *Complete list of persons entrusted to get the Bonds' paying off amounts;*
- *Location (place of registration – for physical persons) and postal address including index of the Bonds owner;*
- *Details of the Persons' Bank Account entrusted to get Bonds' paying off amounts;*
- *Tax payer identification number (TPIN) of the Bonds owner;*
- *Tax status of the Bonds owner if the Bonds owner is the legal person-non-resident;*
- *Personal identification number (PIN) if any, if the Bonds owner is the physical person;*
- *Type, number date and place of the document issue identifying the Bonds owner and name of the body issued the document;*
- *Number of the state pension insurance certificate of the Bonds owner (if any);*
- *TPIN of the Bonds owner (if any);*
- *Date, month and year of birth of the Bonds owner.*

Obligations fulfillment in relation to the owner included into the List of owners and/or Bonds nominal holders are considered proper also in case of the Bonds alienation after the date of the abovementioned List compiling.

Should the rights of the Bonds owner be considered by the Bonds nominal holder and the Bonds nominal holder is authorized to get the amount of the Bonds revenue the person authorized to get the amount of Bonds revenue is the Bonds nominal holder.

Should the rights of the Bonds owner not considered by the Bonds nominal holder or the Bonds nominal holder is not authorized by the owner to get the Bonds revenue amounts the body authorized to get the amounts of the Bonds revenue is Bonds Owner.

Not later than on the 2nd (second) working day before the date of the Bonds nominal value paying off the NDC gives the Issuer and the Paying agent the List of Owners and/or Bonds nominal holders containing the following data:

- a) Full name (Last name, Name and Patronymic) of the person entitled to get the amounts of the Bonds nominal value paying off;*
- b) Amount of bonds considered on the security account of the Body entrusted to get the amounts of the Bonds nominal value paying off;*
- b) Location and postal address of the person entrusted to get the Bonds nominal value paying off;*
- c) Details of the bank account of the person entrusted to get the Bonds nominal value paying off, that is:
 - *Account number;*
 - *Name of the bank the account is opened at;*
 - *Bank correspondent account the account was opened at;*
 - *Bank identification code (BIC) of the bank the account was opened at.**
- d) Tax payer identification number (TPIN) of the body entrusted to get the amounts of the Bonds nominal value paying off (if any);*
- e) Tax status of the person entrusted to get the amounts of the Bonds nominal value paying off*

(resident/non-resident with the permanent establishment on the territory of the Russian Federation; non-resident without the permanent establishment on the territory of the Russian Federation and etc.)

f) Code of the reason for registration (Tax Code) of the person entrusted to get the amounts of revenue and/or Bonds paying off.

Bonds owners, their authorized persons including NDC depositors, on their own check up the fullness and topicality of the bank account information and other data presented by them to NDC. If the abovementioned information was not presented or presented untimely to NDC, the Issuers' obligations fulfillment directed to the Bonds nominal value paying off is presented to the person who required the obligations fulfillment and is the Bonds owner for the date of the requirement presentation.

Together with this, the Issuer's Bonds obligation fulfillment shall be carried out on the basis of NDC data. In this case, the Issuer's obligations are considered fulfilled in full scale and proper manner. If the bank account requisites and other information necessary for the Issuers' obligations fulfillment does not let timely carry out money means transmission such a delay can not be considered as Bonds obligations delay in performance, and the Bonds owner can not require the interest accrual or any other indemnification payment for such a delay in payment. In the abovementioned cases the Issuer as well as the Paying agent bears the responsibility for the delay in payments.

Not later than on the 2nd (second) working day before the date of the Bonds nominal value paying off the Issuer transmits necessary money means to the account of the Paying agent.

On the basis of the List of Owners and/or Bonds' nominal holders of the given NDC, the Paying agent accounts the amounts of the money means subjected to payment of each of the persons indicated in the List of owners and/or Bonds nominal holders. On the date of the Bonds nominal value paying off the Paying agent transmits necessary money means for the bank accounts of the persons entrusted to acquire the amounts of Bonds nominal value paying off indicated in the list of Owners and/or Bonds nominal holders.

If one person is entrusted with the obligation to acquire the amounts of the Bonds nominal value paying off from the part of bonds several holders, such a person gets the amount concerning each Bonds holder.

If the date of the Bonds nominal value paying off is a day off – irrespective of the fact whether it is a state holiday or accounting operations day off, the payment of the proper amount shall be carried out on the first working day following the day off. Bonds owner is not entitled to require interest accrual or any other indemnification for such a payment delay.

1. Terms and definitions

1.1. "FFMS" - Federal Financial Markets Service

1.2. "Issuing documents" – Decision on the securities issue, Securities prospectus and Bonds certificate.

1.3. "Issuer" – Open Joint-Stock Company "Moscow Regional Power Grid Company".

1.4. "NDC" – Noncommercial partnership "National Depository Center" fulfilling the functions of the Company's depository.

1.5. "Bonds" - non-convertible registered interest bearer bonds of 01 series with the obligatory centralized storage in the amount of 6,000,000 (Six million) pieces of the nominal value RUR 1,000 each issued by the Issuer in accordance with the Issuing documents.

1.6. "Guarantor" - Limited Liability Company "PROMTEKHNIKA"

1.7. "Amount of unfulfilled obligations" – amount of unfulfilled obligations the Issuer did not carry out to the Bonds owner.

1.8. "Issuer's obligations" – Issuer's obligations to the Bonds owner determined by paragraph 3.1. of the Offer.

1.9. "Offer" – the present OFFER.

1.10. "Ceiling amount" – amount accounting for RUR 8,400,000,000 (Eight billion four hundred million) rubles including:

- Aggregate Coupon Profit payment Ceiling Amount – amount accounting for RUR 2,400,000,000 (Two billion for hundred million);*
- Bonds' Acquisition and Redemption Ceiling Amount – amount accounting for RUR 6,000,000,000 (Six billion)*

1.11. "Unfulfilled Obligations Event" – any of those described in the paragraphs 3.3.1., 3.3.2. and 3.3.3 of the Events offer.

1.12. "Issuer's Obligations Fulfillment term" - any of those indicated in paragraphs 3.3.1., 3.3.2. and 3.3.3. of the Terms offer.

1.13 "Bonds Fulfillment Requirement" – requirement of the Bonds' owner to the Guarantor meting the conditions of paragraphs 3.7, 3.7.1.-3.7.5. of the Offer.

2. Subject and character of the Offer. Its acceptance conditions.

2.1. By means of the present Offer, the Guarantor offers each person possessing the intention to get the Bonds to make an agreement with the Guarantor on the guarantee provision in the form of guarantee for the purposes of the Bonds issue in accordance with the legislation of the Russian Federation, Guarantor's articles of association and Offer conditions.

2.2. The Offer is public and expresses the Guarantor's will to make a guarantee agreement with any person accepting the Offer on conditions determined in the Offer.

2.3 The Offer is irrevocable that is can not be called off within the term determined for the Offer's acceptance.

2.4. All the conditions of the Offer are subjected to the inclusion in full amount to the Issuing Documents. The Offer is considered accepted by the addressee in the moment of the Issuer's provision to all prospective Bonds acquirers the access to information on the Bonds issue contained in the Issuing documents and subjected to the disclosure in accordance with the Federal law on the "Securities market" as of April 22, 1996 No. 39-FL and normative acts of the Securities market Federal executive body.

2.5. Offer's acceptance can be carried out by means of only one or several shares acquisition in the order and on conditions determined by the Issuing Documents. Bonds acquisition means the conclusion of the Guarantee agreement between the Bonds acquirer and Guarantor. According to the Contract, the Guarantor is obliged to the Bonds acquirer to fulfill the obligations on conditions determined by the Offer. The Guarantee agreement is considered concluded since the moment the first owner gets the rights on such obligations and together with this the writing form of the agreement is considered fulfilled. With the transition of the rights to the Bond, its acquirer gets the rights determined by the abovementioned guarantee agreement in the same amount and in the same conditions which exist for the moment of the rights transition to the Obligation. Rights transition arisen from the given provision without the rights transition to the Bond is considered invalid.

3. Guarantor's obligations. The order and conditions of its fulfillment.

3.1. The Guarantor gets the responsibility for the Issuer's fulfillment of his/her obligations directed to their Nominal value (total amount of debt) payment together with the interests payable (coupon revenue) to the Bonds owners and also the Bonds acquisition in accordance with the Issuing Documents on the following conditions:

3.1.1 Limit of the Guarantor's responsibility concerning the Issuer's Obligations is restricted by the Ceiling amount considering the following regulations:

3.1.1.1. Limit of the Guarantor's responsibility concerning the coupon revenue is restricted by the Coupon Revenue payment Ceiling amount. Limit of the Guarantor's responsibility concerning the acquisition and redemption of the Bonds is restricted by the Bonds Acquisition and Redemption Ceiling amount.

3.1.1.2. If the Coupon Revenue Payment Ceiling amount is insufficient to fulfill the requirements of all the Bonds owners presented by them to the Guarantor, due to the non-fulfillment or improper fulfillment of the obligations by the Issuer directed to the Coupon Revenue payment, the Issuer distributes the Coupon Revenue Payment Ceiling amount between all the Bonds holders proportionate to the presented requirements;

3.1.1.3. In case of the Bonds Acquisition and Redemption Ceiling amount insufficiency to satisfy all the requirements of the Bonds holders presented by them to the Guarantor in accordance with non-fulfillment or improper fulfillment of the requirements directed to redemption and/or acquisition of Bonds by the requirement of the holders, the guarantor distributes Bonds Acquisition and Redemption Ceiling amount between the Bonds owners proportionate to the requirements presented by them.

3.2 If there was determined the fact of non-fulfillment or improper fulfillment of obligations by the Issuer the Guarantor shall bear the responsibility for the Issuer's obligations fulfillment concerning the part of the Issuer's obligation non-fulfillment (Guarantor's joint and several liability).

3.3. The Fact of the non-fulfillment or improper fulfillment of the Issuer's obligations is considered determined in the following cases:

3.3.1. The Issuer did not fulfill or fulfilled improperly the coupon revenue in the form of per cents to the nominal value of the Bonds to the Bonds owners within terms stipulated by the Issuer Documents.

3.3.2. The Issuer did not fulfill or fulfilled not in the proper amount the basic debt amount during the Bonds redemption within the terms determined by the Issuing documents and Bonds holders.

3.3.3. The Issuer did not fulfill the obligation or fulfilled not in the proper amount the requirement of the Bonds holder in terms and on conditions determined by the Issuing documents.

3.4. The Guarantor is entitled in accordance with the Offer conditions to bear the responsibility for non-fulfillment of the obligations carried out by the Issuer in the amount of Non-fulfilled obligations within the limits of the Ceiling amount. The amount of the Non-fulfilled obligations shall be determined by the Guarantor in accordance with the announcement to the Guarantor made by the Issuer or by his/her order to the third persons if the Issuer publicly discloses information on the amount of the Non-fulfilled obligations amount in accordance with the legislation of the Russian Federation.

3.5 In his/her relations with the Bonds owners the Guarantor acts according to the unfulfilled obligations amount announced to the Guarantor by the Issuer or by his/her order to the third persons or publicly disclosed by the Issuer in accordance with the legislation of the Russian Federation if the Bonds owner will not prove the larger amount of Unfulfilled obligations.

3.6. In case of the fact settlement of non-fulfillment or improper fulfillment of the Obligations by the Issuer, the Guarantor is entitled to bear the responsibility in accordance with the Offer conditions for Issuer's non-fulfillment of obligations in the amount of Non-fulfilled obligations and within the limits of the Ceiling amount if the Requirements on Offer Obligations fulfillment will be presented to the Guarantor by Bonds owners and/or Nominee holders in accordance with the Offer conditions.

3.7. Requirement on the Obligations fulfillment shall meet the following conditions:

3.7.1. The Requirement on the Obligations fulfillment shall be presented to the Guarantor in the written form and signed by the Bonds owner (physical person or the head and the chief accountant of the legal person, and sealed by the legal person) or the Bonds nominee holder (if Bonds were transmitted to the nominal ownership and the nominal holder is authorized to get the amounts of redemption and/or other Bonds revenues and/or require from the Issuer to acquire the Bonds and present the Requirement on the Obligations fulfillment);

3.7.2. The Requirement on obligations fulfillment shall contain the following:

- **Name, last name, patronymic and the full name of the Bonds holder or person authorized to get the redemption amounts and/or other Bonds revenues and/or require from the Issuer the Bonds acquisition and present the Requirement on the Obligations fulfillment;**
- **Amount of Bonds and the details of the issue belonging to the Bonds holder, amount of non-fulfilled obligations concerning the owners;**
- **Legal and postal address (location), contact phones of the owner or person authorized to get the amounts of redemption and/or other Bonds revenues and require from the Issuer the Bonds acquisition and the Requirement on the Obligations fulfillment;**
- **Tax status of the owner or person authorized to get the amounts of redemption and/or other Bonds revenues and/or require from the Issuer to acquire Bonds and present the Requirement on the Obligations Fulfillment (resident, nonresident with the permanent establishment on the territory of the Russian Federation);**
- **Details of the bank account of the owner or person authorized to get the redemption amounts and/or other Bonds revenues and/or require from the Issuer the Bonds' acquisition and present the Requirement on the Obligations fulfillment;**

3.7.3. Requirement on the Obligations fulfillment shall be presented to the Guarantor at least 60 (Sixty) days since the moment of the Bonds fulfillment term beginning concerning the Bonds owner addressing the given requirement on the Obligation fulfillment;

3.7.4. The Requirement on the Obligations Fulfillment shall contain the security account statement in NDC or depositaries being depositors in relation to NDC; in case of the Requirement presentation on the obligations fulfillment together with unfulfillment or improper fulfillment of obligations by the Issuer directed to Bonds redemption there should be applied a copy of the NDC report certified by the depositary on transition of the Bonds to the section of the security account set for the securities blocking during the redemption; should the requirements be presented to the owner representatives,

the documents shall be drawn in accordance with the normative legal acts of the Russian Federation approving the persons obligations presented the requirement on behalf of the owner;

3.7.5. Requirement on Obligation fulfillment and the documents attached to it shall be transmitted to the Guarantor by the registered letter, courier mail or express mail to the address of the Guarantor's location.

3.8. The guarantor considers the Requirement on Obligations fulfillment within 30 (Thirty) days since the presentation of the Requirement to the Guarantor. The day of the requirement presentation to the Guarantor is the day of the Guarantor's requirement acquisition presented by any of the ways determined in paragraph 3.7.5 of the Offer. Together with this, the Guarantor is entitled to set forth against the requirement on the Obligations fulfillment any other objections even if the Issue rejected them and approved his/her debt.

3.9. The requirements on Obligations fulfillment presented to the Guarantor later than 60 (Sixty) days since the date of the Obligations fulfillment term beginning concerning the Bonds holders directing the Requirement on Obligations Fulfillment shall not be taken into consideration.

3.10 Should the Guarantor satisfy the Requirement on obligation fulfillment, the Guarantor notifies the owner or the Bonds nominal holder and within 5 days since the expiry date of the Requirement consideration on Obligations fulfillment (paragraph 3.8. of the Offer) the Guarantor carries out the Payment in accordance with the conditions of the Offer to the bank account of the owner or the Bonds nominal holder whose requisites are determined in the Requirement on Obligations fulfillment.

3.11. The Guarantor does not carry the responsibility on the payment of he legal expenses of the Bonds holder concerning the collection and other losses of the owners to the Issuer caused by the unfulfillment or improper fulfillment of the Bonds obligations by the Issuer.

3.12. The Guarantor shall direct information on satisfaction/refusal in satisfaction of the Requirement on obligations fulfillment during the unfulfillment or improper fulfillment of the Obligations by the Issuer directed to the Bonds redemption with the indication of the Last name, Name and patronymic of the Bonds owner, amount of Bonds and name of the Depository where the security account of the Bonds owner was opened in NDC.

4. Term of the guarantee duration

4.1 Guarantee determined by the Offer enters into force since the moment of the agreement conclusion by the Bonds acquirer with the Guarantor in accordance with article 2.5. of the Offer.

4.2 The Guarantee determined by the offer ends:

4.2.1 if the Guarantor properly fulfilled all the obligations to the Bonds holders directed their requirements on the Obligations fulfillment in the order and terms determined by the present Offer;

4.2.2. if the Issuer's Bonds obligations were ended;

4.2.3 if the term of the Issuer's Obligations fulfillment was changed, during the prolongation of such a term or any other prolongation of the Issuer's Obligations or any other restructuring and also in case of other Changes of the Issuer's obligation causing the increase of the responsibility or any other unfavorable consequences for the Guarantor without his/her agreement;

4.2.4. due to other grounds determined by the Legislation of the Russian Federation.

4.3. The following circumstances do not entail the termination of the Guarantee determined by the Offer:

4.3.1. Change of the Issuer's name without the change of its organizational and legal status;

4.3.2. Change of the location of the sole executive body of the Issuer.

5. Other conditions.

5.1. All issues concerning the Guarantor and Bonds holders, concerning the Bonds and not regulated by the civil legislation of the Russian Federation and the Issuing Documents shall be understood and determined in accordance with them.

5.2. In case of unfulfillment or improper fulfillment of the Offer Obligations the Guarantor bears the Responsibility in accordance with the present legislation.

5.3 The Guarantor does not bear the responsibility to the Issuer's creditors concerning the obligations of other persons giving the Guarantee for the Issuer for the purpose of the Obligations issue even if the persons gave such a guarantee together with the Guarantor.

5.4. Discussions due to the Offer are subjected to arbitral court trial and in the court of the general Jurisdiction (for the Bonds owners – physical persons) by the location of the bearer of responsibility.

Amount of the Issuer's net assets for the accounting date before the guarantee presentation: **RUR 28,861,397 thousand.**

Amount of the legal person's net assets who gave the guarantee for the accounting date before the guarantee presentation: **RUR 2,324 thousand.**

Amount of the legal person's net assets who gave the guarantee for the date of the accounting quarter end: **RUR 233,427 thousand.**

The amount of pure assets cost of the legal person who have given the guarantee, on a date closed of the accounting quarter: **it is impossible to specify the Guarantor before definitive formation of the accounting reporting .**

8.6. Data on the organizations which carry out registration of the rights to the equity securities

The person who keeps the register of owners of the issuer's nominal securities - **the registrar.**

The full company name of the registrar: **Registrar society "STATUS" Joint-Stock Company**

The reduced company name: **Status company**

The location of the registrar: **109544, Moscow, Dobrovolcheskaya street, 1/64**

Number of the license: **10-000-1-00304**

Date of license issuance: **12 March 2004**

Validity of the registrar's license for carrying out the activities of keeping the register of securities owners: **for an indefinite time**

The authority which issued the license: **Federal Commission for the Securities Market of the Russian Federation**

Tel.: **(495) 974-83-50**, fax: **(495) 974-83-49**

Email: office@rostatus.ru

Internet website: www.rostatus.ru

Information on the depository which carries out the centralized storage of bonds:

The obligatory centralized storage of bonds of the issue is stipulated.

The depository which carries out the centralized storage:

Full name: *Not-for-Profit Partnership "The National Depository Center"*

The abbreviated name: *NDC*

The location: *Moscow, Sredny Kislovsky lane, 1/13, bld. 4*

TIN: *7706131216*

Phone: *(495) 232-0527*

Other normative legal enactments of the Russian Federation.

8.8. Description of incomes taxation procedure of the issuer's floated equity securities and equity securities which are in the process of floatation

Taxation of income of physical persons (tax residents of the Russian Federation, and those who are not tax residents of the Russian Federation but who receive income from sources in the Russian Federation).

In compliance with item 208 of the RF-TC, dividend and interest received from the Russian organization, income from selling the issuer's securities in the Russian Federation and beyond its bounds are the incomes which are subject to income taxation of physical persons.

If the source of the income in the form of the dividend is the Russian organization, the specified organization is recognized to be a tax agent and determines the amount of the tax separately for each tax payer with reference to each payment of the specified incomes under the 9% rate (item 224 of the RF-TC) in accordance with the procedure established by item 275 of the RF-TC.

The tax amount is calculated proceeding from the total amount of the tax and the share of each tax payer in the total amount of dividends. The total amount of the tax is determined as a product of the tax rate and the difference between the amount of the dividends to be distributed between shareholders (participants) in the current tax period reduced by the amounts of the dividends to be paid by the tax agent of the foreign organization and (or) to the physical person who is not a resident of the Russian Federation, in the current tax period, and the amount of the dividends received by the tax agent in the current reporting (tax) period.

If the Russian organization - the tax agent, pays dividends to the physical person - non-resident of the Russian Federation, the 30% tax rate is applied to these payments according to item 3, Article 224, the RF-TC.

In compliance with Article 214.1 of the RF-TC, the tax base under each operation with securities and operations with financial instruments of term transactions, the basic asset under which are securities (futures and option transactions at the stock exchange), is defined separately. Thus, the incomes received under the following operations are registered:

Sale and purchase of securities which are outstanding at the organized securities market;

Sale and purchase of the securities which are not outstanding at the organized securities market;

With financial instruments of term transactions, the basic asset under which is securities;

Sale and purchase of investment units of share investment funds, including their repayment;

With securities and financial instruments of term transactions, the basic asset under which is securities, which are carried out by a trustee in favour of the trustor that is a physical person.

According to item 3, Article 214.1, the RF-TC, the tax base - the income (loss) under operations of sale and purchase of securities, is defined as the amount of incomes under the total number of transactions with securities of the corresponding category completed during the tax period minus the amount of losses. The income (loss) is defined as a difference between the amounts received from securities selling and charges on purchase, selling and storage of securities, or the property deductions accepted in the part of reduction of incomes of the securities sale and purchase transaction.

The income under the transaction of sale and purchase of the securities outstanding on the organized securities market is reduced by an amount of interest for using of the involved money resources, but within the limits of the amounts calculated proceeding from the current rate of refinancing of the Central Bank of the Russian Federation. The amount of the loss under such transaction is defined in view of the limiting border of fluctuations of the market price of securities. Thus, the securities outstanding on the organized securities market include the securities admitted to the outstanding at trade organizers' who have the license of the federal authority for regulation of the securities market.

If charges may not be directly referred to charges on purchase, selling and storage of the specific securities, the specified charges are distributed proportionally to the value estimation of the securities, the specified charges are incurred in relations to. If it is impossible to confirm the charges documentary, the tax payer is entitled to use the property tax deduction stipulated by paragraph 1, subitem 1, item 1, Article 220, the RF-TC.

The property tax deduction or deduction in the amount of actually incurred and documentary confirmed charges is provided to the tax payer at calculation and payment of the tax to the budget from the source of income payment or upon termination of the tax period at submission of the tax declaration to the tax authority. If there are several sources of income payment, the property tax deduction is made only from one source of income payment at the tax payer's option.

At definition of tax base under operations of securities sale and purchase, it is necessary to take into consideration that the loss under operations with the securities outstanding on the organized securities market reduces the tax base under securities sale and purchase operation of this category. The income from operations of sale and purchase of securities which are not outstanding on the organized securities market, which at the moment of their purchase met the requirements established for the securities outstanding on the organized securities market, may be reduced by an amount of the loss received from operations of sale and purchase of securities outstanding on the organized securities market.

The tax base under operations with financial instruments of term transactions is defined as a difference between the positive and negative results received based on the results of reassessment of obligations and rights of requirements under completed transactions and execution of financial instruments of term transactions, in view of payment of services of exchange intermediaries and stock exchange on opening of positions and keeping of the physical person's accounts. Thus, the tax base increases by an amount of the bonuses received under transactions with options, and decreases by an amount of the bonuses paid under the specified transactions.

At definition of the tax base under operations with the securities which are carried out by the trustee, charges of the tax payer also include the amounts paid to the trustee in the form of remuneration and compensation of the charges incurred by him/her under the operations with securities.

If at realization of trust management, transactions with securities of various categories are completed, and if there appear other types of income (dividend, interest), the tax base is defined separately for each category of securities and each type of income. Charges which cannot be directly referred to reduction of the income under transactions with securities of the corresponding category or to reduction of the corresponding type of income, are distributed proportionally to the share of each type of income.

The tax base under operations of sale and purchase of securities and operations with financial instruments of term transactions is defined upon termination of the tax period (i.e. year). Thus calculation and payment of the amount of the tax is performed by the tax agent upon termination of the tax period or at realization of payment of money resources by it to the tax payer before the expiration of the next tax period. In this case the tax should be paid from the share of the income which corresponds to the actual amount of paid money resources. At realization of payment more than once during the tax period, the calculation of the amount of the tax is made by an accruing result taking into account the tax amounts paid earlier.

The tax agent with respect to the incomes of operations with the securities referred to the trustees is the latter. The tax base under these operations is defined at the date of the end of the tax period or at the date of payment of money resources before the expiration of the tax period. The tax thus is subject to payment within one month from the date of the termination of the tax period or the date of payment of money resources (transfer of securities). At realization of payments from the funds which are in trust management before the expiration of the trust management contract or before the termination of the tax period, the tax is paid from the share of the income which corresponds to the actual amount of the funds which are paid to the trustor.

If it is impossible to deduct the computed tax from the tax payer by the income payment source, the tax agent within one month from the moment of occurrence of this circumstance notifies in writing the tax authority in the locality where it is registered on the impossibility to deduct the tax and on the amount of the tax payer's debt. Payment of the tax in this case is made by equal shares in two payments: the first is made not later than 30 days from the date of delivery by the tax authority of the notice on payment of the tax; the second is paid not later than 30 days after the first term of payment.

The order of the tax calculation under incomes of operations with securities is defined by item 1, Article 225, RF-TC, according to which the tax amount is estimated as a percentage share of the tax base complying with the tax rate (for physical persons - tax residents of the Russian Federation, it is 13%; for the physical persons, who are not tax residents of the Russian Federation, it amounts to 30%, in conformity with Article 224 of the RF-TC).

Taxation of legal entities (of both the Russian organizations, and the foreign organizations which carry out their activities in the Russian Federation through permanent representative offices and/or receive income from the sources in the Russian Federation).

According to item 1, Article 250, the RF-TC, the incomes from the individual shares in other organizations (in the form of dividend) and the incomes received from operations with financial instruments of term transactions are recognized to be extraordinary incomes which are taxable. Thus, the date of reception of the income is the date of receipt of money resources on the settlement account (cash register) of the tax payer.

According to item 1, Article 265, the RF-TC, charges in the form of interest under debt instruments of any type (including under securities and other obligations which are issued by the tax payer, charges on the organization of issuance of own securities, servicing of own securities, granting of the information to shareholders, and the charges connected with service of securities acquired by the tax payer are extraordinary charges which reduce the tax base under the profit tax. The date of realization of the extraordinary charges connected with acquisition of securities is the date of realization or other retirement of securities.

The peculiarities of definition of the tax base under the incomes received from the individual share in other organizations (dividend) are established in Article 275 of the RF-TC.

If the source of the income is the Russian organization, the specified organization is recognized to be the tax agent and defines the amount of the tax. Thus, the amount of the tax to be deducted from incomes of the dividends' receiver is calculated by the tax agent proceeding from the total amount of the tax and the share of each tax payer in the total amount of the dividend. The total amount of the tax is defined as a product of the 9% tax rate (Article 284 of the RF-TC) and the difference between the amount of the dividend which are subject to distribution between shareholders in the current tax period reduced by the amounts of the dividends payable by the tax agent to the foreign organizations and/or the physical person who is not the RF resident, in the current tax period, and the amount of the dividend received by the tax

agent in the current tax period. If the difference is negative, there is not an obligation to pay the tax, and the compensation from the budget is not made.

If the Russian organization - the tax agent, pays the dividend to the foreign organization and/or to the physical person who is not the RF resident, the tax base of the tax payer - the dividends' receiver, is defined as the sum of paid dividends, and the 15% tax rate (Article 284 of the RF-TC) or 30% (Article 224 of the RF-TC) are accordingly applied to it.

The peculiarities of definition of tax base under operations with securities are established in Article 280 of the RF-TC.

Incomes of the tax payer from operations on selling or another retirement of securities (including repayment) are defined proceeding from the price of selling or another retirement of the securities, and also the amount of the accumulated interest (coupon) income which was paid by the buyer to the tax payer, and the amount of the interest (coupon) income which was paid to the tax payer by the issuer (drawer of bill). Thus, the income does not include the amounts of the interest (coupon) income which were earlier registered at taxation.

Charges at selling/other retirement of securities are defined proceeding from the price of purchase of the securities, expenses for its selling, amount of the accumulated (coupon) income paid by the tax payer to the seller of the securities. Thus, the charges do not include the amounts of the interest (coupon) income which was earlier considered at taxation.

The actual price of selling or other retirement of the securities which are in the interval between the minimal and maximal prices of transactions with the specified securities registered by the securities market trade organizer at the date of fulfilment of the respective transaction is accepted for the purposes of taxation as a market price. In case of selling of the securities, which are outstanding on the securities market, at the price which is below the floor price of transactions on the organized securities market, the floor price of the transaction for the organized securities market is accepted at definition of the financial result.

With respect of the securities which are not outstanding on the organized securities market, the actual price of selling or other retirement of these securities is accepted for the purposes of the taxation at meeting at least even one of the following conditions:

If the actual price of the respective transaction is in the interval of the prices under similar securities registered by the trade organizer of the securities market at the date of completion of the respective transaction, in the even that these securities were traded at the trade organizer's at least once within the past 12 months;

If the deviation of the actual price of the respective transaction is within the limits of 20% aside an increase or downturn from the average weighted price of the similar securities calculated by the trade organizer of the securities market according to the rules established by it based on the trading results at the date of the completion of such a transaction or at the date of the nearest trading, which took place before the day of completion of the respective transaction, if the trading in these securities were held at the trade organizer even once within the past 12 months.

The tax base under the operations with securities is defined by the tax payer separately. Thus, the tax base under operations with the securities which are outstanding on the organized securities market is defined separately from the tax base under operations with the securities which are not outstanding on the organized securities market.

At selling or another retirement of securities, the tax payer independently according to the accounting policy accepted for the purpose of taxation defines one of the following methods of a write-off of the value of the retired securities to charges:

at the value of the first purchases;

at the value of the most recent purchases;

at the value of the unit.

The tax payers who received the loss from operations with securities in the previous tax period or during the previous tax periods, have the right to reduce the tax base received under operations with securities in

the reporting (tax) period. Thus, losses from operations with the securities which are not outstanding on the organized securities market, received in the previous tax period, may be referred to reduction of the tax base from operations with such securities defined in the reporting (tax) period. Losses from operations with the securities outstanding on the organized securities market received in the previous tax period may be referred to reduction of the tax base from the operations on selling of this category of securities.

The incomes received from operations with securities which are outstanding on the organized securities market may not be reduced by charges or losses from operations with the securities which are not outstanding on the organized securities market. The incomes received from operations with securities, which are not outstanding on the organized securities market, may not be reduced by charges or losses from operations with the securities which are outstanding on the organized securities market.

In compliance with Article 286 of the RF-TC, the tax is defined as a percentage share of the tax base complying with the tax rate (for legal entities - tax residents of the Russian Federation, 24 %; for foreign legal entities-non-residents, 20 %; according to Article 284 of the RF-TC). The amount of the tax following the results of the tax period is defined by the tax payer independently.

Following the results of each reporting (tax) period, tax payers calculate the amount of advance payment proceeding from the tax rate and the taxable profit calculated as an accruing result from the beginning of the tax period to the end of the reporting (tax) period. During the accounting period, tax payers calculate the amount of monthly advance payment.

If the tax payer is the foreign organization receiving incomes from sources in the Russian Federation, which are not connected with permanent representative offices in the Russian Federation, the obligation on definition of the amount of the tax, deduction of this amount from incomes of the tax payer and transfer of the tax to the budget is assigned to the Russian organization, which pays the specified income to the tax payer. The tax agent defines the amount of the tax under each payment (transfer) of money resources or other reception of the income. If the source of incomes of the tax payer in the form of dividends is the Russian organization, the obligation to deduct the tax from incomes of the tax payer and to transfer it to the budget is assigned to this source of incomes. Thus, advance payments under the tax are withheld from incomes of the tax payer at each payment of such incomes. Under the incomes which are paid to the tax payers in the form of dividends, the tax withheld at payment of the income is transferred to the budget by the tax agent who has carried out the payment, within 10 days from the date of payment of the income.

The tax from the incomes received from operations of securities selling is taxable after the tax period and is payable not later than the time fixed for submission of tax declarations for the respective tax period (not later than on the 28th of March of the year following the expired tax period). Advance payments following the results of the reporting period are paid not later than the time for submission of tax declarations for the respective reporting period (not later than 28 days from the date of the end of the respective reporting period).

The monthly advance payments which are subject to payment during the reporting period are paid in the time not later than on the 28th day of each month of this reporting period. The tax payers calculating monthly advance payments under the actually received profit pay advance payments not later than on the 28th day of the month following the month, based on the results of which the calculation of the tax is made.

8.9. Data on declared (accrued) and paid dividends per the issuer's shares

Information for the past 5 completed financial years is not specified, as the issuer was registered on 1 April 2005

Information for the 2005 and 2006 completed fiscal years is specified:

For the year 2005

Category of shares: *ordinary*

The amount of the declared (accrued) dividends under the issuer's shares of each category (type) per one share: ***RUR 0.00177.***

The amount of the declared (accrued) dividends in aggregate under all shares of one category (type): ***RUR 50,001 thousand.***

The name of the issuer's governance body which made a decision (declared) on payment of dividends per the issuer's shares: ***annual General Shareholders Meeting of OJSC "Moscow Regional Electric Grid Company"***

Date of carrying out of the meeting (proceedings) of the issuer's governance body, where the decision on payment (declaring) of dividends was taken, date and number of the minutes of the meeting (proceedings) of the issuer's governance body, where the decision on payment (declaring) of dividends was taken:

26 June 2006, Minutes No. 3 as of 6 July 2006

The term allocated for payment of dividends under the issuer's shares:

Within 60 days from the date of decision-making on payment of dividends

The form and other terms of payment of the declared dividends under the issuer's shares:

In the monetary form

The reporting period (year, quarter) for which the declared dividends under the issuer's shares were paid:

following the results of the year 2005.

The total amount of the dividends paid under the issuer's all shares of one category (type) for each reporting period, for which the decision on payment (declaring) of dividends was taken:

RUR 50,001 thousand.

Dividends for 2005 were paid to shareholders within 60 days from the moment of decision-making on payment of dividends in full.

Other data on the declared and-or paid dividends under the issue stocks: ***there is no other data.***

8.10. Other data

There is no other data.
