#### **REVIEW REPORT**

To the Shareholders and Supervisory Board of Sberbank (Savings Bank of the Russian Federation):

Introduction

We have reviewed the accompanying condensed interim balance sheet of Sberbank (Savings Bank of the Russian Federation) (hereinafter - the "Bank") as of 31 March 2007, and the related condensed interim statements of income, changes in equity and cash flows for the three months then ended. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

3 Based on our review nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information has not been properly prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

#### 1 Introduction

These condensed interim financial statements for the three months ended 31 March 2007 for Sberbank (Savings Bank of the Russian Federation) (the "Bank") have been prepared in accordance with IAS 34 "Interim Financial Reporting" ("IAS 34").

The Bank is an open joint stock company established in 1841 and has operated in various forms since then. The Bank was incorporated and is domiciled in the Russian Federation. The Bank's principal shareholder, the Central Bank of the Russian Federation ("Bank of Russia"), owns 60.3% of ordinary shares or 57.6% of the issued and outstanding shares at 31 March 2007.

As at 31 March 2007 the Supervisory Board of the Bank was headed by the Chairman of the Bank of Russia. The Supervisory Board also included representatives from the Bank's other shareholders. Two Deputy Chairmen of the Bank of Russia are Deputy Chairmen of the Supervisory Board. On 29 June 2007 General Shareholders meeting elected a new Supervisory Board of the Bank. The new Supervisory Board is also headed by the Chairman of the Bank of Russia. Please refer to Note 17.

**Principal activity.** The Bank's principal business activity is corporate and retail banking operations within the Russian Federation. The Bank has operated under a full banking license issued by the Bank of Russia since 1991.

The Bank has 17 (31 December 2006: 17) regional head offices, 823 (31 December 2006: 840) branches and 19 307 (31 December 2006: 19 244) sub-branches within the Russian Federation as at 31 March 2007. The average number of the Bank's employees during the three months period ended 31 March 2007 was 247 672 (2006 year: 243 620).

Registered address and place of business. The Bank's registered address is: Vavilova str., 19, Moscow, Russian Federation.

### 2 Operating Environment of the Bank

High rates of economic growth in the Russian Federation gave rise to dynamic development of its banking system. During 2006 Fitch and Standard and Poor's, the international rating agencies, raised Russian sovereign foreign currency rating to the "BBB+" grade. In 2006 international rating agency Moody's also upgraded foreign currency country ceiling for Russian bonds to A2. On the whole the Russian Federation displays certain characteristics of an emerging market, including high rates of economic growth, continuing fall of inflation rates, liberalization of current and capital foreign transactions.

At the same time there is no confidence that the latest positive trends in the Russian economy will remain in future. The tax, currency and customs legislation within the Russian Federation is subject to varying interpretations, and changes, which can occur frequently. Furthermore, the need for further developments in the bankruptcy laws, the absence of formalised procedures for the registration and enforcement of collateral, and other legal and fiscal impediments contribute to the difficulties experienced by banks currently operating in the Russian Federation. The future economic direction of the Russian Federation is largely dependent upon the effectiveness of economic, financial and monetary measures undertaken by the Government, together with tax, legal, regulatory, and political developments.

#### 3 Basis of Preparation

These condensed interim financial statements have been prepared in accordance with IAS 34. These condensed interim financial statements should be read in conjunction with the annual financial statements of the Bank for the year ended 31 December 2006.

These condensed interim financial statements are presented in millions of Russian Roubles ("RR millions").

At 31 March 2007 the principal rate of exchange used for translating foreign currency monetary balances was USD 1 = RR 26.0113 (31 December 2006: USD 1 = RR 26.3311).

## 4 Accounting Policies and Critical Accounting Estimates and Judgements

The accounting policies and methods of computation applied in the preparation of these condensed interim financial statements are consistent with those disclosed in the annual financial statements of the Bank for the year ended 31 December 2006 except for the described below.

Changes in accounting policies and presentation. Where necessary, corresponding figures have been adjusted to conform with changes in accounting policies and in the presentation of the current period amounts.

The Bank changed its accounting policy for cash and cash equivalents and now also considers as part of cash and cash equivalents interbank deposits with original maturities of less than one month. The change was made to align the Bank's policies with the Bank's liquidity management practices.

The effect of changes in accounting policies and of reclassifications on the interim balance sheet of the Bank is as follows:

(In millions of Russian Roubles)	31 December 2006
Increase in Cash and cash equivalent	32 225
Decrease in	
Due from other banks	(32 225)

Corresponding reclassifications were made in the condensed interim statement of cash flows for three months ended 31 March 2006:

(In millions of Russian Roubles)	Three months ended 31 March 2006 (Unaudited)
Increase in Cash and cash equivalents at the beginning of the reporting period Cash and cash equivalents as at the end of the reporting period	21 034 16 036
Decrease in Net decrease/ (increase) in due from other banks	(4 998)

Certain new standards, interpretations and amendments to the existing standards, as disclosed in the financial statements for the year ended 31 December 2006, became effective for the Bank from 1 January 2007. The application of the new accounting pronouncements did not have a significant impact on these condensed interim financial statements.

IFRS 7 Financial Instruments: Disclosures and a complementary Amendment IAS 1 Presentation of Financial Statements - Capital Disclosures, effective for annual periods beginning on or after 1 January 2007 The IFRS introduces new disclosures to improve the information about financial instruments. The volume of disclosures will increase significantly with an emphasis on quantitative aspects of risk exposures and the methods of risk management. The quantitative disclosures will provide information about the extent of exposure to risk, based on information provided internally to the entity's key management personnel. Qualitative and quantitative disclosures will cover exposure to credit risk, liquidity risk and market risk including sensitivity analysis to market risk. IFRS 7 replaces IAS 30, Disclosures in the Financial Statements of Banks and Similar Financial Institutions, and some of the requirements in IAS 32, Financial Instruments: Disclosure and Presentation. The Amendment to IAS 1 introduces disclosures about level of an entity's capital and how it manages capital. The Bank assessed that the new IFRS and the amendment to IAS 1 do not have impact on disclosures in its condensed interim financial statements.

# 4 Accounting Policies and Critical Accounting Estimates and Judgements (Continued)

IFRIC 7, "Applying the Restatement Approach under IAS 29", effective for annual periods beginning on or after 1 March 2006. This interpretation is not relevant for the Bank.

IFRIC 8, "Scope of IFRS 2", effective for annual periods beginning on or after 1 May 2006. Management does not consider the interpretation to be relevant for the Bank.

IFRIC 9, "Reassessment of Embedded Derivatives", effective for annual periods beginning on or after 1 June 2006. Management does not consider the interpretation to be relevant for the Bank.

IFRIC 10, "Interim Financial Reporting and Impairment", effective for annual periods beginning on or after 1 November 2006. The Interpretation states that an entity should not reverse an impairment loss recognised in a previous interim period in respect of goodwill or an investment in either an equity instrument or a financial asset carried at cost. Management does not consider the interpretation have any material impact on the condensed interim financial statements of the Bank.

Judgements made by Management in the process of applying the accounting policies were consistent with the judgements disclosed in the annual financial statements for the year ended 31 December 2006 except for the following area of judgement applied to the interim financial statements.

Interim period measurement. Income tax expense is recognised in these condensed interim financial statements based on management's best estimates of the effective annual income tax rate expected for the full financial year. Costs that occur unevenly during the financial year are anticipated or deferred in the interim report only if it would also be appropriate to anticipate or defer such costs at the end of the financial year.

Critical estimates, as disclosed in the annual financial statements for the year ended 31 December 2006, have not resulted in a material adjustment to the Bank's assets, income or profit during the three months period ended 31 March 2007.

The following new standards, amendments to standards and interpretations have been issued but are not effective for 2007 and have not been early adopted:

IFRIC 11, "IFRS 2 – Group and Treasury Shares Transactions", effective for annual periods beginning on or after 1 March 2007. This interpretation is not relevant for the Bank;

IFRIC 12, "Service Concession Arrangements", effective for annual periods beginning on or after 1 January 2008. This interpretation is not relevant for the Bank;

IFRIC 13, "Customer Loyalty Programmes", effective for annual periods beginning on or after 1 July 2008. This interpretation is not relevant for the Bank;

IFRIC 14, "IAS 19 — The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interactions", effective for annual periods beginning on or after 1 January 2008. Management does not expect the interpretation to be relevant for the Bank;

IFRS 8, "Operating segments", effective for annual periods beginning on or after 1 January 2009. The Standard applies to entities whose debt or equity instruments are traded in a public market or that file, or are in the process of filing, their financial statements with a regulatory organisation for the purpose of issuing any class of instruments in a public market. IFRS 8 requires the Bank to report financial and descriptive information about its operating segments and specifies how the Bank should report such information. The Bank is currently assessing what impact the new IFRS a will have on disclosures in its financial statements; and

IAS 23, "Borrowing Costs" (revised March 2007; effective for annual periods beginning on or after 1 January 2009). The revised Standard removed the option of immediate recognition as an expense of borrowing costs related to assets that take a substantial period of time to get ready for use or sale. An entity is, therefore, required to capitalize such borrowing costs as part of the cost of the asset. The revised Standard applies prospectively to borrowing costs relating to qualifying assets for which the commencement date for capitalization is on or after 1 January 2009. Management does not expect the revised standart have any material impact on the Bank.

Included in long-term borrowings received is a syndicated loan in the amount of USD 1 000 million which was received by the Bank in December 2005 from a consortium of foreign banks. At 31 March 2007 the loan was accounted for at amortised cost of RR 26 151 million (31 December 2006: RR 26 463 million). This loan has a maturity date on 10 November 2008 and contractual floating interest rate of 3 months LIBOR + 0.55%. As at 31 March 2007 the effective interest rate on the loan was 6.3% p.a. (31 December 2006: 6.3% p.a.).

In May 2006 the Bank attracted USD 500 million within the MTN programme at a fixed interest rate of 6.5% p.a. maturing on 15 May 2013. As at 31 March 2007 this borrowing is recorded at amortised cost of RR 13 304 million (31 December 2006: RR 13 256 million). The transaction was structured as an issue of notes by SB Capital S.A. for the purpose of financing a loan to the Bank. As at 31 March 2007 the effective interest rate on the loan was 6.6% p.a (31 December 2006: 6.6% p.a.).

In October 2006 the Bank received another syndicated loan in the amount of USD 1 500 million from a consortium of foreign banks, which is also included in long-term loans received. As at 31 March 2007 the loan was accounted for at amortised cost of RR 39 286 million (31 December 2006: RR 39 649 million). This loan matures in October 2009 and has contractual floating interest rate of 3 months LIBOR + 0.30%. As at 31 March 2007 the effective interest rate on the loan was 6.0% p.a. (31 December 2006: 5.9% p.a.)

In November 2006 the Bank attracted the second loan under the MTN issuance programme in the amount of USD 750 million, which is also included in long-term loans received. As at 31 March 2007 this loan was accounted for at amortised cost of RR 19 922 million (31 December 2006: RR 19 879 million). This loan matures in November 2011 and has contractual fixed interest rate of 5.9% p.a. As at 31 March 2007 the effective interest rate on the loan was 6.0% p.a. (31 December 2006: 6.0% p.a.).

Other term borrowings represent funding received by the Bank from foreign export agencies via foreign banks, which was used by Sberbank for direct lending to Russian companies in accordance with the terms of the agreements. At 31 March 2007 these term borrowings were accounted for at amortised cost of RR 8 761 million (31 December 2006: RR 8 085 million), had floating interest rates varying from 4.3% to 6.6% (31 December 2006: from 3,9% to 6,8%) and maturity dates from July 2007 to January 2016 (31 December 2006: from July 2007 to January 2016).

On 21 December 2006, the Supervisory Board of the Bank approved the issuance of 3 500 000 additional ordinary shares with a nominal value of RR 3 000 by way of a public offering in Russia in the first quarter of 2007. The issue's results were approved by the Bank of Russia on 29 March 2007. The amount of shares placed under this issue was 2 586 948 units. The amount of cash brought in to pay for the shares under the issue comprised RR 230 238 million.

All ordinary shares have a nominal value of RR 3 000 per share and rank equally. Each share carries one vote.

Preference shares have a nominal value of RR 60 per share and carry no voting rights but rank ahead of the ordinary shares in the event of the Bank's liquidation. Preference shares are not redeemable. Dividend payments are at the discretion of the Bank. When a dividend is paid, the preference shares attract a minimum payment of annual dividends of 15% of their nominal value, subject to confirmation of the shareholders meeting. If preference dividends are not declared by ordinary shareholders, the preference shareholders obtain the right to vote as ordinary shareholders but lose this right when the next dividend is paid. Preference share dividends rank above ordinary dividends.

In the third quarter of 2007 the Bank of Russia approved the results of the Bank's shares' nominal value split. Please refer to Note 17.

Share premium of RR 232 493 million (31 December 2006: RR 10 016 million) represents the excess of contributions received over the nominal value of shares issued.

#### 13 Segment Analysis

The Bank's primary format for reporting segment information is business segments and the secondary format is geographical segments.

Business Segments. The Bank is organised on a basis of two main business segments:

- Retail banking representing private customer current accounts, savings, deposits, custody, debit cards, consumer loans and mortgages.
- Corporate banking representing operation with securities, current accounts, deposits, overdrafts, loan and other credit facilities, foreign currency and derivative products.

During three months ended 31 March 2007 the Bank measured business segment revenues, expenses and results on the basis of inter-segment prices used for internal management purposes only.

For the purposes of these condensed interim financial statements segment revenue consists of interest income and fees and commission income for the certain segment.

Segment information for the main reportable business segments of the Bank as at 31 March 2007 and 31 December 2006, as well as for the three months ended 31 March 2007 and three months ended 31 March 2006 is as follows:

### 14 Related Party Transactions

For the purposes of these interim condensed financial statements, parties are considered to be related if one party has the ability to control the other party, is under common control, or can exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form. Transactions with related parties are entered into in the normal course of business and are priced at market rates.

The Bank's principal shareholder is the Bank of Russia (refer to Note 1). As the Bank continues to apply IAS 24 "Related Party Disclosures" (revised), respective disclosures are made in Note 15 for transactions with state-controlled entities and government bodies.

The table in this note represents balances and results of operations with the Bank's principal shareholder, the Bank of Russia, and other related parties, not disclosed in Note 15.

### 15 Operations with State-Controlled Entities and Government Bodies

Currently the Government of the Russian Federation does not provide to the general public or entities under its ownership/control a complete list of the entities which are owned or controlled directly or indirectly by the State. Under these circumstances the Management of the Bank disclosed only information that its current internal management and accounting systems allow to present in relation to operations with state-controlled entities and where the Management believes such entities could be considered as state-controlled based on its best knowledge. These financial statements disclose operations with government bodies and entities, in which the government directly owns more than 50% of the share capital. In relation to state-controlled entities, Management analysed the Bank's transactions with its largest customers and extracted balances and results of operations in relation to the following groups of entities which were included in the tables below: 1) 100% State subsidiaries and government bodies and 2) largest entities where the State controls over 50% of its share capital.
