Independent auditors' report on review of interim condensed consolidated financial statements

To the Supervisory Council and Shareholders of VTB Bank:

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of VTB Bank ("the Bank") and its subsidiaries (together "the Group") as at 30 June 2010, and the related interim condensed consolidated income statement and interim condensed consolidated statement of comprehensive income for the three-month and six-month periods then ended and interim condensed consolidated statements of cash flows and changes in shareholders' equity for the six-month periods then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of work

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

1. Principal Activities

VTB Bank and its subsidiaries (the "Group") comprise Russian and foreign commercial banks, and other companies and entities controlled by the Group.

VTB Bank, formerly known as Vneshtorgbank (the "Bank", or "VTB"), was formed as Russia's foreign trade bank under the laws of the Russian Federation on 17 October 1990. In 1998, following several reorganisations, VTB was reorganized into an open joint stock company. In October 2006 the Group started re-branding to change its name from Vneshtorgbank to VTB. Simultaneously, the names of some of VTB's subsidiaries were changed as presented in Note 27. In March 2007, the Bank for Foreign Trade was renamed into "VTB Bank" (Open Joint-Stock Company).

On 2 January 1991, VTB received a general banking license (number 1000) from the Central Bank of the Russian Federation (CBR). In addition, VTB holds licenses required for trading and holding securities and engaging in other securities-related activities, including acting as a broker, a dealer and a custodian, and providing asset management and special depositary services. VTB and other Russian Group banks are regulated and supervised by the CBR and the Federal Financial Markets Service. Foreign Group banks operate under the bank regulatory regimes of their respective countries.

On 29 December 2004, the Bank became a member of the obligatory deposit insurance system provided by the State Corporation "Deposit Insurance Agency". The main retail subsidiary bank - VTB 24, CJSC is also a member of the obligatory deposit insurance system provided by the State Corporation "Deposit Insurance Agency" since 22 February 2005. OJSC "Bank VTB North-West" (former OJSC "Industry & Construction Bank"), a subsidiary acquired at the end of 2005, is also a member of the obligatory deposit insurance system since 11 January 2005. The State deposit insurance scheme implies that the State Corporation "Deposit Insurance Agency" guarantees repayment of individual deposits up to the maximum total amount of guaranteed payment of RUR 700 thousand with a 100% compensation of deposited amount from 1 October 2008.

On 5 October 2005, VTB re-registered its legal address to 29 Bolshaya Morskaya Street, Saint-Petersburg 190000, Russian Federation. VTB's Head Office is located in Moscow.

A list of major subsidiaries and associates included in these interim condensed consolidated financial statements is provided in Note 27.

The Group operates predominantly in the commercial banking sector. This includes deposit taking and commercial lending in freely convertible currencies and in Russian Roubles, support of clients' export/import transactions, foreign exchange, securities trading, and trading in derivative financial instruments. The Group's operations are conducted in both Russian and international markets. The Group's operations are not subject to seasonal fluctuations. The Group conducts its banking business in Russia through VTB as a parent and 2 subsidiary banks with its network of 82 full service branches, including 55 branches of VTB, 10 branches of VTB 24 and 17 branches of VTB North-West, located in major Russian regions. The Group operates outside Russia through 12 bank subsidiaries, located in the Commonwealth of Independent States ("CIS") (Armenia, Ukraine, Belarus, Kazakhstan and Azerbaijan), Europe (Austria, Cyprus, Germany, France and Great Britain), Georgia, Africa (Angola) and through 3 representative offices located in Italy, China and the Kyrgyz Republic and through 2 VTB branches in China and India and 2 branches of "VTB Capital", Plc in Singapore and Dubai.

VTB's majority shareholder is the Russian Federation state, acting through the Federal Property Agency, which holds 85.50% of VTB's issued and outstanding shares at 30 June 2010 (31 December 2009: 85.50%).

The number of employees of the Group at 30 June 2010 was 40,981 (31 December 2009: 40,447).

Unless otherwise noted herein, all amounts are expressed in billions of Russian Roubles rounded off to one decimal.

2. Operating Environment of the Group

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

The Russian economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. The global financial crisis has resulted in a decline in the gross domestic product, capital markets instability, significant deterioration of liquidity in the banking sector, increased unemployment in Russia, reduced corporate liquidity and profitability, and increased corporate and personal insolvencies and tighter credit conditions within Russia. While the Russian Government has introduced a range of stabilization measures, including these aimed at providing liquidity to Russian banks and companies, there continues to be uncertainty regarding the access to capital and cost of capital for the Group and its counterparties, which could affect the Group's financial position, results of operations and business prospects.

2. Operating Environment of the Group (continued)

Subject to fluctuations in prices in global and Russian securities markets, the Group may face a significant decrease in the values of securities, which may have a material negative impact on the financial result of the Group. To the extent that information is available, the Group has reflected revised estimates of expected future cash flows in its impairment assessment.

Also, the borrowers of the Group may be affected by the deterioration in liquidity, which could in turn impact their ability to repay the amounts due to the Group. Due to the fall in securities markets, the Group may face a significant decrease in the values of securities pledged as collateral against loans extended by the Group. The Group also bears the risk of adverse effect from the credit related commitments as a result of deterioration in the market situation. To the extent that information is available, the Group has reflected revised estimates of expected future cash flows in its impairment assessment.

While management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances, unexpected further deterioration in the areas described above could negatively affect the Group's results and financial position in a manner not currently determinable.

3. Basis of Preparation

General

These interim condensed consolidated financial statements ("financial statements") have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting". As a result, they do not include all of the information required by International Financial Reporting Standards (IFRS) for a complete set of financial statements. Operating results for the six-month period ended 30 June 2010 are not necessarily indicative of the results that may be expected for the year ending 31 December 2010. The Bank and its subsidiaries and associates maintain their accounting records in accordance with regulations applicable in their country of registration. These interim condensed consolidated financial statements are based on those accounting books and records, as adjusted and reclassified to comply with International Accounting Standard 34 "Interim Financial Reporting".

These interim condensed consolidated financial statements have been prepared under the historical cost convention, as modified by the initial recognition of financial instruments based on fair value, revaluation of premises, available-for-sale financial assets, and financial instruments categorized as at fair value through profit or loss.

These interim condensed consolidated financial statements are presented in Russian Roubles (RUR), the national currency of the Russian Federation, where the Bank is domiciled.

These interim condensed consolidated financial statements should be read in conjunction with the complete consolidated financial statements as of 31 December 2009.

The preparation of financial statements requires management to make estimates and assumptions that affect reported amounts. These estimates are based on information available as of the date of the financial statements. Actual results can differ significantly from such estimates.

At 30 June 2010, the principal closing rate of exchange used for translating balances in USD to Russian Roubles was USD 1 to RUR 31.1954 (at 31 December 2009: USD 1 to RUR 30.2442), and the principal closing rate of exchange used for translating balances in Euro was EUR 1 to RUR 38.1863 (at 31 December 2009: EUR 1 to RUR 43.3883).

4. Adoption of New or Revised Standards and Interpretations

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2009, except for the adoption of new standards and interpretations as of 1 January 2010, noted below:

IAS 39 "Financial Instruments: Recognition and Measurement" – "Eligible Hedged Items" (effective for annual periods beginning on or after 1 July 2009) – The amendment to IAS 39 was issued in August 2008. The amendment addresses the designation of a one-sided risk in a hedged item, and designation of inflation as a hedged risk or portion in particular situations. It clarifies that an entity is permitted to designate a portion of the fair value changes or cash flow variability of a financial instrument as hedged item. The amendment has not affected the Group's financial statements.

4. Adoption of New or Revised Standards and Interpretations (continued)

IFRS 1 "First-time Adoption of International Financial Reporting Standards" (following an Amendment in December 2008, effective for the first IFRS financial statements for a period beginning on or after 1 July 2009) – The revised IFRS 1 retains the substance of its previous version but within a changed structure in order to make it easier for the reader to understand and to better accommodate future changes. The Group concluded that the revised standard does not have any effect on its financial statements.

IFRS 1 "First-time Adoption of International Financial Reporting Standards" – "Additional Exemptions for First-time Adopters" (effective for annual periods beginning on or after 1 January 2010) – The amendments exempt entities using the full cost method from retrospective application of IFRSs for oil and gas assets and also exempt entities with existing leasing contracts from reassessing the classification of those contracts in accordance with IFRIC 4, "Determining Whether an Arrangement Contains a Lease" when the application of their national accounting requirements produced the same result. The amendments do not have any impact on the Group's financial statements.

IFRS 2 "Share-based Payment" – "Group Cash-settled Share-based Payment Transactions" (effective for annual periods beginning on or after 1 January 2010) – The amendment provides a clear basis to determine the classification of share-based payment awards in both consolidated and separate financial statements. The amendment incorporates into the standard the guidance in IFRIC 8 and IFRIC 11, which are withdrawn. The amendment expands on the guidance given in IFRIC 11 to address plans that were previously not considered in the interpretation. The amendment also clarifies the defined terms in the Appendix to the standard. The amendment does not have any material effect on the Group's financial statements.

"Improvements to International Financial Reporting Standards" (issued in April 2009) – The second omnibus of amendments to IFRS 2, IAS 38, IFRIC 9 and IFRIC 16, effective for annual periods beginning on or after 1 July 2009; and amendments to IFRS 5, IFRS 8, IAS 1, IAS 7, IAS 17, IAS 36 and IAS 39, effective for annual periods beginning on or after 1 January 2010). The improvements consist of a mixture of substantive changes and clarifications in the following standards and interpretations: clarification that contributions of businesses in common control transactions and formation of joint ventures are not within the scope of IFRS 2; clarification of disclosure requirements set by IFRS 5 and other standards for non-current assets (or disposal groups) classified as held for sale or discontinued operations; requiring to report a measure of total assets and liabilities for each reportable segment under IFRS 8 only if such amounts are regularly provided to the chief operating decision maker; amending IAS 1 to allow classification of certain liabilities settled by an entity's own equity instruments as non-current; changing IAS 7 such that only expenditures that result in a recognised asset are eligible for classification as investing activities; allowing classification of certain long-term land leases as finance leases under IAS 17 even without transfer of ownership of the land at the end of the lease; providing additional guidance in IAS 18 for determining whether an entity acts as a principal or an agent; clarification in IAS 36 that a cash generating unit shall not be larger than an operating segment before aggregation; supplementing IAS 38 regarding measurement of fair value of intangible assets acquired in a business combination; amending IAS 39:

(i) to include in its scope option contracts that could result in business combinations,

(ii) to clarify the period of reclassifying gains or losses on cash flow hedging instruments from equity to profit or loss for the year and (iii) to state that a prepayment option is closely related to the host contract if upon exercise the borrower reimburses the economic loss of the lender; amending IFRIC 9 to state that embedded derivatives in contracts acquired in common control transactions and formation of joint ventures are not within its scope; and removing the restriction in IFRIC 16 that hedging instruments may not be held by the foreign operation that itself is being hedged.

The amendments do not have any material effect on the Group's financial statements.

IFRIC 17 "Distribution of Non-Cash Assets to Owners" (effective for annual periods beginning on or after 1 July 2009) – The Interpretation clarifies when and how distribution of non-cash assets as dividends to the owners should be recognized. An entity should measure a liability to distribute non-cash assets as a dividend to its owners at the fair value of the assets to be distributed. A gain or loss on disposal of the distributed non-cash assets will be recognized in profit or loss when the entity settles the dividend payable. IFRIC 17 is not applicable to the Group's operations because it does not distribute non-cash assets to owners.

Equity securities in the amount of RUR 1.9 billion at 30 June 2010 (31 December 2009: RUR 2.1 billion) represent structured customer financing transactions whereby market risk is offset via forward sale agreements on the same securities (recorded within derivative instruments). These equity securities are issued by Russian energy companies. Positive fair value of derivatives relating to these transactions is accounted for within balances arising from derivative financial instruments in the amount of RUR 3.4 billion at 30 June 2010 (31 December 2009: RUR 2.8 billion).

Current term placements with other banks	199.1	334.6
Reverse sale and repurchase agreements with other banks	44.8	10.7
Overdue placements	4.6	1.6
Total gross due from other banks	**248.5**	**346.9**
Less: Allowance for impairment (Note 21)	(1.1)	(1.3)
Total due from other banks	**247.4**	**345.6**

9. Loans and Advances to Customers

	30 June 2010 (unaudited)	31 December 2009
Current loans and advances	2,193.5	1,998.4
Reverse sale and repurchase agreements	68.9	49.0
Renegotiated loans and advances	302.1	300.5
Overdue loans and advances	251.0	196.9
Total gross loans and advances to customers	**2,815.5**	**2,544.8**
Less: Allowance for impairment (Note 21)	(262.2)	(234.9)
Total loans and advances to customers	**2,553.3**	**2,309.9**

For the purposes of the above table, the amount of overdue loans and advances includes overdue portions of loans where the payment of either principal or interest is overdue by one day or more, rather than the entire outstanding amount of the loans.

At 30 June 2010, included in gross loans are finance lease receivables of RUR 103.9 billion (31 December 2009: RUR 97.2 billion), equal to the net investment in lease before allowance for impairment.

Economic sector risk concentrations within the customer loan portfolio are as follows:

	30 June 2010 (unaudited)		31 December 2009

16. Debt Securities Issued (continued)

In March 2010, VTB issued USD 1,250 million (RUR 37.5 billion) Series 7 Eurobonds under European Medium Term Notes (EMTN) Programme 2 with maturity in March 2015 and a fixed coupon rate of 6.465% p.a. payable semi-annually.

In March 2010, VTB placed Series 1, 2 and 5 of domestic stock exchange traded bonds for the total amount of RUR 20.0 billion. The securities due March 2013 are issued with a coupon rate of 7.6% p.a. payable quarterly.

In March 2010, VTB redeemed Series 12 Eurobonds under European Medium Term Notes (EMTN) Programme 1 in the outstanding amount of GBP 234 million (RUR 10.4 billion) upon maturity.

In April 2010, VTB repurchased RUR 13.4 billion of Series 5 domestic bonds under investor put option.

"VTB Capital", Plc has established a USD 5.0 billion European Medium Term Note program. Under the terms of the program "VTB Capital", Plc is issuing short and medium term notes and structured notes with embedded derivatives, which are mainly linked to the Russia/CIS risk. The outstanding amount of the notes is USD 125 million (RUR 3.9 billion) with interest rates ranging from 3.89% to 6.96% p.a. maturing from July to September 2010.

VTB Group members from time to time seek to retire all or part of any of their issued and outstanding debt through open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, depend on prevailing market conditions, VTB's liquidity requirements, contractual restrictions and other factors. During the first half of 2010 the Group did not retire any Eurobonds or bonds issued. The notional amount of Eurobonds bought-back (excluding subordinated debt) by the Group during the first half of 2009 amounted to RUR 20.2 billion, which resulted in the recognition of a gain on the extinguishment of debt of RUR 3.3 billion for the period.

17. Subordinated Debt

On 4 February 2005, VTB Capital S.A., a Luxembourg based special purpose entity of the Group used for issuance of Eurobonds, issued USD 750 million of Eurobonds (with a call option for early repayment on the fifth anniversary of such date) due February 2015, the proceeds of which financed a subordinated loan to VTB. The Eurobonds bear interest at 6.315% p.a. payable semi-annually, with an interest rate step-up in 2010. The notional amount of Eurobonds bought-back by the Group during the first half of 2009 amounted to RUR 10.0 billion, which resulted in the recognition of a gain on the extinguishment of liability of RUR 3.8 billion for the period. As of 31 December 2009 the carrying amount of this subordinated debt was RUR 9.7 billion. In February 2010, VTB executed a call option and early repaid these Eurobonds in accordance with the call option provisions.

On 29 September 2005, OJSC "Industry & Construction Bank" (further renamed to OJSC "Bank VTB North-West") issued USD 400 million subordinated Eurobonds due September 2015 with early redemption option (1 October 2010; price 100; type call). The Eurobonds bear interest rate at 6.2% p.a. payable semi-annually. From 1 October 2010 interest rate under the Eurobonds is equal to US Treasury yield increased by 226 bp and step-up of 150 bp. In August 2010 the Group announced a decision not to exercise the redemption option. The transaction was structured as an issue of notes by Or-ICB S.A. (Luxembourg) for the purpose of financing a subordinated loan to OJSC "Bank VTB North-West". During the first half of 2010 the Group did not buy-back these subordinated Eurobonds. The notional amount of Eurobonds bought-back by the Group during the first half 2009 amounted to RUR 0.4 billion, which resulted in the recognition of a gain on the extinguishment of liability of RUR 0.2 billion for the period. As of 30 June 2010 the carrying amount of this subordinated debt was RUR 9.3 billion (31 December 2009: RUR 9.2 billion).

In October and November 2008, VTB received two subordinated loans of RUR 100 billion each with a rate of 8% p.a. maturing in December 2019 from Vnesheconombank (VEB), which is a related party to the Group. As at 31 December 2008 in accordance with IAS 20 "Accounting for Government Grants and Disclosure of Government Assistance" the Group discounted these loans using an appropriate market rate adjusted for loan premium. As of 30 June 2010 the carrying amount of this subordinated debt is RUR 177.1 billion with zero deferred income (31 December 2009: RUR 176.4 billion and nil, respectively). The deferred income was accounted for within subordinated debt and was eligible for setting-off against the losses on initial recognition of the loans extended by the Group at preferential interest rates to support operations of Russian companies. During the first half of 2009 the amount of the above deferred income was utilized in full.

(in billions of Russian Roubles)

21. Allowances for Impairment and Provisions (continued)

Allowances for impairment of assets are deducted from the carrying amounts of the related assets. Provisions for claims, guarantees and credit-related commitments are recorded in liabilities. In accordance with Russian legislation, loans may only be written off with the approval of the Supervisory Council and, in certain cases, with the respective decision of the Court.

22. Basic and Diluted Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss attributable to ordinary shareholders by the weighted average number of ordinary shares in issue during the year, excluding the average number of ordinary shares purchased by the Group and held as treasury shares.

The Group has no potential dilutive ordinary shares; therefore, the diluted earnings per share are equal to basic earnings per share.

Other comprehensive income	**(3.7)**	**0.2**	**(3.5)**	**3.4**	**0.2**	**3.6**

24. Contingencies, Commitments and Derivative Financial Instruments

Legal proceedings. From time to time and in the normal course of business, claims against the Group are received. At the reporting date the Group had several unresolved legal claims. Management is of the opinion that there would be no material outflow of resources and accordingly no provision has been made in these consolidated financial statements.

Credit related commitments. The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees that represent irrevocable assurances that the Group will make payments in the event that a customer cannot meet its obligations to third parties carry the same credit risk as loans. Documentary and commercial letters of credit (L/Cs), which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralized by cash deposits and therefore carry less risk than direct borrowings.

Commitments to extend credit represent unused portions of authorizations to extend credit in the form of loans, guarantees, or letters of credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards and/or the Bank confirming its willingness to extend a loan. The Group monitors the term to maturity of credit related commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

The total outstanding contractual amount of undrawn credit lines, letters of credit and guarantees does not necessarily represent future cash requirements, as these financial instruments may expire or terminate without being funded.

Outstanding credit related commitments are as follows:

	30 June 2010 (unaudited)	*31 December 2009*
Guarantees issued	149.8	190.6
Undrawn credit lines	192.5	197.0
Import letters of credit	23.1	29.9
Commitments to extend credit	127.8	97.4
Less: allowance for impairment on credit related commitments (Note 21)	(1.6)	(1.6)
Total credit related commitments	**491.6**	**513.3**

24. Contingencies, Commitments and Derivative Financial Instruments (continued)

The Bank received export letters of credit for further advising to its customers. The total amount of received letters of credit as of 30 June 2010 was RUR 110.5 billion (31 December 2009: RUR 89.4 billion). Commitments under import letters of credit and guarantees are collateralized by customer deposits of RUR 8.7 billion (31 December 2009: RUR 9.4 billion).

At 30 June 2010, included in guarantees issued are guarantees issued for a related company (Russian entity) of RUR 25.1 billion or 17% of the guarantees issued. At 31 December 2009, included in guarantees issued are guarantees issued for a related company (Russian entity) of RUR 27.3 billion or 14% of the guarantees issued.

Cash flow hedges

In 2009 the Group discontinued prospectively the hedge accounting for cash flow hedges as some hedging instruments were terminated and the others were no longer meeting the criteria for application of hedge accounting. As at 30 June 2010 the Group has no hedging instruments qualifying for hedge accounting as cash flow hedges.

Fair value hedges

As at 31 December 2009 the Group discontinued prospectively hedge accounting for fair value hedges as some hedging instruments were terminated and others no longer met the criteria for application of hedge accounting.

25. Analysis by Segment

In accordance with IFRS 8, "Operating Segments", the Group defined as the primary operating segments its key business lines. This segment disclosure is presented on the basis of IFRS compliant data of legal entities of the Group adjusted, where necessary, for intersegment reallocation and managerial adjustments, which primarily include replacement of valuation model prices on equity securities with the market quotes regardless of whether the markets are active or not. Qualitative and quantitative information about operating segments is reported to the appropriate operating decision makers for the purposes of making operating decisions on allocation of resources to the segment and assessment of its performance. On this basis, the Group aggregated these operating segments in accordance with IFRS 8 into the following reportable segments: Corporate business, Retail business, Investment business, Ukraine and Other.

Revenues disclosed in the note include the following: interest income, fee and commission income, other operating income, income arising from non-banking activities, gains less losses from financial assets available-for-sale, gains less losses arising from financial assets at fair value through profit or loss, gains less losses from dealing in foreign currencies together with foreign exchange translation gains less losses, gains less losses arising from extinguishment of liability and share in income of associates. Each element is included in calculation of revenues by each segment in case it is positive for this segment.

Intersegment transactions were executed predominantly in the normal course of business.

(in billions of Russian Roubles)

25. Analysis by Segment (continued)

Segment information for the reportable segments of the Group as at 30 June 2010 and results for the six months ended 30 June 2010 is set out below:

The column “Intersegment Eliminations and Adjustments” of the above table in the line ”Segment results: (Loss) / profit before taxation” for the six-month period ended 30 June 2009 includes an adjustment in the amount of RUR (13.2) billion, which relates to replacement of valuation model prices on equity securities with the market quotes regardless of whether such markets are active or not.

For the purpose of the above segment disclosure, Corporate business incorporates operations of the Group’s entities in Russia and in Europe, Retail business incorporates operations in Russia.

(in billions of Russian Roubles)

25. Analysis by Segment (continued)

For the purpose of the above segment disclosure, Other financial instruments incorporate Financial assets at fair value through profit or loss, Financial assets pledged under repurchase agreements and loaned financial assets, Financial assets available-for-sale and Investment securities held-to-maturity.

26. Related Party Transactions

For the purposes of these financial statements, parties are considered to be related if one party has the ability to control the other party or exercises significant influence over the other party in making financial or operational decisions or the parties are under common control as defined by IAS 24 "Related Party Disclosures". In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Transactions and balances with related parties comprise transactions and balances with state-owned entities and the Group's associates and are stated in the tables below.
