Independent auditors' report on review of interim condensed consolidated financial statements

To the Supervisory Council and Shareholders of VTB Bank:

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of VTB Bank ("the Bank") and its subsidiaries (together "the Group") as at 30 September 2012, comprising of the interim consolidated statement of financial position as at 30 September 2012 and the related interim consolidated income statement and interim consolidated statement of comprehensive income for the three-month and nine-month periods then ended, interim consolidated statements of cash flows and changes in shareholders' equity for the nine-month period then ended and selected explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of work

We conducted our review in accordance with the International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

1. Principal Activities

VTB Bank and its subsidiaries (the "Group") comprise Russian and foreign commercial banks, and other companies and entities controlled by the Group.

VTB Bank, formerly known as Vneshtorgbank (the "Bank", or "VTB"), was formed as Russia's foreign trade bank under the laws of the Russian Federation on 17 October 1990. In 1998, following several reorganizations, VTB was reorganised into an open joint stock company. In October 2006 the Group started re-branding to change its name from Vneshtorgbank to VTB. Simultaneously, the names of some of VTB's subsidiaries were changed as presented in Note 32. In March 2007 Vneshtorgbank was renamed into "VTB Bank" (Open Joint-Stock Company).

On 2 January 1991, VTB received a general banking license (number 1000) from the Central Bank of the Russian Federation (CBR). In addition, VTB holds licenses required for trading and holding securities and engaging in other securities-related activities, including acting as a broker, a dealer and a custodian, and providing asset management and special depositary services. VTB and other Russian Group banks are regulated and supervised by the CBR and the Federal Financial Markets Service. Foreign Group banks operate under the bank regulatory regimes of their respective countries.

On 29 December 2004, the Bank became a member of the obligatory deposit insurance system provided by the State Corporation "Deposit Insurance Agency" (DIA). All Group subsidiary banks in Russia: "Bank VTB 24", CJSC, "TransCreditBank", JSC, "Bank of Moscow", OJSC and "Leto Bank", OJSC are also members of the obligatory deposit insurance system provided by DIA. The State deposit insurance scheme implies that DIA guarantees repayment of individual deposits up to the maximum total amount of guaranteed payment of RUR 700 thousand with a 100% compensation of deposited amount from 1 October 2008.

On 5 October 2005, VTB re-registered its legal address to 29 Bolshaya Morskaya Street, Saint-Petersburg 190000, Russian Federation. VTB's Head Office is located in Moscow.

A list of principal subsidiaries included in these interim condensed consolidated financial statements is provided in Note 32.

The Group operates in the corporate and investment banking, retail, real estate and other sectors. Corporate and investment banking include deposit taking and commercial lending in freely convertible currencies and in Russian Roubles, support of clients' export/import transactions, foreign exchange, securities trading and trading in derivative financial instruments. The Group's operations are conducted in both Russian and international markets. The Group's operations are not subject to seasonal fluctuations. The Group conducts its banking business in Russia through VTB as a parent and 5 subsidiary banks with its network of 153 full service branches, including 63 branches of VTB, 8 branches of "Bank VTB 24", CJSC, 41 branches of "TransCreditBank", JSC and 41 branches of "Bank of Moscow", OJSC located in major Russian regions. Within acquisition of "Bank of Moscow", OJSC the Group has also obtained control over "Bezhitsa-Bank", OJSC, "Bank Moscow-Minsk", OJSC and "BM Bank", Ltd. In February 2012, the Group obtained control over "Russian National Commercial Bank", OJSC. On August 22, 2012, General Shareholders' Meeting of "Bezhitsa-Bank", OJSC approved the change in the name from "Bezhitsa-Bank", OJSC to "Leto Bank", OJSC. In September 2012 procedures for registering the new name of "Leto Bank", OJSC were completed.

The Group operates outside Russia through 15 bank subsidiaries, located in the Commonwealth of Independent States ("CIS") (Armenia, Ukraine (2 banks), Belarus (2 banks), Kazakhstan and Azerbaijan), Europe (Austria, Cyprus, Germany, France, Great Britain and Serbia), Georgia, Africa (Angola); through 2 representative offices located in Italy and China; through 2 VTB branches in China and India and 2 branches of "VTB Capital", Plc in Singapore and Dubai. The Group investment banking division also performs broker/dealer operations in the United States of America, securities dealing and financial advisory in Hong Kong and investment banking operations in Bulgaria.

VTB's majority shareholder is the Russian Federation state, acting through the Federal Property Agency, which holds 75.5% of VTB's issued shares at 30 September 2012 (31 December 2011: 75.5%).

The number of employees of the Group at 30 September 2012 was 76,528 (31 December 2011: 67,912).

Unless otherwise noted herein, all amounts are expressed in billions of Russian Roubles rounded off to one decimal.

2. Operating Environment of the Group

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

The Russian economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. In 2012 the Russian Government continued to take measures to support the economy in order to overcome the consequences of the global financial crisis. Despite some indications of recovery there continues to be uncertainty regarding further economic growth, access to capital and cost of capital, which could negatively affect the Group's future financial position, results of operations and business prospects.

Also, factors including increased unemployment in Russia, reduced corporate liquidity and profitability, and increased corporate and personal insolvencies may affect the Group's borrowers' ability to repay the amounts due to the Group. In addition, changes in economic conditions may result in deterioration in the value of collateral held against loans and other obligations. To the extent that information is available, the Group has reflected revised estimates of expected future cash flows in its impairment assessment.

In 2011 deterioration in economic conditions in Belarus accompanied by considerable devaluation of local currency, high inflation rates and large negative trade balance led Management to consider the Belorussian economy to be hyperinflationary as defined by IAS 29 *Financial Reporting in Hyperinflationary Economies* with the effect from 1 January 2011.

While management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances, unexpected further deterioration in the areas described above could negatively affect the Group's results and financial position in a manner not currently determinable.

3. Basis of Preparation

General

These interim condensed consolidated financial statements ("financial statements") have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. As a result, they do not include all of the information required by International Financial Reporting Standards (IFRS) for a complete set of financial statements. Operating results for the nine-month period ended 30 September 2012 are not necessarily indicative of the results that may be expected for the year ending 31 December 2012. The Bank and its subsidiaries and associates maintain their accounting records in accordance with regulations applicable in their country of registration. These interim condensed consolidated financial statements are based on those accounting books and records, as adjusted and reclassified to comply with International Accounting Standard 34 *Interim Financial Reporting.*

These interim condensed consolidated financial statements have been prepared under the historical cost convention, as modified by the initial recognition of financial instruments based on fair value, revaluation of premises and investment property, available-for-sale financial assets, and financial instruments categorised as at fair value through profit or loss.

The preparation of financial statements requires management to make estimates and assumptions that affect reported amounts. These estimates are based on information available as of the date of the financial statements. Actual results can differ significantly from such estimates. Judgments and significant estimates in these financial statements are consistent with those applied in the preparation of the Group's annual financial statements for the year ended 31 December 2011. Income tax expense in respect of the current tax assets and liabilities is recognised based on the income tax rates enacted by the end of the reporting period in relevant tax jurisdictions where the Group is represented. Income tax expense in respect of the deferred tax assets and liabilities is measured at the income tax rates that are expected to apply to the period when deferred assets are realised or liabilities are settled based on the income tax rates officially enacted by the end of the reporting period.

These interim condensed consolidated financial statements should be read in conjunction with the complete consolidated financial statements as of 31 December 2011.

These interim condensed consolidated financial statements are presented in Russian Roubles (RUR), the national currency of the Russian Federation, where the Bank is domiciled.

As at 30 September 2012, the principal closing rate of exchange used for translating balances in US dollars to Russian Roubles was USD 1 to RUR 30.9169 (at 31 December 2011: USD 1 to RUR 32.1961), and the principal closing rate of exchange used for translating balances in Euro was EUR 1 to RUR 39.9786 (at 31 December 2011: EUR 1 to RUR 41.6714).

(in billions of Russian Roubles)

4. Adoption of New or Revised Standards and Interpretations

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2011, except for the adoption of new standards and interpretations as of 1 January 2012, noted below:

IFRS 1 First-time Adoption of International Financial Reporting Standards – Amendments: Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters (effective for annual periods beginning on or after 1 July 2011). – The first amendment provides guidance on how an entity should resume presenting financial statements in accordance with IFRSs after a period when the entity was unable to comply with IFRSs because its functional currency was subject to severe hyperinflation. The second amendment replaces references to a fixed date of '1 January 2004' with 'the date of transition to IFRSs', thus eliminating the need for companies adopting IFRSs for the first time to restate derecognition transactions that occurred before the date of transition to IFRSs. The amendments do not have any impact on the Group's financial statements.

IFRS 7 Financial Instruments: Disclosures – Amendment: Transfers of Financial Assets (effective for annual periods beginning on or after 1 July 2011). – The amendment was issued in October 2010. It requires additional disclosures in respect of risk exposures arising from transferred financial assets. The amendment includes a requirement to disclose by class of asset the nature, carrying amount and a description of the risks and rewards of financial assets that have been transferred to another party, yet remain on the entity's statement of financial position. Disclosures are also required to enable a user to understand the amount of any associated liabilities, and the relationship between the financial assets and associated liabilities. Where financial assets have been derecognised, but the entity is still exposed to certain risks and rewards associated with the transferred asset, additional disclosure is required to enable the effects of those risks to be understood. The amendment does not have any impact on these financial statements.

IAS 12 Income Taxes – Amendments: Deferred tax: Recovery of underlying assets (effective for annual periods beginning on or after 1 January 2012). – The amendment was issued in December 2010. The amendment clarifies the determination of deferred tax on investment property measured at fair value. The amendment introduces a rebuttable presumption that deferred tax on investment property measured using the fair value model in IAS 40 should be determined on the basis that its carrying amount will be recovered through sale. Furthermore, it introduces the requirement that deferred tax on non-depreciable assets that are measured using the revaluation model in IAS 16 always be measured on a sale basis of the asset. These amendments do not have any impact on the Group's financial statements.

Total Investment securities held-to-maturity	**6.9**	**32.4**

13. Disposal Groups Held for Sale

In September 2011, when acquiring "Bank of Moscow", OJSC the Group received controlling interest in "BM Bank", Ltd., located in Kiev, Ukraine. In the fourth quarter of 2011 the Management decided to sell this investment and intends to do it within 12 months. As at 30 September 2012 the negotiations had not been finished. The Group accounted for these investments as a disposal group held for sale under IFRS 5.

In August 2012, the Group has increased its share in a company specializing in electricity distribution to 49.0%. This investment in the associate was classified as a disposal group held for sale in accordance with IFRS 5 as the Management of the Group is intended and committed to the sale plan within the next 12 months, and accounted it at cost.

14. Due to Other Banks

	30 September 2012 (unaudited)	*31 December 2011*
Term loans and deposits	409.2	369.2

(in billions of Russian Roubles)

15. Customer Deposits

	30 September 2012 (unaudited)	*31 December 2011*
Government bodies		
Current / settlement deposits	67.0	38.0
Term deposits	435.5	482.1
Other legal entities		
Current / settlement deposits	693.4	610.8
Term deposits	981.3	1,296.3
Individuals		
Current / settlement deposits	270.2	254.7
Term deposits	1,061.1	906.1
Sale and repurchase agreements	13.3	8.7
Total Customer deposits	**3,521.8**	**3,596.7**

16. Other Borrowed Funds

	30 September 2012 (unaudited)	*31 December 2011*
Funds from local central banks	465.8	365.9
Syndicated loans	109.6	106.8
Other borrowings	266.0	261.9
Total Other borrowed funds	**841.4**	**734.6**

As at 30 September 2012 funds from local central banks include payables to local central banks on sale and repurchase agreements in the amount of RUR 342.1 billion (31 December 2011: RUR 159.7 billion) and other funds attracted from local central banks in the amount of RUR 123.7 billion (31 December 2011: RUR 206.2 billion).

In September 2011, “Bank of Moscow”, OJSC received a RUR 294.8 billion loan from the related party DIA at 0.51% p.a. maturing in 10 years under the plan of support of “Bank of Moscow”, OJSC earlier signed by CBR and DIA. The Group recognised the loan initially at fair value. As at 30 September 2012 the carrying amount of the loan of RUR 151.2 billion was included in other borrowings (31 December 2011: RUR 144.4 billion).

In June 2012, the Group received a syndicated loan of EUR 107 million (RUR 4.4 billion) maturing in July 2024 with a floating rate of EURIBOR + 1.6% p.a. guaranteed by a G7 country export credit agency in relation to a construction concession project, in which the Group has a 50% share (with costs capitalization). The Group has recognised the benefits of the below-market interest rate as the government grant in the amount of RUR 0.6 billion. The 50% of the government grant has been recognised upfront in gains on initial recognition of financial instruments as the benefits are not related to the Group’s share in the construction concession project. The remaining 50% of the government grant is deferred and is to be amortised over the expected useful life of the concession.

In August 2012, “Bank VTB 24”, CJSC arranged a structured transaction related to its car loan portfolio in the amount of RUR 14.0 billion through a sale to a special purpose entity, which further attracted funds through secured loan deal in the amount of USD 275 million with the expected maturity in August 2014. The USD loan bears the floating interest rate of monthly LIBOR plus 1.5% p.a. payable monthly. As at 30 September 2012 the carrying amount of the loan of RUR 8.5 billion was included in other borrowings.

18. Subordinated Debt

On 29 September 2005, OJSC “Industry and Construction Bank” (further renamed to OJSC “Bank VTB North-West” and which had merged with VTB in 2011) issued USD 400 million subordinated Eurobonds due September 2015 with early redemption call option at par on 1 October 2010. The Eurobonds bear interest rate at 6.2% p.a. payable semi-annually. From 1 October 2010 interest rate under the Eurobonds is equal to US Treasury yield increased by 226 b.p. and step-up of 150 b.p. In August 2010 the Group announced a decision not to exercise the redemption option. The transaction was structured as an issue of notes by Or-ICB S.A. (Luxembourg) for the purpose of financing a subordinated loan to OJSC “Bank VTB North-West”. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 10.4 billion (31 December 2011: RUR 11.1 billion).

In October and November 2008, VTB received two subordinated loans of RUR 100 billion each with a rate of 8% p.a. maturing in December 2019 from Vnesheconombank, which is a related party to the Group. As at 31 December 2008 in accordance with IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance* the Group discounted these loans using an appropriate market rate adjusted for loan premium. In August 2010 the interest rate on these two subordinated loans was reduced from 8% to 6.5% p.a. in accordance with the Federal Law requirements. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 181.2 billion (31 December 2011: RUR 179.7 billion).

Over a period from 2003 to 2009 “TransCreditBank”, JSC received subordinated loans from JSC “RZhD” and its related parties in the aggregate amount of RUR 13.1 billion with interest rates from 9% p.a. to 12.1% p.a. maturing in the period from December 2012 to November 2020. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 14.8 billion (31 December 2011: RUR 14.2 billion).

In July 2009, “TransCreditBank”, JSC received a subordinated loan of RUR 2.9 billion with an interest rate of 8% p.a. maturing in October 2019 from Vnesheconombank. In August 2010 the interest rate on this subordinated loan was reduced from 8% to 6.5% p.a. in accordance with the Federal Law requirements. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 2.9 billion (31 December 2011: RUR 2.9 billion).

In November 2005, “Bank of Moscow”, OJSC issued USD 300 million subordinated Loan Participation Notes due November 2015 bearing interest rate 7.5% p.a. payable semi-annually and with early redemption call option in November 2010, which was not exercised. From 25 November 2010 step-up interest rate was set at 5.967%, equal to 5-year US Treasury yield increased by 306.7 b.p. and step-up of 150 b.p. The transaction was structured as an issue of notes by “Kuznetski Capital” S.A. (Luxembourg) for the purpose of financing a subordinated loan to “Bank of Moscow”, OJSC. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 8.6 billion (31 December 2011: RUR 9.0 billion).

In December 2006, “Bank of Moscow”, OJSC received a subordinated loan of USD 100 million with an interest rate of LIBOR + 2.65% p.a. maturing in December 2016 from Royal Bank of London N.V. (London). As at 30 September 2012 the carrying amount of this subordinated debt was RUR 3.1 billion (31 December 2011: RUR 3.2 billion).

In May 2007, “Bank of Moscow”, OJSC issued USD 400 million subordinated Loan Participation Notes due in May 2017 bearing interest rate 6.807% p.a. payable semi-annually and with prepayment option in May 2012. The step-up interest rate is equal to 5-year US Treasury yield increased by 375 b.p. and step-up of 150 b.p. The transaction was structured as an issue of notes by “Kuznetski Capital” S.A. (Luxembourg) for the purpose of financing a subordinated loan to “Bank of Moscow”, OJSC. In May 2012, “Bank of Moscow”, OJSC decided not to exercise the prepayment option in respect of USD 400 million subordinated Loan Participation Notes maturing in May 2017 and a new coupon interest rate was set at 6.02% p.a. payable semi-annually. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 11.8 billion (31 December 2011: RUR 10.8 billion).

In October 2009, “Bank of Moscow”, OJSC received a subordinated loan of RUR 11.1 billion with an interest rate of 8.0% p.a. maturing in December 2019 from Vnesheconombank. In August 2010 an interest rate on this subordinated loan was reduced to 6.5% p.a. in accordance with the Federal Law requirements. As at 30 September 2012 the carrying amount of this subordinated debt was RUR 10.2 billion (31 December 2011: RUR 10.2 billion).

Balance at 30 September 2012	**2.3**	**316.5**	**2.1**	**0.9**	**3.4**	**0.9**	**326.1**

Allowances for impairment of assets are deducted from the carrying amounts of the related assets. Provisions for claims, guarantees and credit-related commitments are recorded in liabilities. In accordance with Russian legislation, loans may only be written-off with the approval of the authorised management body and, in certain cases, with the respective decision of the Court.

23. Perpetual Loan Participation Notes

In August 2012, VTB issued USD 1.0 billion (RUR 32.5 billion) Perpetual Loan Participation Notes. The transaction included the issuance of Perpetual Loan Participation Notes by VTB Eurasia Limited (Ireland), a consolidated special purpose entity, which used the proceeds to provide a subordinated loan to VTB. The Perpetual Loan Participation Notes have an unlimited term and are redeemable at VTB's option starting from December 2022 at their principal amount. Coupon rate is fixed at 9.5% p.a. and will be reset in 10.5 years and then every 10 years as 10 year US Treasury yield increased by 806.7 b.p. Coupon payments are paid semi-annually from December 2012 and may be cancelled or deferred in accordance with the terms of the notes. Such cancellation or deferral might be mandatory or at the discretion of VTB.

Due to the undefined maturity and optional non-cumulative cancellation of coupon payments, the Group accounts for the Perpetual Loan Participation Notes as an equity instrument and as a Tier I eligible instrument for the purpose of Basel Capital Adequacy Ratio calculation. Further, the CBR approved the inclusion of the subordinated loan in the statutory capital ratio calculation of VTB Bank.

The Group accounts for the USD-denominated Perpetual Loan Participation Notes in the amount of RUR equivalent amount using the foreign exchange rate at the reporting date with foreign exchange translation effects recorded in Retained earnings. Issuance costs were also recorded in Retained earnings. As at 30 September 2012, the carrying amount of the Perpetual Loan Participation Notes is RUR 30.9 billion.

While coupon payments are optional at the discretion of VTB, certain terms in the Perpetual Loan Participation Notes may cause such payments to become mandatory, one of such events being declaration or payment of dividends on ordinary shares within 6 months prior to the coupon payment date.

Amounts due on perpetual loan participation notes at 30 September 2012 were USD 31.7 million (RUR 1.0 billion).

24. Dividends and Retained Earnings

In June 2012, Annual General Meeting of VTB shareholders declared dividends of RUR 9.2 billion for 2011 (RUR 0.00088 per share), which were paid in July-August 2012 including RUR 0.1 billion to several Group's subsidiaries. In June 2011, Annual General Meeting of VTB shareholders declared dividends of RUR 6.1 billion for 2010 (RUR 0.00058 per share), which were paid in June-July 2011.

On 31 March 2012, the Annual General Shareholders' Meeting of "VTB Bank (Belarus)", CJSC shareholders approved dividends of RUR 0.2 billion (BYR 61.8 billion at the exchange rate of RUR 0.0039 per BYR 1.00) for 2011 (RUR 847.03 or BYR 219,647.72 per share). Dividends paid in April 2012 to non-controlling shareholders amounted to RUR 0.1 billion.

In June 2012, "Russian Commercial Bank (Cyprus) Limited" paid final dividends in the amount of USD 100 million for 2011 (RUR 3.2 billion), including USD 40 million (RUR 1.3 billion) attributable to non-controlling shareholders. In July 2011, "Russian Commercial Bank (Cyprus) Limited" paid interim dividends for 2011 in the amount of USD 100 million (RUR 2.8 billion).

On 4 June 2012, the Annual General Shareholders' Meeting of "Bank of Moscow", OJSC shareholders approved dividends of RUR 5.0 billion for 2011 (RUR 18.4 per share) which were paid in June 2012 including dividends paid to non-controlling shareholders in the amount of RUR 0.2 billion.

In July 2012, the Annual General Shareholders' Meeting of "Banco VTB Africa S.A." shareholders approved dividends of RUR 0.3 billion (AKZ 1.00 billion at the exchange rate of RUR 0.3453 per AKZ 1.00) for 2011 (RUR 98.92 or AKZ 286.49 per share) including dividends payable to non-controlling shareholders in the amount of RUR 0.1 billion.

25. Basic and Diluted Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss attributable to ordinary shareholders of the parent by the weighted average number of ordinary shares in issue during the period, excluding the average number of ordinary shares purchased by the Group and held as treasury shares.

(in billions of Russian Roubles)

25. Basic and Diluted Earnings per Share (continued)

The Group has no dilutive potential ordinary shares; therefore, the diluted earnings per share are equal to basic earnings per share.

	For the three-month period ended 30 September (unaudited)		*For the nine-month period ended 30 September (unaudited)*	
	2012	***2011***	***2012***	***2011***
Net profit attributable to shareholders of the parent	23.4	20.4	56.2	73.8
Amounts due on perpetual loan participation notes	(0.8)	–	(0.8)	–
Total net profit attributable to shareholders of the parent	**22.6**	**20.4**	**55.4**	**73.8**
Weighted average number of ordinary shares in issue	10,337,828,757,449	10,440,688,464,717	10,385,546,370,240	10,461,539,409,590
Basic and diluted earnings per share (expressed in Russian Roubles per share)	**0.0022**	**0.0020**	**0.0053**	**0.0071**

In March 2012, the Group made the voluntary offer to repurchase ordinary shares of the Bank from the shareholders participated in 2007 IPO of the Bank at the price of RUR 0.136 and maximum number of 3,676,471 shares from each eligible shareholder. The offer has expired on 13 April 2012. The payments to eligible shareholders, who accepted the offer were completed in April 2012 and with their heirs were completed till 29 June 2012. As result of this offer the Group has acquired 83,448,797,249 voting shares of the Bank for RUR 11.3 billion.

During the nine-month period ended 30 September 2012 the Bank's subsidiaries purchased 110,724,822,748 treasury shares. The total number of shares accounted within equity in separate caption "Treasury shares" increased to 120,402,316,747 shares. As a result the number of the outstanding shares at 30 September 2012 amounted to 10,340,139,020,591.

26. Income Tax

The Group's effective income tax rate for the first nine months of 2012 was 24% (the first nine months of 2011: 23%) which is close to the theoretical tax rate. The effective income tax rate for the nine months of 2012 differs from the theoretical tax rate due to difference associated with non-deductible expenses, effect of changes in unrecognised deferred tax assets and income taxed at different rates.

The following tables provide disclosure of income tax effects relating to each component of other comprehensive income:

	For the three-month period ended 30 September (unaudited)					
	2012			***2011***

27. Share-based Payments

In February 2012, several Group members introduced for their selected employees a share-based remuneration plan. This plan has established a right of those employees to receive common shares (“Shares Plan”) or GDR (“GDRs Plan”) of VTB (depending on the employing entity's country of incorporation) contingent on their service over a specified period of time.

Shares Plan. The vesting conditions envisage that an employee remains in service for a certain vesting period to receive the shares award. The awarded shares vest gradually in three equal instalments over the vesting periods of one, two and three years, subject to employee's continuing employment with the Group during the relevant vesting period. An award, or portion of it, may be forfeited if the employee terminates employment before the end of the relevant vesting period voluntarily or subject to certain other conditions as described in the Plan rules. The number of shares awarded under the Shares Plan was determined by reference to a fixed monetary value communicated to employees on the grant date and a weighted-average market price of shares for 30 days prior to 2 April 2012. As at 30 September 2012 the total value of the award granted under the Shares Plan was RUR 1.3 billion represented by 18.9 billion shares of VTB.

GDRs Plan. Under GDRs Plan the selected employees are granted zero strike price options to purchase GDRs exercisable over ten years from each respective vesting date. The vesting conditions envisage that an employee remains in service for a certain vesting period to receive the GDRs award. The awarded GDRs vest gradually in three equal instalments over the vesting periods of one, two and three years, subject to employee's continuous employment with the Group during the relevant vesting period. An award, or portion of it, may be forfeited if the employee terminates employment before the end of the relevant vesting period voluntarily or subject to certain other conditions as described in the Plan rules. The number of GDRs to receive under zero strike price options awarded was determined by reference to a fixed monetary value communicated to employees on the grant date and a weighted-average market price of GDR for 30 days prior to 2 April 2012. As at 30 September 2012 the total value of the award granted under the GDRs Plan was RUR 1.0 billion represented by 6.8 million of GDRs of VTB. Each GDR contains 2,000 VTB shares.

For the three-month and nine-month period ended 30 September 2012 the Group recognised in Staff costs the amount of RUR 0.4 billion and RUR 1.3 billion, respectively, as expenses related to the above equity-settled share-based payment transactions with a corresponding credit to Retained earnings as the above share-based payments have not vested yet.

28. Contingencies and Commitments

Legal proceedings. From time to time and in the normal course of business, claims against the Group are received. At the reporting date the Group had several unresolved legal claims. Management is of the opinion that there would be no material outflow of resources and accordingly no material provision has been made in these financial statements.

28. Contingencies and Commitments (continued)

Tax contingencies. Transfer pricing legislation became effective in the Russian Federation on 1 January 1999. This legislation allows the tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of all "controlled" transactions, provided that the transaction price differs from the market price by more than 20 percent. "Controlled" transactions include transactions with related parties, barter transactions, foreign trade transactions and transactions with third (unrelated) parties with significant price fluctuations (i.e., if the price of such transactions differs from the prices on similar transactions by more than 20 percent within a short period of time). In addition, specific transfer pricing rules allow the tax authorities to make transfer pricing adjustments in respect of securities and derivative transactions. There has been no formal guidance as to how some of the rules relating to transfer pricing legislation should apply.

The new transfer pricing rules are effective from 1 January 2012. Compared to the previous Russian transfer pricing rules, the new rules are more technically elaborate and, to a certain extent, better aligned with the international transfer pricing principles developed by the OECD. The list of the "controlled" transactions under the new transfer pricing legislation includes transactions with related parties and certain types of cross-border transactions. The new transfer pricing rules may have a potential impact on tax costs arising from the pricing mechanism applied in "controlled" transactions, in particular, transactions with related parties located in and outside Russia. The price of the "controlled" transactions should be confirmed by functional and benchmarking analysis as well as by the relevant transfer pricing documentation which should be available for the Russian tax authorities.

The tax authorities will have right to accrue additional tax liabilities if the prices under the "controlled" transactions differ from those which would have been used by independent counterparties under similar conditions. However, it is still unclear what effect the new transfer pricing rules may have on the Russian entities of the Group.

The Group also operates in various jurisdictions and includes companies incorporated outside of Russia that are taxed at different rates and under different legislation. Tax liabilities of the Group are determined on the basis that these companies do not have a permanent establishment in Russia and hence are not subject to Russian profits tax except for Russian tax withheld at source (i.e. dividend, interest, certain capital gains, etc.). Russian tax laws do not provide detailed rules on taxation of foreign companies. It is possible that with the evolution of these rules and changes in the approach of the Russian tax authorities, some or all of the foreign companies of the Group may be treated as having a permanent establishment in Russia and thus subject to Russian taxation in a manner broadly similar to the taxation of a Russian legal entity.

The interpretations of the relevant authorities could differ and if the authorities were successful in enforcing their interpretation, additional taxes and related fines and penalties may be assessed, the effect, of which cannot be practicably estimated, but could be significant to the financial condition of the Group. However, based upon Management's understanding of the tax regulations, Management believes that its interpretation of the relevant tax legislation is reasonable and will be sustainable. Moreover, Management believes that the Group has accrued all applicable taxes.

The Group includes subsidiaries incorporated and operating in various jurisdictions. In some jurisdictions where the Group operates tax, currency and customs legislation as currently in effect is subject to varying interpretations, and changes, which can occur frequently at short notice and may apply retroactively. Based upon its understanding of the applicable tax regulations Management of the Group believes that based upon the best estimates Group subsidiaries have paid or accrued all taxes that are applicable to their operations as of 30 September 2012 in jurisdictions of their incorporation, and complied with all provisions of laws and regulations in the jurisdictions to which the Group is subject. If however the relevant tax authorities differently interpret the applicable tax legislation as applied to the transactions and activity of the Group, the tax position may be challenged; if the authorities were successful in enforcing their interpretation of these regulations, additional taxes, penalties and interest may be assessed, which may affect the financial position of the Group.

Credit related commitments. The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees that represent irrevocable assurances that the Group will make payments in the event that a customer cannot meet its obligations to third parties carry the same credit risk as loans. Documentary and commercial letters of credit (L/Cs), which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralised by cash deposits and therefore carry less risk than direct borrowings.

Commitments to extend credit represent unused portions of authorizations to extend credit in the form of loans, guarantees or letters of credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards and/or the Bank confirming its willingness to extend a loan.

The Group monitors the term to maturity of credit related commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

(in billions of Russian Roubles)

28. Contingencies and Commitments (continued)

The total outstanding contractual amount of irrevocable undrawn credit lines, letters of credit and guarantees does not necessarily represent future cash requirements, as these financial instruments may expire or terminate without being funded.

Outstanding credit related commitments are as follows:

	30 September 2012 (unaudited)	***31 December 2011***
Guarantees issued	612.6	510.9
Undrawn credit lines	40.3	43.1
Import letters of credit	38.0	35.4
Commitments to extend credit	10.1	36.7
Less: provision for impairment on credit related commitments (Note 22)	(0.9)	(1.1)
Total Credit related commitments	**700.1**	**625.0**

The Bank received export letters of credit for further advising to its customers. The total amount of received letters of credit as at 30 September 2012 was RUR 127.6 billion (31 December 2011: RUR 172.8 billion). Commitments under import letters of credit and guarantees are collateralised by customer deposits of RUR 13.4 billion as at 30 September 2012 (31 December 2011: RUR 11.9 billion).

As at 30 September 2012, included in guarantees issued are guarantees issued for a related Russian company of RUR 20.2 billion or 3.3% of guarantees issued. As at 31 December 2011, included in guarantees issued are guarantees issued for a related Russian company of RUR 27.4 billion or 5.4% of the guarantees issued.

Movements in the provision for impairment on credit related commitments are disclosed in Note 22.

Purchase commitments. As at 30 September 2012, the Group had RUR 22.0 billion of outstanding commitments for the purchase of precious metals (31 December 2011: RUR 35.0 billion). As the price of these contracts is linked to the fair value of precious metals at the date of delivery, no gain or loss is recognised on these contracts.

29. Analysis by Segment

In accordance with IFRS 8, *Operating Segments*, the Group defined as the major operating segments the global business lines. Majority of the Group's entities' activities and resources are allocated and managed and their performance is assessed based on the respective global business line segment information. On this basis, the Group aggregated these operating segments in accordance with IFRS 8 into the following reportable segments: Corporate-Investment banking (CIB) (Investment banking, Loans and Deposits, Transaction banking subsegments), Retail banking and Other.

This segment disclosure is presented on the basis of IFRS compliant data of the global business lines and entities adjusted, where necessary, for intersegment reallocation. Qualitative and quantitative information about operating segments is reported to the appropriate operating decision makers for the purposes of making operating decisions on allocation of resources to the segment and assessment of its performance.

The change in reportable segment composition is mainly caused by the change in the system of the Group management and the integration of activities of certain entities into the global business lines. The united Corporate-Investment Banking function in the Group was established in the first quarter 2011. Additionally following further integration of activities of "TransCreditBank", JSC, "Bank of Moscow", OJSC, CIS and Georgia and Europe geographical segments into the Group's global business lines such as CIB, Retail banking and Other, the data for these subsidiaries and segments is presented within CIB, Retail and Other segments. Comparative information was amended in accordance with the above description.

Revenues disclosed in the note include the following: interest income, fee and commission income, other operating income, income arising from non-banking activities, gains less losses from financial assets available-for-sale, gains less losses arising from financial assets at fair value through profit or loss, gains less losses arising from dealing in foreign currencies together with foreign exchange translation gains less losses, gains less losses arising from extinguishment of liability, gains less losses on initial recognition of financial instruments, restructuring and other gains less losses on loans and advances to customers and share in income of associates and joint ventures. Each element is included in calculation of revenues by each subsegment / segment without subsegments in case it is positive for this subsegment / segment without subsegments. The totals are calculated as sum of the line components.

Intersegment transactions were executed predominantly in the normal course of business.

30. Fair Value Hierarchy

The Group classifies fair value measurements of financial instruments using the following fair value hierarchy:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: all inputs in valuation models are directly or indirectly observable;
- Level 3: inputs in valuation models are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at 30 September 2012 (unaudited):

	Level 1	*Level 2*	*Level 3*	*Total*
Financial assets				
Non-derivative financial assets at fair value through profit or loss				
Financial assets held for trading	294.5	37.1	1.7	**333.3**
Financial assets designated as at fair value through profit or loss	48.7	37.4	9.4	**95.5**
Trading derivative financial instruments	*23.4*	*75.5*	*0.4*	***99.3***
Hedging derivative financial instruments	*–*	*0.4*	*–*	***0.4***
Financial assets pledged under repurchase agreements and loaned financial assets				
Financial assets held for trading	56.2	3.5	–	**59.7**
Financial assets designated as at fair value through profit or loss	0.8	0.1	–	**0.9**
Financial assets available-for-sale	7.3	0.2	–	**7.5**
Financial assets available-for-sale	*33.9*	*13.8*	*113.4*	***161.1***
Financial liabilities				
Trading derivative financial instruments	*(24.0)*	*(53.3)*	*(0.1)*	***(77.4)***
Other financial liabilities	*(24.5)*	*–*	*–*	***(24.5)***

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy as at 31 December 2011:

	Level 1	*Level 2*	*Level 3*	*Total*
Financial assets				
Non-derivative financial assets at fair value through profit or loss				
Financial assets held for trading	408.1	52.0	1.7	**461.8**
Financial assets designated as at fair value through profit or loss	19.1	1.9	9.8	**30.8**
Trading derivative financial instruments	*10.2*	*68.0*	*0.7*	***78.9***
Hedging derivative financial instruments	*–*	*0.5*	*–*	***0.5***
Financial assets pledged under repurchase agreements and loaned financial assets

Financial liabilities				
Trading derivative financial instruments	*(9.7)*	*(71.6)*	*(0.2)*	***(81.5)***
Other financial liabilities	*(8.1)*	*–*	*(21.1)*	***(29.2)***

The tables above illustrate the classification of the Group's financial instruments based on the fair value hierarchy as required for complete sets of financial statements. This classification provides a reasonable basis to illustrate the nature and extent of risks associated with those financial instruments.

(in billions of Russian Roubles)

30. Fair Value Hierarchy (continued)

Financial assets at fair value through profit or loss are mainly dependent on the change of input variables used to determine fair value such as interest rates and foreign exchange rates. A significant portion of the available-for-sale financial assets in Level 3 is invested in shares of non-listed companies which are valued based on non-market observable information. Changes in assumptions can lead to adjustments in the fair value of the investment.

Movement in Level 3 financial instruments measured at fair value

Transfers between levels

During the period ended 30 September 2012, the financial assets held for trading were transferred from Level 2 to Level 1 in the amount of RUR 1.3 billion as their fair values became determined using market quotes. Previously their fair values were estimated on the market internal model basis.

During the period ended 30 September 2012, the Group transferred financial assets available-for-sale from Level 2 to Level 3 of the fair value hierarchy in the carrying amount of RUR 78.9 billion. The reason for the transfers from Level 2 to Level 3 is that inputs to the valuation models became non-observable and the fair value of the instruments is determined incorporating significant non market-observable inputs.

During the period ended 30 September 2012, the Group transferred financial assets available-for-sale from Level 3 to Level 1 of the fair value hierarchy in the carrying amount of RUR 0.8 billion. The reason for the transfer from Level 3 to Level 1 is the change in the basis of valuation of the fair value due to the appearance of the active market for these instruments.

During the period ended 30 September 2012, the Group transferred financial assets available-for-sale from Level 3 to Level 2 of the fair value hierarchy in the carrying amount of RUR 1.2 billion. The reason for the transfers from Level 3 to Level 2 is that inputs to the valuation models became observable. Prior to transfer, the fair value of the instruments was determined incorporating significant non market-observable inputs.

There have been no significant transfers from Level 1 to Level 2 during the period ended 30 September 2012.

During the period ended 30 September 2011, the Group transferred financial assets designated as at fair value through profit or loss and financial assets available-for-sale from Level 3 to Level 2 of the fair value hierarchy in the carrying amount of RUR 2.0 billion. The reason for the transfers from Level 3 to Level 2 is that inputs to the valuation models became observable. Prior to transfer, the fair value of the instruments was determined incorporating significant non market-observable inputs.

Transfers out of Level 3 due to reclassification from fair-valued financial instruments relate to the recognition of existence of significant influence or control leading to the change in valuation or to the change in classification to the financial instruments categories, that are not valued at fair value under IFRS.

There have been no transfers between Level 1 and Level 2 during the period ended 30 September 2011.

31. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions as defined by IAS 24 *Related Party Disclosures*. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Transactions and balances with related parties comprise transactions and balances with Russian government-related entities (both directly and indirectly) and associates and joint ventures and are stated in the tables below:

Statements of financial position

32. Consolidated Subsidiaries and Business Combinations (continued)

In January 2012, the Group obtained 100% control in "Sistemapsys S.a.r.l." by purchasing additional 50% for RUR 1.3 billion from the third parties which are not related to the Group. As a result of the acquisition the Group recognised goodwill in the amount of RUR 0.7 billion and loss from disposal of associate of RUR 0.4 billion due to the fair valuation of previously held share in the subsidiary.

In February 2012, the Group obtained 84.91% controlling share in "Russian National Commercial Bank", OJSC by purchasing additional 45.11% for RUR 0.4 billion from the third parties which are not related to the Group. As a result of acquisition the Group recognised an excess of fair value of the acquired net assets over cost in the amount of RUR 0.1 billion in Other operating income and non-controlling interests of RUR 0.2 billion. In June 2012, the Group increased its share in "Russian National Commercial Bank", OJSC to 96.80%. In August 2012, the Group's interest in the share capital of "Russian National Commercial Bank", OJSC increased from 96.80% to 98.78%.

In February 2012, CBR registered an additional share issue of "TransCreditBank", JSC that increased its share capital to RUR 4.3 billion. The Group purchased the whole share issue, representing 334,373,607 shares, at price of RUR 22.69 per share for total amount of RUR 7.6 billion and increased its share in "TransCreditBank", JSC to 77.86%. As a result of the additional share issue non-controlling interests have increased by RUR 0.3 billion. In September 2012 VTB increased its stake in "TransCreditBank", JSC to 99.66% from 77.86% by purchasing 571,650,529 ordinary shares at price of RUR 38.67 per share under the purchase agreement with a related party to the Group to acquire a non-controlling interest share in "TransCreditBank", JSC held by this related party. As a result of the non-controlling interests have decreased by RUR 11.7 billion
