#### 1. Accounting policies and estimates

These consolidated interim condensed financial statements of PAO Severstal and subsidiaries ('the Group') have been prepared in accordance with International Financial Reporting Standards ('IFRS') and IAS 34 *Interim Financial Reporting*, as issued by the International Accounting Standards Board.

The following exchange rates were used in the consolidated interim condensed financial statements:

	30 September 2019	Nine months ended 30 September 2019	Three months ended 30 September 2019	31 December 2018	30 September 2018	Nine months ended 30 September 2018	Three months ended 30 September 2018

### Adoption of new Standards

The accounting policies applied by the Group in these consolidated interim condensed financial statements are the same as those applied by the Group in its consolidated financial statements for the year ended 31 December 2018, except that the Group has adopted those new Standards that are mandatory for financial annual periods beginning on 1 January 2019.

The Group has adopted *IFRS 16 Leases* using the modified retrospective approach with the effect of initial application recognised as at 1 January 2019. Accordingly, the information presented for comparative periods has not been restated.

On transition date, the discounted present value of the Group's operating lease payments, except for agreements with variable lease payments, amounting to US\$ 47 million was recognised as right-of-use assets and corresponding lease liabilities.

The lease liability is discounted using the Group's incremental borrowing rates varying between 1% and 10% depending on the lease agreement's currency. For some specific lease agreements, the discount rate is determined by the interest rate implicit in these lease agreements.

The Group's right-of-use assets include land and buildings, plant and machinery, vehicles and other productive assets. Short-term and low value leases are accounted as leases; lease and non-lease components are treated as a single lease item for all leased assets.

### 9. Contingencies for litigation liabilities

In 2015 a claw-back claim had been made by Lucchini S.p.A's ('Lucchini') extraordinary commissioner against the Group's subsidiary amounting to approximately US\$ 142 million.

The bankruptcy claw-back action is a remedy offered by the Italian Bankruptcy Act to allow commissioners to declare ineffective, vis-à-vis all creditors of a bankrupt company, certain payments and transactions executed in the period preceding the insolvency declaration that altered the equal treatment of all the unsecured creditors of an insolvent debtor. Lucchini was previously the Group's subsidiary and was deconsolidated in 2011 and currently is under the bankruptcy procedure. This claim relates to cash received by the Group's subsidiary for supplies of raw materials to Lucchini primarily during the period when Lucchini was already not part of the Group.

The judge of the first instance court reduced the amount of the claw-back claim in its decision of 25 May 2018 to US\$ 86 million. Management did not agree both with this claim and the judgement of the first instance court and appealed against the court decision on 18 July 2018. The hearing is scheduled on 28 April 2020. The Group and its legal advisors believe that there are strong grounds in support of the Group's position, however, the Group is unable to assess the ultimate outcome of

#### Notes to the consolidated interim condensed financial statements Nine months ended 30 September 2019 and 2018 (Amounts expressed in millions of US dollars, except as otherwise stated)

the claim, including the outflow of the financial resources to settle the claim, if any, because it depends on multiple circumstances concerning the facts and the applicability and interpretation of the relevant statutes. In case the Group has to make any payment, the relevant amount paid will be included in Lucchini's creditors' list and will be settled in the course of the bankruptcy procedure.
