Independent Auditors' Report on Review of Consolidated Interim Financial Statements

To the Shareholders and the Board of Directors of PJSC LSR Group

Introduction

We have reviewed the accompanying consolidated interim statement of financial position of PJSC LSR Group (the "Company") and its subsidiaries (the "Group") as at 30 June 2017, and the related consolidated interim statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and notes, comprising a summary of significant accounting policies and other explanatory information (the "consolidated interim financial statements"). Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with International Financial Reporting Standards (IFRS) including the requirements of IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity.* A review of consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Audited entity: Public Joint Stock Company LSR Group

Registration No. in the Unified State Register of Legal Entities 5067847227300. Saint Petersburg, Russia. Independent auditor: JSC "KPMG", a company incorporated under the Laws of the Russian Federation, a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Registration No. in the Unified State Register of Legal Entities 1027700125628.

Member of the Self-regulated organization of auditors "Russian Union of auditors" (Association). The Principal Registration Number of the Entry in the Register of Auditors and Audit Organisations: No.11603053203.

PJSC LSR Group Independent Auditors' Report on Review of Consolidated Interim Financial Statements Page 2

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at 30 June 2017, and its consolidated financial performance and its consolidated cash flows for the sixmonth period then ended in accordance with International Financial Reporting Standards (IFRS) including the requirements of IAS 34 Interim Financial Reporting.

1 Background

(a) Organisation and operations

PJSC LSR Group (the "Company") and its subsidiaries (together referred to as the "Group") comprise Russian limited liability and joint stock companies as defined in the Civil Code of the Russian Federation, and companies located in other countries. The Company's shares are traded on the London Stock Exchange and Moscow Exchange.

The Company's registered office is at 36 B, Kazanskaya Ulitsa, office 15 N, Saint Petersburg, 190031, Russia.

The Group's principal activities include real estate development in Saint Petersburg, Munich, Yekaterinburg and Moscow, prefabricated panel construction in Saint Petersburg, Moscow and Yekaterinburg, commercial real estate development in Saint Petersburg and Moscow and Yekaterinburg, the production of building materials at plants located in Russia (Saint Petersburg, Moscow, Leningrad region and Urals Region) and Ukraine, the extraction and processing of aggregates in different areas of Leningrad region, and the provision of construction services. These products and services are sold mainly in Russia.

The Group's significant subsidiaries are detailed in note 30.

The Group is ultimately controlled by an individual, Andrey Molchanov. Related party transactions are detailed in note 29.

(b) Russian business environment

The Group's operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial markets of the Russian Federation which display characteristics of an emerging market. The legal, tax and regulatory frameworks continue development, but are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation.

The recent conflict in Ukraine and related events has increased the perceived risks of doing business in the Russian Federation. The imposition of economic sanctions on Russian individuals and legal entities by the European Union, the United States of America, Japan, Canada, Australia and others, as well as retaliatory sanctions imposed by the Russian government, has resulted in increased economic uncertainty including more volatile equity markets, a depreciation of the Russian Ruble, a reduction in both local and foreign direct investment inflows and a significant tightening in the availability of credit. In particular, some Russian entities may be experiencing difficulties in accessing international equity and debt markets and may become increasingly dependent on Russian state banks to finance their operations. The longer term effects of recently implemented sanctions, as well as the threat of additional future sanctions, are difficult to determine.

The consolidated interim financial statements reflect management's assessment of the impact of the Russian business environment on the operations and the financial position of the Group. The future business environment may differ from management's assessment.

2 Basis of preparation

(a) Statement of compliance

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) including the requirements of IAS 34 *Interim Financial Reporting*.

The Group additionally presents the consolidated interim financial statements in Russian language in accordance with the Federal law #208-fz "On consolidated financial reporting".

(b) Basis of measurement

The consolidated interim financial statements are prepared on the historical cost basis.

(c) Functional and presentation currency

The national currency of the Russian Federation is the Russian Rouble ("RUB"), which is the Company's functional currency and the currency in which these consolidated financial statements are presented.

All financial information is presented in the Russian Rouble and has been rounded to the nearest million, except if otherwise indicated.

(d) Use of estimates and judgments

The preparation of the consolidated interim financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies are described in the following notes:

- Note 3 useful lives of property, plant and equipment;
- Note 14 impairment;
- Note 17 inventories;
- Note 18 allowances for trade receivables;
- Note 23 provisions (for site finishing and environment restoration; warranty and litigation; for unprofitable contracts);
- Note 28 contingencies.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2*: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

• *Level 3*: inputs for the asset or liability that are not based on observable market data (unobservable inputs) (refer to note 4).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated interim financial statements, and have been applied consistently by Group entities. Since 2017 the Group discloses information about changes in liabilities arising from financial activities following the requirements of amendments to IFRS (IAS) 7.

(a) Basis of consolidation

(i) Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

The Group measures goodwill at the acquisition date as:

- The fair value of the consideration transferred; plus
- The recognised amount of any non-controlling interests in the acquiree; plus
- If the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquire; less
- The net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

(iii) Acquisitions from entities under common control

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the Group are accounted for at the date of transfer of shares to the Group. The assets and liabilities acquired are recognised at their carrying amounts in the financial statements of the entities transferred. If these companies previously have not prepared IFRS financial statements, assets and liabilities are determined in accordance with IFRS1. Any difference between the book value of net assets acquired and consideration paid is recognised as a contribution from, or distribution to, shareholders.

(iv) Acquisitions and disposals of non-controlling interests

Any difference between the consideration paid to acquire a non-controlling interest, and the carrying amount of that non-controlling interest, is recognised as a contribution from or a distribution to shareholders.

Any difference between the consideration received upon disposal of a minority portion of the Group's interest in a subsidiary, and the carrying amount of that portion of the Group's interest in the subsidiary, including attributable goodwill, is recognised as a distribution to, or a contribution from, shareholders.

(v) Transactions eliminated on consolidation

Intra-group balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated interim financial statements.

(b) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of the Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in foreign currency translated at the exchange rate at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on translation are recognised in the statement of profit or loss and other comprehensive income. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to RUB at exchange rates at the reporting date. The income and expenses

of foreign operations are translated to RUB at the weighted average exchange rate for the period which approximates the exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income. Since 1 January 2005, the Group's date of transition to IFRSs, such differences have been recognised in the foreign currency translation reserve (FCTR). When a foreign operation is disposed of, in part or in full, the relevant amount in the FCTR is transferred to the statement of profit or loss and other comprehensive income as part of profit or loss on disposal.

Foreign exchange gains and losses arising from a monetary item received from or payable to a foreign operation, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and are presented within equity in the foreign currency translation reserve.

(c) Financial instruments

(i) Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

The Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss and other comprehensive income) are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers to right to receive the contractual cash flows on the financial asset in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss and other comprehensive income, any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured as described below.

The Group has the following non-derivative financial assets: loans and receivables and available-forsale financial assets.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise trade and other receivables and loans issued.

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less. Bank overdrafts that are repayable on demand and form an integral part of the Group's

cash management are included as a component of cash and cash equivalents for the purpose of statement of cash flows.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as availablefor-sale and that are not classified in any of the previous categories. The Group's investments in equity securities and certain debt securities are classified as available-for-sale financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign exchange gains and losses on available-for-sale monetary items, are recognised in other comprehensive income and presented within equity in the additional paid-in capital. When an investment is derecognised, the cumulative gain or loss in equity is transferred to the statement of profit or loss and other comprehensive income.

Other

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

(ii) Non-derivative financial liabilities

The Group initially recognises debt securities issued on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. The Group currently has a legally enforceable right to set off if that right is not contingent on a future event and enforceable both in the normal course of business and in the event of default, insolvency or bankruptcy of the Group and all counterparties.

The Group has the following non-derivative financial liabilities: loans and borrowings, bank overdrafts and trade and other payables.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

(d) Share capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

Repurchase of share capital (treasury shares)

When share capital recognised as equity is repurchased, the amount of the consideration paid, including directly attributable costs, is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit of the transaction is transferred to/from retained earnings.

(e) **Property, plant and equipment**

(i) **Recognition and measurement**

Items of property, plant and equipment, except for land, are measured at cost less accumulated depreciation and impairment losses. The cost of property, plant and equipment at 1 January 2005, the date of transition to IFRSs, was determined by reference to its fair value at that date.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of selfconstructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within other income in the statement of profit or loss and other comprehensive income.

(ii) Reclassification of owner occupied property

When the use of a property changes from owner-occupied to investment property, the property is remeasured to fair value and reclassified as investment property. Any gain or loss on remeasurement is recognised in equity.

(iii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in the statement of profit or loss and other comprehensive income as incurred.

(iv) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in the statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

- Buildings 20 to 50 years;
- Machinery and equipment 5 to 29 years;
- Transportation equipment 8 to 20 years;
- Other fixed assets 5 to 20 years.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(f) Intangible assets

(i) Goodwill

Goodwill that arises on the acquisition of subsidiaries is included in intangible assets. For the measurement of goodwill at initial recognition refer to note 3(a)(i).

Subsequent measurement

Goodwill is measured at cost less accumulated impairment losses. In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and an impairment loss on such an investment is not allocated to any asset, including goodwill, that forms part of the carrying amount of the equity-accounted investee.

(ii) Research and development

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in the statement of profit or loss and other comprehensive income when incurred.

Development activities involve a plan or design for the production of new or substantially improved products and processes. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. The capitalised expenditure includes the cost of materials, direct labour and overhead costs that are directly attributable to preparing the asset for its intended use, and capitalised borrowing costs. Other development expenditure is recognised in the statement of profit or loss and other comprehensive income as incurred.

Capitalised development expenditure is measured at cost less accumulated amortisation and accumulated impairment losses.

(iii) Other intangible assets

Other intangible assets that are acquired by the Group, which have finite useful lives, are measured at cost less accumulated amortisation and accumulated impairment losses.

(iv) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in the statement of profit or loss and other comprehensive income as incurred.

(v) Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value.

Amortisation is recognised in the statement of profit or loss and other comprehensive income on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefit s embodied in the asset.

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(g) Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases and the leased assets are not recognised in the Group's statement of financial position. Acquired rights to lease of land for development are recognised at cost in inventory or investment property under development.

(h) Investment property under development

Investment property under development consists of plots of land, wholly or partly owned by the Group or leased to the Group, on which commercial properties are being, or will be, built. These properties will be leased to third parties on completion.

Investment property under development consists of two components: land and buildings. Land and buildings are measured at fair value with any change therein recognised in the statement of profit or loss and other comprehensive income.

In the absence of current prices in an active market, the fair values of investment property under development are established by considering the aggregate of the estimated cash flows expected to be received from renting out the property less the estimated costs, including developer's profit margin, to complete the individual projects to the stage where they could be marketed. Discount rate that reflects the specific risks inherent in the net cash flows is applied to the net annual cash flows to arrive at the property valuation.

(i) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. In the case when investment property forms part of a larger property unit, it is distinguished on the basis of the area which it occupies in the total area of the property unit. Investment property is measured at fair value with any change therein recognised in the statement of profit or loss and other comprehensive income.

When the use of a property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

(j) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average principle and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(k) Construction work in progress

Construction work in progress represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date (refer to note 3(p) (iii)) less progress billings and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Group's contract activities based on normal operating capacity.

Construction work in progress is presented as part of trade and other receivables in the statement of financial position for all contracts in which costs incurred plus recognised profits exceed progress billings. If progress billings exceed costs incurred plus recognised profits, then the difference is presented as trade and other payables in the statement of financial position.

(l) Impairment

(i) Financial assets

A financial asset not carried at fair value through profit or loss and other comprehensive income is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial asset (including equity securities) are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

The Group considers evidence of impairment for receivables and held-to-maturity investment securities at both a specific asset and collective level. All individually significant receivables and held-to-maturity investment securities are assessed for specific impairment. All individually significant receivables and held-to-maturity investment securities found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables and held-to-maturity investment securities that are not individually significant are collectively assessed for impairment by grouping together receivables and held-to-maturity investment securities that are not individually significant are collectively assessed for impairment by grouping together receivables and held-to-maturity investment securities that are not individually significant are collectively assessed for impairment by grouping together receivables and held-to-maturity investment securities.

In assessing collective impairment the Group uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less then suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Losses are recognised in the statement of profit or loss and other comprehensive income and reflected in an allowance account against receivables.

Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through the statement of profit or loss and other comprehensive income.

Impairment losses on available-for-sale investment securities are recognised by transferring the cumulative loss that has been recognised in other comprehensive income, and presented in the additional paid-in capital in equity, to the statement of profit or loss and other comprehensive income. The cumulative loss that is removed from other comprehensive income and recognised in the statement of profit or loss and other comprehensive income is the difference between the acquisition cost, net of any principal repayments and amortisation, and the current fair value, less any impairment loss previously recognised in the statement of profit or loss and other comprehensive income. Changes in impairment provisions attributable to time value are reflected as a component of interest income.

If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognised in the statement of profit or loss and other comprehensive income, then the impairment loss is reversed, with the amount of the reversal recognised in the statement of profit or loss and other comprehensive income. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognised in other comprehensive income.

(ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than investment properties, investment properties under development, inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU"). Subject to an operating segment ceiling test, for the purpose of goodwill impairment testing, CGU's to which goodwill has been allocated are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination.

The Group's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the CGU to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of profit or loss and other comprehensive income. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis. An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Goodwill that forms part of the carrying amount of an investment in associate is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in an associate is tested for impairment as a single asset when there is objective evidence that the investment in an associate may be impaired.

(m) Non-current assets held for sale

Non-current assets (or disposal groups comprising assets and liabilities) that are expected to be recovered primarily through sale rather than through continuing use are classified as held for sale. Immediately before classification as held for sale, the assets (or components of a disposal group) are remeasured in accordance with the Group's accounting policies. Thereafter generally the assets (or disposal group) are measured at the lower of their carrying amount and fair value less cost to sell. Any impairment loss on a disposal group first is allocated to goodwill, and then to remaining assets and liabilities on pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets and investment property, which continue to be measured in accordance with the Group's accounting policies. Impairment losses on initial classification as held for sale and subsequent gains and losses on remeasurement are recognised in statement of profit or loss and other comprehensive income. Gains are not recognised in excess of any cumulative impairment loss. Intangible assets and property, plant and equipment once classified as held for sale are not amortised or depreciated.

(n) Employee benefits

Obligations for contributions to defined contribution pension plans, including Russia's State pension fund, are recognised as an expense in the statement of profit or loss and other comprehensive income when they are due.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profitsharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(o) **Provisions**

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(i) Warranties

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on historical warranty data.

(ii) Site and environment restoration

In accordance with the Group's environmental policy and applicable statutory requirements, provision is made for the Group's obligation to incur additional costs including costs associated with clean up the surrounding area after sand extraction and finishing the construction of apartment building. The related expense is recognised in the statement of profit or loss and other comprehensive income.

(iii) Litigation provision

A provision is recognized, if the probability is high that the Group will lose lawsuit in which the Group is a defendant, and there will be a need (requirement) to settle the obligation.

(iv) Provision for unprofitable contracts

A provision is recognized in the amount of the expected loss when the expected revenue is less than the planned costs of completion.

(p) Revenues

(i) Goods sold

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

The timing of the transfers of risks and rewards vary depending on the individual terms of the contract of sale.

Sales may be contracted under share participation agreements. In such instances, the significant risks and rewards of ownership are considered to have been transferred to individual buyers when the construction is completed, and the building has been approved by the State commission for acceptance of finished buildings.

(ii) Services

Revenue from services, rendered by the Group's companies is recognised in the statement of profit and loss and other comprehensive income using percentage-of-completion method when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of revenue can be measured reliably.

(iii) Construction contracts and designing

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, contract revenue and expenses are recognised in the statement of profit and loss and other comprehensive income in proportion to the stage of completion of the contract. Contract expenses are recognised as incurred unless they create an asset related to future contract activity.

The stage of completion is assessed as the proportion that contract costs incurred for work performed to date bear to estimated total contract costs. An expected loss on a contract is recognised immediately in the statement of profit or loss and other comprehensive income.

(iv) Rental income

Rental income from investment property is recognised in the statement of profit and loss and other comprehensive income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Rental income from subleased property is recognised as other income.

(q) Other expenses

(i) Lease payments

Payments made under operating leases are recognised in the statement of profit and loss and other comprehensive income on a straight-line basis over the term of the lease. Lease rights received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the contingency no longer exists and the lease adjustment is known.

(ii) Social expenditure

To the extent that the Group's contributions to social programs benefit the community at large and are not restricted to the Group's employees, they are recognised in the statement of profit and loss and other comprehensive income as incurred.

(r) Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets, changes in the fair value of financial assets at fair value through profit or loss, and foreign currency gains. Interest income is recognised as it accrues in the statement of profit or loss and other comprehensive income, using the effective interest method. Dividend income is recognised on the date that the Group's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, dividends on preference shares classified as liabilities, foreign currency losses, changes in the fair value of financial assets at fair value through profit or loss, and impairment losses recognised on financial assets. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in the statement of profit or loss and other comprehensive income using the effective interest method.

Foreign currency gains and losses are reported on a net basis.

(s) Income tax expense

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss and other comprehensive income except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(t) Earnings per share

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

(u) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the CEO to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Inter-segment pricing is determined on an arm's length basis.

(v) New Standards and Interpretations not yet adopted

A number of new Standards, *amendments to Standards* and Interpretations are not yet effective as at 30 June 2017, and have not been applied in preparing this consolidated financial statements. The Group plans to adopt these pronouncements when they become effective. Of these pronouncements, potentially the following will have an impact on the Group's operations.

• IFRS 9 *Financial Instruments* will be effective for annual periods beginning on or after 1 January 2018 and will replace International Financial Reporting Standard IAS 39 *Financial Instruments:*

Recognition and Measurement. The Group recognises that the new standard introduces many changes to the accounting for financial instruments and is likely to impact on Group's consolidated financial statements. The Group does not intend to adopt this standard early.

• IFRS 15 *Revenue from Contracts with Customers* will be effective for annual periods beginning on or after 1 January 2018. The new standard replaces International Financial Reporting Standard IAS 11 *Construction Contracts*, IAS 18 *Revenue*, IFRIC 13 *Customer Loyalty Programmes*, IFRIC 15 *Agreements for the Construction of Real Estate*, IFRIC 18 *Transfers of Assets from Customers*, SIC 31 *Revenue - Barter Transactions Involving Advertising Services*. The Group recognises that the new standard introduces many changes to the accounting and is likely to have a significant impact on Group's consolidated financial statements.

Under shared construction participation agreements the Group uses funds obtained from customers in the form of prepayments to construct multi-unit residential properties. IFRS 15 requires adjusting the promised amount of consideration for a significant financing component using the discount rate that would be reflected in a separate financing transaction between the entity and its customer at contract inception. The effects of financing (interest expense) should be presented separately from revenue from contracts with customers. The Group does not expect the adjustment for a significant financing component to have a significant impact on its financial results as the interest expense in respect of prepayments from customers is likely to qualify for capitalization as part of work in progress, construction of buildings. Also the Group continues its analysis of applicability of paragraph 35 of IFRS 15 to revenue recognised under shared construction participation agreements. If the Group concludes that one of the criteria in paragraph 35 of IFRS 15 applies, the revenue under these agreements will be recognised over time, i.e. during the construction of building rather than on its completion.

• IFRS 16 replaces the existing lease accounting guidance in IAS 17 *Leases*, IFRIC 4 *Determining* whether an Arrangement contains a lease, SIC-15 Operating Leases – Incentives and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. It eliminates the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Instead, there is a single, on-balance sheet accounting model that is similar to current finance lease accounting.

Lessor accounting remains similar to current practice - i.e. lessors continue to classify leases as finance and operating leases.

The Group has started an initial assessment of the potential impact on its consolidated financial statements. So far, the most significant impact identified is that the Group will recognise new assets and liabilities for its operating leases of land plots for development purposes. In addition, the nature of expenses related to those leases will now change as IFRS 16 replaces the straight-line operating lease expense with a depreciation charge for right-of-use assets and interest expense on lease liabilities. The Group has not yet decided whether it will use the optional exemptions.

• Various *Improvements to IFRSs* have been dealt with on a standard-by-standard basis. All amendments, which result in accounting changes for presentation, recognition or measurement purposes, will come into effect for annual periods beginning after 1 January 2018. The Group has not yet analysed the likely impact of the improvements on its financial position or performance

4 Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(a) **Property, plant and equipment**

The fair value of property, plant and equipment recognised as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between market participants in an orderly transaction. The fair value of items of plant, equipment, fixtures and fittings is based on the market approach and cost approaches using quoted market prices for similar items when available and replacement cost when appropriate.

When no quoted market prices are available, the fair value of property, plant and equipment is primarily determined using depreciated replacement cost. This method considers the cost to reproduce or replace the property, plant and equipment, adjusted for physical, functional or economical depreciation (via application of discounted cash flow method), and obsolescence.

(b) Investment property and investment property under development

The fair value of investment property and the investment property under development is based on valuations, performed by external independent valuation companies, who hold recognized and relevant professional qualifications and who have recent experience in the location and category of the investment property being valued. The valuations are based primarily on comparable rents, discount rates, yields and sales prices from recent market transactions on an arm's lengths basis, using the Discounted Cash Flow technique for investment property under development and market approach for investment property, undertaken according to the requirements of the United Kingdom's Royal Institution of Chartered Surveyors Appraisal and Valuation Manual.

(c) Intangible assets

The fair value of patents and trademarks acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of the patent or trademark being owned. The fair value of customer relationships acquired in a business combination is determined using the multi-period excess earnings method, whereby the subject asset is valued after deducting a fair return on all other assets that are part of creating the related cash flows.

The fair value of other intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

(d) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

(e) Investments in equity and debt securities

The fair value of financial assets at fair value through profit or loss and other comprehensive income, held to maturity investments and available-for-sale financial assets is determined by reference to their quoted closing bid price at the reporting date. The fair value of held-to-maturity investments is determined for disclosure purposes only. Investments in equity securities that are not quoted on a stock exchange are principally valued using valuation techniques such as discounted cash flow analysis, option pricing models and comparisons to other transactions and instruments that are substantially the same. Where fair value cannot be estimated on a reasonable basis by other means, investments are stated at cost less impairment losses.

(f) Trade and other receivables

The fair value of trade and other receivables, excluding construction work in progress, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. This fair value is determined for disclosure purposes.

(g) Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. In respect of the liability component of convertible notes, the market rate of interest is determined by reference to similar liabilities that do not have a conversion option. For finance leases the market rate of interest is determined by reference to similar lease agreements.

5 **Operating segments**

The Group has five reportable segments as described below which are the Group's strategic business units. The strategic business units offer different products and services and are managed separately, because they require different technology and marketing strategies. The format of reporting segments is based on Group's management and internal reporting structure.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly other assets and revenue, interest-bearing loans, borrowings, and corporate assets, liabilities and expenses.

(a) **Operating segments**

The following summary describes the operations in each of the Group's segments:

LSR. Building Materials. The building materials business units are engaged in the production of brick, concrete and reinforced concrete items, ready-mix concrete, aerated concrete blocks, crushed stone production, land-based and marine-dredged sand extraction. These business units are located in Saint Petersburg, Leningrad region and Moscow.

LSR. Construction. The construction business units specialize in panel construction, providing of construction contracting services, transportation of construction materials. These business units are located in Saint Petersburg, Moscow, and Ural region.

LSR. Project management. Business units specialize in providing of construction contracting services. This business unit is located in Saint Petersburg.

LSR. Cranes. Business unit specialize in providing of tower cranes services. This business unit is located in Saint Petersburg.

LSR. Real Estate. The Real Estate business units specialize in the development of elite, mass-market and business class residential real estate and commercial real estate. These business units are located in Saint Petersburg, Moscow, Ural region and Germany.

There are varying levels of integration between the *LSR*. *Building Materials*, *LSR*. *Construction* and *LSR*. *Real Estate* reportable segments. This integration includes transfers of raw materials and services, respectively. Inter-segment pricing is determined on an arm's length basis. The accounting policies of the reportable segments are the same as described in notes 2 and 3.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Group's CEO. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

The operations of the Group are conducted and managed primarily in North-West region, Moscow, Ural and in Germany, where the production facilities and sales offices of the Group are located. The Group has also operations in Ukraine, the volume of which is not significant to total operations of the Group. Accordingly, no geographical segmental information is presented.

The Group has aerated concrete production facilities in Ukraine. Net assets of Ukrainian subsidiary amounts to 0.72% of total net asset of the Group (31 December 2016: 0.65%) and EBITDA equals to 20.51% of EBITDA of the Group (30 June 2016: 3.76%). Ukraine is currently suffering from political and economic crisis, combined with social unrest and regional tensions. The final resolution and the effects of the political and economic crisis are difficult to predict but may have further severe effects on the Ukrainian economy.

Whilst management believes it is taking appropriate measures to support the sustainability of the Group's Ukrainian subsidiary's business in the current circumstances, a continuation of the current unstable business environment could negatively affect the subsidiary's results and financial position in a manner not currently determinable. These consolidated financial statements reflect management's current assessment of the impact of the Ukrainian business environment on the operations and the financial position of the subsidiary. The future business environment may differ from management's assessment.

(b) Major customers

Revenues from the largest customer of the Group represents approximately RUB 567 million (sixmonth period ended 30 June 2016: RUB 1,052 million).

Revenue from the next four significant customers of the Group amounts approximately to RUB 1,320 million (six-month period ended 30 June 2016: RUB 2,119 million).

During the six-month period ended 30 June 2017 depreciation expense of RUB 1,271 million has been charged in cost of goods sold (30 June 2016: RUB 1,319 million), RUB 42 million in distribution expenses (30 June 2016: RUB 39 million) and RUB 101 million in administrative expenses (30 June 2016: RUB 108 million).

(a) Impairment

Property, plant and equipment were tested for impairment; the basis for impairment is disclosed in note 14.

(b) Security

Properties with a carrying amount of RUB 7,633 million are subject to a registered debenture to secure bank loans (31 December 2016: RUB 8,018 million) (refer to note 22).

Properties with a carrying amount of RUB 257 million are pledged to secure payments under the purchase contracts with payments by instalments. (31 December 2016: RUB 269 million).

(c) Leased plant and machinery

The Group leases production equipment under a number of finance lease agreements. At the end of each of the leases the Group has the option to purchase the equipment at a beneficial price. At 30 June 2017 the net book value of leased plant and machinery was RUB 74 million (31 December 2016: RUB 103 million).

| At 30 June 2017 | 3,447 | 838 | 4,285 |

Other intangible assets mainly include licences for extraction of sand and crushed granite in Leningrad region and Urals region.

(a) Impairment testing of goodwill, other intangible assets and property, plant and equipment

Goodwill is allocated to the Group's entities or business units when appropriate. For the purpose of impairment testing these units represent the lowest level within the Group at which the goodwill is monitored for internal management purposes.

The aggregate carrying amounts of goodwill allocated to each entity or business unit (BU) and the related impairment losses recognised are as follows:

| Entity / Business Unit | | Allocated | Impairment | Net book value at |

| BU LSR. Real Estate - Ural | LSR. Real Estate | 1,277 | - | 1,277 |
| BU LSR. Basic Materials | LSR. Building Materials | 155 | - | 155 |
| OOO "LSR.Stroitelstvo-M" | LSR. Construction | 11 | - | 11 |
| BU LSR. Wall Materials | LSR. Building Materials | 512 | - | 512 |
| | | 3,728 | (281) | 3,447 |

Goodwill will be tested for impairment as at 31 December 2017.

Although major assumptions remained unchanged, the Group performed impairment review of non-financial assets including goodwill as at 30 June 2017 with regard to those business units, for which impairment indicators were identified.

The cash flow projections and budgeted results were updated to take into consideration current economic circumstances.

Segment "LSR. Building Materials":

- Cash flows were projected based on budgeted operating results for 2018 and three six years business plans;
- Cash flows for further years were extrapolated assuming 2.00% further growth in production;
- Pre-tax discount rate of 20.20% was applied in determining the recoverable amount of the plants. The discount rate was estimated based on the Group weighted average cost of capital, which was based on a possible range of debt leveraging of 48.54% at a market interest rate of 12.76% p.a. and an industry average beta-coefficient.

Segment "LSR. Construction":

- Cash flows were projected based on budgeted operating results for 2018 and three years business plans;
- Plan for 2018 is prepared based on the actual contract portfolio and the actual prices;
- Cash flows for further years were assuming 2.00% further growth in production;
- Pre-tax discount rate of 19.68% was applied in determining the recoverable amount of the plants. The discount rate was estimated based on the Group weighted average cost of capital, which was based on a possible range of debt leveraging of 50.07% at a market interest rate of 10.56% p.a. and an industry average beta-coefficient.

Segment "LSR. Real Estate":

- Cash flows were determined for the existing and planned investment projects on the basis of 4-year budgeted operating results.
- Cash flows for further years were assuming 2.00% further growth.
- Pre-tax discount rate of 19.68% was applied in determining the recoverable amount of the assets. The discount rate was estimated based on the Group weighted average cost of capital, which was based on a possible range of debt leveraging of 50.07% at a market interest rate of 10.56% p.a. and an industry average beta-coefficient.

The values assigned to the key assumptions represent management's assessment of future trends in the construction, development and construction materials production industry and are based on both external sources and internal sources.

No impairment loss was recognised in respect of goodwill allocated to the entities and business units above and other non-financial assets, as the impairment test demonstrates that for these entities and business units' values in use are significantly higher than carrying amounts in aggregate and individually. The estimates made for goodwill impairment test are sensitive in the following area:

• A 10.00% decrease in undiscounted net cash inflows would have caused the impairment loss in respect of the following entities/BU:

| Entity / Business unit | mln RUB |
|----------------------------|---------|
| BU LSR. Wall Materials | 786 |
| LSR Europe GmbH | 178 |
| BU LSR.Construction - Ural | 170 |

• An increase of one percentage point in the discount rate used would have caused the impairment loss in respect of the following entities/BU:

| Entity / Business unit | mln RUB |
|----------------------------|---------|
| BU LSR. Wall Materials | 213 |
| LSR Europe GmbH | 67 |
| BU LSR.Construction – Ural | 64 |

15 Other investments

| mln RUB | 30 June 2017 | 31 December 2016 |
|---------------------------------|--------------|------------------|
| Non-current | | |
| Available-for-sale investments: | | |
| Stated at cost | 28 | 28 |
| Originated loans | 462 | 462 |
| | 490 | 490 |
| Current | | |
| Originated loans | 428 | 1,565 |
| | 428 | 1,565 |

The Group's exposure to credit, currency and interest rate risks related to other investments is disclosed in note 25.

16 Deferred tax assets and liabilities

(a) Recognised deferred tax assets and liabilities

Deferred tax assets and liabilities are attributable to the following items:

| mln RUB | Assets | | Liab | Liabilities | | Net | |
|-------------------------------|-----------------|------------------|-----------------|------------------|-----------------|------------------|--|
| | | 31 | | 31 | | 31 | |
| | 30 June 2017 | December 2016 | 30 June 2017 | December 2016 | 30 June 2017 | December 2016 | |
| Property, plant and equipment | (233) | (227) | 852 | 910 | 619 | 683 | |
| Intangible assets | (6) | (3) | 63 | 68 | 57 | 65 | |
| Inventories | (8,607) | (9,892) | 368 | 283 | (8,239) | (9,609) | |
| Trade and other receivables | (410) | (302) | 397 | 430 | (13) | 128 | |
| Loans and borrowings | (24) | (24) | - | - | (24) | (24) | |
| Trade and other payables | (157) | (157) | 7,459 | 10,070 | 7,302 | 9,913 | |
| Tax loss carry-forwards | (2,101) | (1,619) | - | - | (2,101) | (1,619) | |
| Tax (assets)/liabilities | (11,538) | (12,224) | 9,139 | 11,761 | (2,399) | (463) | |
| Set off of tax | 8,053 | 9,464 | (8,053) | (9,464) | - | - | |
| Net tax (assets)/liabilities | (3,485) | (2,760) | 1,086 | 2,297 | (2,399) | (463) | |

Deferred tax assets on tax losses carry-forwards recognised as at 30 June 2017 represent tax effect of accumulated unused tax losses recoverable by the future taxable profit. In assessing recoverability of deferred tax assets on tax losses carry-forward the Group applied the same input data and assumptions as it used for impairment testing of goodwill and property, plant and equipment (refer to note 14). The major part of those tax losses relates to business segments LSR.Building Materials and Other.

(b) Movement in temporary differences during the period

| 1 January 2017 | Recognised in profit or loss | Acquired/ disposed | Effect of movements in exchange rate | 30 June 2017 |
|-------------------|---|---|---|--|

| | (465) | (1,248) | 78 | 1 | (1,634) |
| | | | | | |

(c) Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items:

| mln RUB | 30 June 2017 | 31 December 2016 |
|---|--------------|------------------|
| Tax losses | 138 | 135 |
| Deductible temporary differences on intercompany sales of | | |
| investments | 84 | 84 |
| Total deferred tax assets have not been recognised | 222 | 219 |

The deductible temporary differences do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that the Group will sell investments in the foreseeable future and can utilize the benefits therefrom.

17 Inventories

| mln RUB | 30 June 2017 | 31 December 2016 |
|---|--------------|------------------|
| Work in progress, construction of buildings | 134,556 | 117,394 |
| Lease rights | 21,857 | 21,858 |
| Finished goods, construction of buildings | 13,335 | 12,135 |
| Finished goods and goods for resale | 3,135 | 3,472 |
| Raw materials and consumables | 2,679 | 3,044 |
| Work in progress | 1,070 | 1,266 |
| | 176,632 | 159,169 |
| Less: allowance for obsolete inventory | (289) | (268) |
| | 176,343 | 158,901 |

Work in progress, construction of buildings represents the expenditure incurred during the construction of buildings before they are put into operation. The expenditure is financed by prepayments received for flats (refer to note 24), loans and borrowings (refer to note 22), and profit of the developer.

Work in progress, construction of buildings with a carrying amount of RUB 68,344 million are expected to be completed in more than 12 months from the reporting date (31 December 2016: RUB 67,599 million).

Lease rights represent the amount paid to obtain the right of development of land plot which are capitalized into the cost of object upon completion of development. Lease rights are recognized at the present value of future cash outflows (refer to note 24).

Inventories with a carrying amount of RUB 1,333 million are subject to a registered debenture to secure bank loans (31 December 2016: RUB 1,339 million) (refer to note 22).

Inventories with a carrying amount of RUB 5,933 million are pledged to secure payments under the purchase contracts for land plots with payment by instalments (31 December 2016: RUB 1,135 million).

The following is movement in the allowance for obsolete inventory:

| mln RUB | 2017 | 2016 |
|--|------|------|
| Balance at 1 January | 268 | 222 |
| Change in the allowance for obsolete inventory | 21 | 59 |
| Balance at 30 June | 289 | 281 |

As at 30 June 2017 the net realizable value testing resulted in an amount which was less than the carrying amount by RUB 289 million (31 December 2016: RUB 268 million) and the respective allowance was recognized in cost of sales. As at 30 June 2017 major part of the allowance of RUB 276 million (31 December 2016: RUB 254 million) relates to finished goods and goods for resale.

The impairment allowance was made based on the following key assumptions:

- Cash inflows were projected as total of contracted revenue and forecasted revenue determined based on current prices or prices of objects considered analogues;
- Cash outflows include costs accumulated to date and budgeted costs to finish the construction.

18 Trade and other receivables

| mln RUB | 30 June 2017 | 31 December 2016 |
|---|--------------|------------------|
| Non-current | | |
| Notes receivable on disposals of subsidiaries | 180 | 165 |
| Accounts receivable - trade | 58 | 57 |
| Other receivables | 65 | 31 |
| - | 303 | 253 |
| Current | | |
| Prepayments to suppliers | 10,995 | 11,482 |
| Accounts receivable - trade | 2,396 | 2,210 |
| Current receivables on disposals of subsidiaries / shares | 1,716 | 229 |
| Receivables from share participation agreements | 1,665 | 3,251 |
| Amounts due from customers for contract work | 1,078 | 999 |
| VAT receivable | 629 | 1,000 |
| Notes receivable | 293 | 370 |
| Income tax receivable | 114 | 128 |
| Deferred expenses | 85 | 82 |
| Employee receivables | 2 | 45 |
| Other receivables | 1,540 | 2,130 |
| - | 20,513 | 21,926 |
| Provision for doubtful debtors | (651) | (1,049) |
| | 19,862 | 20,877 |

Non-current receivables on disposals of subsidiaries include discounted amount of receivables from sale of subsidiaries with discount rate 4.42%.

The Group's exposure to credit and currency risks and impairment losses related to trade and other receivables (excluding construction work in progress) are disclosed in note 25.

19 Cash and cash equivalents

| mln RUB | 30 June 2017 | 31 December 2016 |
|---|--------------|------------------|
| Petty cash | 6 | 2 |
| Current accounts | 26,731 | 22,792 |
| Call deposits | 1,306 | 2,836 |
| Cash and cash equivalents in the consolidated interim statement of financial position | 28,043 | 25,630 |
| Cash and cash equivalents in the consolidated interim statement of cash flows | 28,043 | 25,630 |

The Group's exposure to interest rate risk and a sensitivity analysis for financial assets and liabilities are disclosed in note 25.

The Group's ability to use funds on current accounts is not restricted by the covenant disclosed in note 22.

20 Equity

(a) Share capital

| Number of shares unless otherwise stated | Ordinar | Ordinary shares | | |
|---|--------------|------------------|--|--|
| | 30 June 2017 | 31 December 2016 | | |
| Par value | RUB 0.25 | RUB 0.25 | | |
| On issue at beginning of the period | 100,966,635 | 100,974,172 | | |
| On issue at end of the period, fully paid | 103,030,215 | 100,966,635 | | |

The holders of ordinary shares are entitled to receive dividends which can be declared from time to time and are entitled to one vote per share at meetings of the Company.

(b) Treasury share reserve

The reserve for the Company's treasury shares comprises the cost of the Company's shares held by the Company. At the reporting date the Company does not hold any of its own shares (31 December 2016: 2,063,580).

(c) Dividends

In accordance with Russian legislation the Company's distributable reserves are limited to the balance of retained earnings as recorded in the Company's statutory financial statements prepared in accordance with Russian Accounting Principles. As at 30 June 2017 the Company had retained earnings, including the profit for the current period, of RUB 8,751 million (as at 31 December 2016: RUB 16,299 million).

In June 2017 the Group distributed dividends in the amount of RUB 8,036 million at value RUB 78.00 per share for financial year ended 31 December 2016. During the reporting period the Group paid dividends in the amount of RUB 3,720 million.

21 (Loss) / earnings per share

The calculation of earnings per share is based on profit attributable to the shareholders of the Company divided by the weighted average number of ordinary shares outstanding during the period, refer to note 20 (a). The Company has no dilutive potential ordinary shares.

| | 2017 | 2016 |
|--|-------------|-------------|
| Issued shares at 1 January | 100,966,635 | 100,974,172 |
| Effect of own shares sold | 1,366,327 | 38,269 |
| Weighted average number of shares for the six-month period ended 30 June | 102,332,962 | 101,012,441 |

22 Loans and borrowings

This note provides information about the contractual terms of the Group's loans and borrowings. For more information about the Group's exposure to interest rate and foreign currency risk, refer to note 25.

| mln RUB | 30 June 2017 | 31 December 2016 |
|-------------------------|--------------|------------------|
| Non-current | | |
| Secured bank loans | 14,793 | 14,987 |
| Unsecured bank loans | 29,990 | 26,626 |

| Bond issued | 1,154 | 160 | (1,159) | 5 | 160 |
| | 32,864 | 28,908 | (17,955) | 5 | 43,822 |

Covenants and other matters

The Credit Agreements require the Group to comply with certain general, informational and financial covenants, including:

- a limitation on the Group's ability to incur additional debt beyond certain financial ratios;
- maintaining by the Group's of some of financial coefficients on a fixed level;
- subject to certain exceptions, a prohibition restricting the Group ability to issue significant borrowings, provide guarantees or indemnities to the third party;
- an obligation to provide to the Banks with such financial and other information, the Banks may
 reasonably require in relation to the loan contracts, including the Group's annual audited and
 unaudited consolidated financial statements, prepared in accordance with IFRS.

Credit arrangements for unsecured bank loans of RUB 21,850 million (31 December 2016: RUB 13,900 million) require Group to keep the ratio of bank account opened in the bank-lender to loan principal at no less than one.

The Group complies with covenants described above.

Bank loans are secured by the following:

- Property, plant and equipment with a carrying amount of RUB 7,633 million is pledged as collateral to secure bank loans (31 December 2016: RUB 8,018 million) refer to note 13(b).
- Inventories with a carrying amount of RUB 1,333 million are pledged as collateral to secure bank loans (31 December 2016: RUB 1,339 million) – refer to note 17.

The finance lease liabilities are secured by the leased assets (refer to note 13(c)).

Bank loans are secured by the pledge of the following shares in subsidiary companies as at 30 June 2017:

- 100.00% JOINT-STOCK COMPANY "CONSTRUCTION CORPORATION "REVIVAL OF SAINT PETERSBURG";
- 100.00% of LSR. Wall Materials Ltd.

23 Provisions

(a) Site finishing

The Group records provisions in respect of the Group's obligation to incur additional costs including costs associated with cleaning up the surrounding area after finishing the construction of apartment buildings in Saint Petersburg, Moscow, Yekaterinburg and Leningrad region.

(b) Environment restoration

The Group records provisions in respect of the Group's obligation to clean up the surrounding area after quarrying sand in water and forested areas. The damage caused during quarrying is cleaned up after quarrying is completed. The amount of provision is estimated based on the available information. The Group expects the resulting outflow of economic benefits over the next five years.

(c) Warranty provision

The provision for warranties relates mainly to the residential units sold as at the date of reporting. The provision is based on estimates made from historical warranty data associated with similar products and services and is required under the German legislation. The Group expects the resulting outflow of economic benefits over the next three years. For the production companies warranty provision relates to the construction works done.

(d) **Provision for unprofitable contracts**

Provisions for unprofitable contracts are recognized when the expected revenues are lower than the expected costs to completion.

(e) Litigation provision

The Group recognises provision on legal obligations that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

24 Trade and other payables

| mln RUB | 30 June 2017 | 31 December 2016 |
|---|--------------|------------------|
| Non-current payables | | |
| Accounts payable – trade | 18,250 | 17,258 |
| Taxes and other payables to the budget | 1,551 | 648 |
| - | 19,801 | 17,906 |
| - Current payables | | |
| Prepayments received for flats | 85,127 | 70,239 |
| Accounts payable – trade | 14,834 | 16,724 |
| Advances from customers | 5,775 | 4,784 |
| Dividends payable | 4,319 | - |
| Taxes and other payables to the budget | 3,322 | 3,475 |
| Accounts due to customers for contract work | 1,721 | 1,907 |
| Employee-related liabilities | 1,324 | 1,119 |
| Income tax payable | 222 | 154 |
| Interest payable | 201 | 124 |
| Deferred income | 4 | 7 |
| Other payables | 463 | 462 |
| - | 117,312 | 98,995 |

Prepayments received for flats represent funds obtained under share participation agreements that include RUB 14,740 million for flats, which are expected to be delivered in more than 12 months from the reporting date (31 December 2016: RUB 10,542 million).

Trade payables include payables for lease rights to be repaid in instalments. Payables for lease rights are discounted at rate 10.70%.

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in note 25.

25 Financial risk management

(a) Overview

The Group has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk;
- market risk;
- operational risk.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout this consolidated interim financial statement.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established an Audit Committee, which is responsible for developing and monitoring the Group's risk management policies. The Audit Committee reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities.

(i) Trade and other receivables

Trade receivables from the largest five debtors of the Group represents approximately RUB 459 million (31 December 2016: RUB 538 million) of the Group's total Trade receivables. Geographically there is concentration of credit risk as the most significant part of Group's operations is located in Russia.

The Group has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms are offered. The Group's review includes external ratings, when available, and in some cases bank references. Purchase limits are established for each customer, which represents the maximum open amount without requiring approval from the Managing Directors; these limits are reviewed quarterly. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group on a prepayment basis.

Most of the Group's customers in the "LSR. Building Materials", "LSR. Construction" operating segments have been transacting with the Group for over four years, and losses have occurred infrequently. The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Group does not have a unified policy for management of credit risk in place. Due to significant differences in operations at different business units specific credit policies are developed at the level of operational companies. Each of the operating companies has established procedures in place to review and collect outstanding receivables. New customers, as well as customers with significant outstanding and overdue balances are reviewed on a regular basis and resulting actions are put in place. All companies involved in the extraction and production of building materials have in place of a signed contract, previous fail to pay or previous violations of contract conditions. Also certain limits for the accounts receivable are established for particular customers.

In the "LSR. Real Estate" operating segment the Group is not exposed to significant credit risk as most sales are on a prepayment basis, most customers are individuals.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. This allowance represents a specific loss component that relates to individually significant exposures.

(ii) Investments

The Group does not invest any of its assets in traded securities. The Group limits its exposure to credit risk by investing in credit notes of trade counterparties (customers and suppliers of the Group) that have an appropriate reputation in the market. Management does not consider that any of the counterparties may not perform their obligations.

(iii) Guarantees

As at 30 June 2017 guarantees made to third parties were RUB 230 million (31 December 2016: RUB 2,528 million).

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

| mln RUB | Carrying amount | | | |
|-------------------------------------|-----------------|------------------|--|--|
| | 30 June 2017 | 31 December 2016 | | |
| Available-for-sale financial assets | 28 | 28 | | |
| Loans and receivables | 7,675 | 7,463 | | |
| Cash and cash equivalents | 28,043 | 25,630 | | |
| | 35,746 | 33,121 | | |

The maximum exposure to credit risk for trade receivables at the reporting date by geographic region was:

| mln RUB | Carrying amount | | |
|---------------------|-----------------|------------------|--|
| | 30 June 2017 | 31 December 2016 | |
| Domestic | 2,233 | 2,008 | |
| Euro-zone countries | 51 | 45 | |
| Other CIS countries | 5 | 5 | |
| | 2,289 | 2,058 | |

The Group's most significant trade debtor IC IÇTAŞ INŞAAT SANAYI VE TICARET A.Ş accounts for RUB 209 million of the trade receivables carrying amount at 30 June 2017 (31 December 2016: IC IÇTAŞ INŞAAT SANAYI VE TICARET A.Ş RUB 237 million).

The total amount of impaired trade receivables at the reporting date was RUB 165 million (31 December 2016: RUB 233 million).

The ageing of trade receivables at the reporting date was:

| mln RUB | Gross 30 June 2017 | Impairment 30 June 2017 | Gross 31 December 2016 | Impairment 31 December 2016 |
|-----------------------------|-----------------------|----------------------------|------------------------------|-----------------------------------|
| Not past due | 1,715 | - | 718 | - |
| Past due 0-30 days | 360 | - | 476 | - |
| Past due 31-180 days | 173 | (41) | 473 | (5) |
| Past due more than 180 days | 206 | (124) | 600 | (228) |
| | 2,454 | (165) | 2,267 | (233) |

The movement in the allowance for impairment in respect of trade receivables during the period was as follows:

| mln RUB | 2017 | 2016 |
|----------------------|-------|-------|
| Balance at 1 January | (233) | (287) |
| Impairment reversal | 68 | 9 |
| Balance at 30 June | (165) | (278) |

The impairment loss at 30 June 2017 relates to several customers that have indicated that they are not expecting to be able to pay their outstanding balances, mainly due to economic circumstances. The Group believes that the unimpaired amounts that are past due by more than 30 days are still collectible, based on historic payment behaviour and internal analysis on the underlying customers' credit ratings.

The movement in the allowance for impairment in respect of advances paid and other receivables during the period was as follows:

| mln RUB | 2017 | 2016 |
|----------------------|-------|-------|
| Balance at 1 January | (816) | (760) |
| Impairment reversal | 330 | 31 |
| Balance at 30 June | (486) | (729) |

(c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group uses cash flow budgets which are prepared for each year and quarter to forecast potential liquidity deficit and identify sources of covering that deficit. As at 30 June 2017 the Group's undrawn credit facilities amount is RUB 26,310 million (31 December 2016: RUB 15,174 million). Interest would be payable at the rate of 9.70% to 12.94%.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements. It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

| mln RUB | Contractual | Effective | Less than 1 year | 1 5 voorg | Over 5 years | Total |

*Fixed rate

31 December

** Future interests contain not charged, expected interests. Future interests do not reflect current payables of the Group. Future interests are calculated based on current credit facilities, which the Group had on 31 December 2016.

*** Guarantees contain guarantees made to third parties. Guarantees do not reflect current payables of the Group.

(d) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities, primarily the Russian Rouble (RUB), but also Euro and Ukrainian Hryvna (UAH). The currencies in which these transactions primarily are denominated in Euro and USD.

Interest on borrowings is denominated in currencies that match the cash flows generated by the underlying operations of the Group, primarily RUB. This provides an economic hedge and no derivatives are entered into.

Exposure to currency risk

The Group's exposure to currency risk was based on the following principal amounts:

| 30 June 2017 mln RUB | EUR-denominated | USD-denominated |
|------------------------------|-----------------|-----------------|
| Trade and other receivables | 248 | 2 |
| Trade and other payables | (10) | (11) |
| Gross balance sheet exposure | 238 | (9) |
| 31 December 2016 mln RUB | EUR-denominated | USD-denominated |
| Trade and other receivables | 250 | 1 |
| Trade and other receivables | 259 | 1 |
| Trade and other payables | (7) | 1 (419) |

The following significant exchange rates applied during the period:

| | 30 June 2017 | 31 December 2016 | |
|--------------|--------------|------------------|--|
| | RUB | RUB | |
| 1 USD equals | 59.0855 | 60.6569 | |
| 1 EUR equals | 67.4993 | 63.8111 | |
| 1 UAH equals | 2.2647 | 2.2383 | |

Sensitivity analysis

A 10.00% strengthening of RUB against the above currencies would have decreased profit by RUB 23 million. A 10.00% weakening of the RUB against the above currencies would have the equal but opposite effect on the basis that all other variables remain constant.

(ii) Interest rate risk

Changes in interest rates impact primarily loans and borrowings by changing either their fair value (fixed rate debt) or their future cash flows (variable rate debt). Management does not have a formal policy of determining how much of the Group's exposure should be to fixed or variable rates. However, at the time of raising new loans or borrowings management uses its judgment to decide whether it believes that a fixed or variable rate would be more favourable to the Group over the expected period until maturity.

Profile

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

| mln RUB | Carrying amount | | | |
|---------------------------|-----------------|------------------|--|--|
| | 30 June 2017 | 31 December 2016 | | |
| Fixed rate instruments | | | | |
| Financial assets | 918 | 2,055 | | |
| Financial liabilities | (62,218) | (54,354) | | |
| | (61,300) | (52,299) | | |
| Variable rate instruments | | | | |
| Financial liabilities | | (1,341) | | |

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss and other comprehensive income, and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore a change in interest rates at the reporting date would not affect the statement of profit or loss and other comprehensive income.

(e) Fair values versus carrying amounts

The fair value of unquoted equity investments is discussed in note 4. In other cases management believes that the fair value of its financial assets and liabilities approximates their carrying amounts except for loans.

The fair values of financial assets and liabilities, together with the carrying amounts shown in the statement of financial position, are as follows:

| mln RUB | Note | Carrying amount | Fair value | Carrying amount | Fair value |
|-------------------------------------|------|--------------------|-----------------|---------------------|---------------------|
| | | 30 June 2017 | 30 June 2017 | 31 December 2016 | 31 December 2016 |
| Financial assets | | | | | |
| Available-for-sale financial assets | 15 | 28 | 28 | 28 | 28 |
| Loans and receivables | | 7,675 | 7,675 | 7,463 | 7,463 |
| Cash and cash equivalents | 19 | 28,043 | 28,043 | 25,630 | 25,630 |
| | | 35,746 | 35,746 | 33,121 | 33,121 |
| Financial liabilities | | | | | |
| Secured bank loans | 22 | (18,385) | (18,362) | (20,364) | (20,645) |
| Unsecured bank loans | 22 | (33,740) | (33,440) | (30,212) | (29,936) |
| Unsecured other loans | 22 | (14) | (13) | (14) | (13) |
| Unsecured bond issues | 22 | (10,000) | (10,035) | (5,000) | (4,966) |
| Trade and other payables | 24 | (38,067) | (38,067) | (35,216) | (35,216) |
| Finance lease liabilities | 22 | (79) | (79) | (105) | (105) |
| | | (100,285) | (99,996) | (90,911) | (90,881) |
| | | | | | |

The interest rates used to discount estimated cash flows, where applicable, are based on incremental borrowing rates, available for the Group as at:

| | 30 June 2017 | 31 December 2016 |
|----------------------|-----------------|------------------|
| Loans and borrowings | 2.53% - 10.07% | 3.01% - 10.96% |
| Leases | 11.81% - 21.24% | 11.81% - 21.24% |

(f) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Group's operations.

The Group's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Group's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Group standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of the transactions;
- requirements for the reconciliation and monitoring of the transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessments of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- requirements for the reporting of operational losses and proposed remedial action;
- development of contingency plans;
- training and professional development;
- ethical and business standards;
- risk mitigation, including insurance where this is effective.

Compliance with Group standards is supported by a programme of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the business unit, to which they relate, with summaries submitted to the Audit Committee and senior management of the Group.

(g) Capital management

The Group has no formal policy for capital management but management seeks to maintain a sufficient capital base for meeting the Group's operational and strategic needs, and to maintain confidence of market participants. This is achieved with efficient cash management, constant monitoring of Group's revenues and profit, and long-term investment plans mainly financed by the Group's operating cash flows. With these measures the Group aims for steady profits growth.

The Group's liabilities to adjusted capital ratio at the end of the reporting period were as follows:

| mln RUB | 30 June 2017 | 31 December 2016 |
|----------------------------------|--------------|------------------|
| Total liabilities | 201,446 | 176,561 |
| Less: cash and cash equivalents | (28,043) | (25,630) |
| Net liabilities | 173,403 | 150,931 |
| | | |
| Total equity | 60,939 | 68,459 |
| Net liabilities to capital ratio | 2.85 | 2.20 |

26 Operating leases

Non-cancellable operating lease rentals are payable as follows:

| mln RUB | 30 June 2017 | 31 December 2016 |
|----------------------------|--------------|------------------|
| Less than one year | 859 | 2,076 |
| Between one and five years | 1,397 | 1,188 |
| More than five years | 2,690 | 2,774 |
| | 4,946 | 6,038 |

The Group leases a number of land plots under operating leases. The leases typically vary from an initial period of four to forty nine years, with an option to renew the lease after that date. Lease payments are usually fixed.

For the production entities lease payments are expensed as incurred, while for the real estate construction entities lease payments are capitalised to the construction costs of the properties, located on the respective land plots. During the six-month period ended 30 June 2017 an amount of RUB 102 million was recognised as an expense in the statement of profit or loss and other comprehensive income in respect of non-cancellable operating leases. An amount of RUB 1,389 million was capitalized to the construction cost of the properties, located on the respective land plots.

27 Commitments

At 30 June 2017, the Group was committed to purchase property, plant and equipment for approximately RUB 48 million net of VAT (at 31 December 2016 the Group was not committed to purchase property, plant and equipment).

At 30 June 2017 the Group was committed to purchase lease rights with the purpose of future development of real estate, which therefore will be classified as Inventory, of RUB 15,100 million. The payment is to be performed by instalments till 2024.

28 Contingencies

(a) Insurance

The insurance industry in the Russian Federation is in a developing state and many forms of insurance protection common in other parts of the world are not yet generally available. The Group does not have full coverage for its plant facilities, business interruption, or third party liability in respect of property or environmental damage arising from accidents on Group property or relating to Group operations. Until the Group obtains adequate insurance coverage, there is a risk that the loss or destruction of certain assets could have a material adverse effect on the Group's operations and financial position.

(b) Litigation

Existing litigations include a number of small claims relating to purchases from domestic customers. Based on experience in resolving such claims, management believes that they will be settled without significant cost to the Group. Accordingly, no provision has been made for such amounts.

(c) Taxation contingencies

The taxation system in the Russian Federation is relatively new and is characterised by frequent changes in legislation, official pronouncements and court decisions, which are often unclear, contradictory and subject to varying interpretation by different tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the authority to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive position in their interpretation and enforcement of tax legislation.

These circumstances may create tax risks in the Russian Federation that are substantially more significant than in other countries. Management believes that it has provided adequately for tax liabilities based on its interpretations of applicable Russian tax legislation, official pronouncements and court decisions. However, the interpretations of the relevant authorities could differ and the effect on these consolidated interim financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

The Group companies entered into transactions involving other Group companies at prices which management believed were consistent with applicable tax law. However, based on the uncertainty of legislation, the tax authorities could take a different position and attempt to assess additional tax and interest. The potential amount of such assessment cannot be reasonably estimated based on the uncertainty of transfer pricing rules, but could be significant. Management has not made any provision because it believes there will be no outflow of funds relating to any such assessment.

(d) Environmental liabilities

The Group is engaged in dredging sand from the sea bed and quarrying sand in the 7 areas. There is no liability to perform any restoration work in relation to the sea bed after the dredging is complete.

The Group is engaged in crushed stone production in the 6 areas and extraction of clay in 2 areas.

According to existing legislation and the terms of licenses obtained by the Group, there is a liability for the Group to restore these sites when quarrying is complete. In case the planned restoration costs can be identified before the quarrying is completed and the licence is used, the reserve for restoration is recognized.

The costs associated with restoration cannot be determined if, in accordance with existing licences on crushed stone production, the methods of restoration and its cost will be determined in the future. In this case, the reserve for restoration is not recognized.

In 2018 one licence for sand quarrying expires, but is planned to be prolonged. It is planned that quarrying of the remaining 14 areas will be completed after 2020.

29 Related party transactions

(a) Control relationships

The Company is ultimately controlled by Andrey Molchanov.

(b) Transactions with management and close family members

The management and their close family members control 5.49% of the voting shares of the Group. (31 December 2016: 5.00%).

(i) Management remuneration

Key management received the following remuneration during the period, which is included in personnel costs (refer to note 9):

| mln RUB | 30 June 2017 | 30 June 2016 |
|----------------------|--------------|--------------|
| Salaries and bonuses | 819 | 637 |

(ii) Other transactions with management and close family members
