On the date of the Auction the members of the Stock Market Section of MICEX participating in the Auction submitted orders for the Bond acquisition to the Underwriter through the trading system of MICEX. Each order included the price of the Bond acquisition specified in item 56.9 of the present Prospectus of Bonds and item 7.3 of the Decisions on the Bond Issue, number of the Bonds and interest rate under the first coupon at which potential buyers were ready to acquire the number of Bonds specified in the order. Interest rate on the first coupon specified in the order were expressed as annual interest rate to the 100-th share of percent.

After the period of submission of the orders for the Auction had expired, members of the Stock Market Section of MICEX could not change or withdraw the submitted orders. After the period of submission of the orders for the Auction had expired, MICEX made a list of the submitted orders and sent it to the Underwriter and the Issuer.

Interest rate under the first coupon were determined at the Auction according to the following algorithm:

- Upon termination of the period of submitting orders for Bond acquisition on the Auction, MICEX Trading system formed the full register of the submitted orders ranked by ascending order of the interest rate for the first coupon specified in the order (if the interest rates were identical the orders were also ranked by the time of order submission starting from the order that had been submitted first). Technical maintenance of the formation of the full register of the submitted orders were carried out by MICEX Trading system;

- On the basis of the register of the submitted orders and taking into consideration the number of Bonds specified in each order, MICEX Trading system calculated by accumulated result the number of Bonds which the persons who had submitted the orders for Bonds purchase were ready to acquire, starting from the order with minimal interest rate, in turn, opposite each order;

- On the basis of the register of the submitted orders, the Issuer made a decision on the size of the interest rate under the first coupon and informed the Underwriter about the adopted decision in writing;

- The Underwriter informed MICEX on the size of the interest rate under the first coupon.

MICEX informed all members of the Stock Market Section on the size of the interest rate under the first coupon by e-mail.

Having received the information on the size of the interest rate under the first coupon from the Issuer, the Underwriter concluded transactions of Bonds sale and purchase by sending counter target orders for Bonds sale at the price of Bonds placement specified in item 7.3 of the Decision on Bonds Issue, to the orders in which the size of the interest rate was less or equal to the size of the fixed interest rate under the first coupon. Period of carrying out the operations on determination of the rate under the first coupon within the framework of the Auction and concluding transactions on Bonds placement were determined by MICEX together with the Issuer.

The submitted orders for Bonds purchase were satisfied by the Underwriter in full if the number of Bonds specified in the order did not exceed the number of unplaced Bonds. If the number of Bonds indicated in the order exceeded the number of unplaced Bonds, such order were satisfied at the amount of the Bonds that had not been placed. The Underwriter satisfied the orders for Bonds purchase in the following order:

1) The orders were satisfied in ascending order of the interest rate specified in such orders, i.e. the order having the minimal value of the interest rate of all sent orders was satisfied in the first place, the order having minimal value of the interest rate of the remaining orders was satisfied in the second place, etc.;

2) If the interest rates specified in the orders were equal, they were satisfied on a first-come basis. After placement of all bond volume the conclusion of transactions stopped.

Unsatisfied during the Auction orders for bond purchase were cancelled. Bonds sold during the Auction were transferred from the emissive account of depot of the Issuer to corresponding accounts of depot of owners or Holders of Bonds on the date of the Auction.

To acquire Bonds after the Auction in case of their incomplete placement during the Auction the members of the Stock Market Section of MICEX had the right to submit target order for Bond acquisition which was covered by cash means to the Underwriter through the electronic trading system of MICEX. Each order included the price of the Bond acquisition specified in item 7.3 of the Decision on the Bond Issue and maximum number of Bonds which the potential buyer was ready to acquire. As at the moment of submission the order should have been provided with sufficient money resources on the account of the person submitting the order to Clearing house of the Moscow Interbank Currency Exchange.

The orders for Bonds purchase after the Auction were satisfied by the Underwriter by sending counter target order to the trading system of MICEX. Orders for Bonds purchase were satisfied on a first-come basis. If the volume of the order to be satisfied exceeded the bonds volume not placed by the moment of satisfaction of this order, it was satisfied in the volume of bonds not placed by the moment of satisfaction of the order.

In case the Issuer fails to execute its obligations on Bond redemption including retirement before maturity Bond owners and-or Holders have the right to appeal to the Underwriter in the order and on conditions, established by the Decision on Bond issue and the Emission Prospectus.

Underwriting is an unconditional and irrevocable commitment of the Underwriter to each owner of Bonds to pay the sum equal to par value of Bonds, to be paid by the Issuer according to the Decision on Bond Issue and the Prospectus of Bonds (hereinafter referred to as - terms of Bond Issue) to any owner of Bonds, for any reason, in time, currency and at the date, stipulated by terms of Bond Issue within the limits of the Maximum sum.

Acquisition of Bonds means the conclusion of contract of the guarantee among the purchaser of Bonds (further – Bond owners) and the Underwriter. Rights under the specified contract of guarantee shall be transferred to a purchaser together with other rights on Bonds in the same volume and on the same conditions which exist at the moment of transferring such rights.

The Underwriter and the Issuer carry joint liability before Bond owners under obligations to pay par value of the Bonds arising in connection with Bond issue and placement.

Under condition of reception of the notice from the owner of Bonds about non-fulfillment of payment by the Issuer the Underwriter undertakes to provide (without any demand to the owner of Bonds to take measures concerning the Issuer or any other person) fulfillment of such payment as though the Underwriter has been specified instead of the Issuer as the basic person who has accepted the terms of Bond issue so that the Owner of Bonds would receive the same sum of the same currency as he should receive if this payment would be made by the Issuer according to terms of Bond issue, within no more than 70 (seventy) days after the date of such payment, but as a whole not later than 10 (ten) days after receiving the notice from the owner of Bonds.

The notice should be made in writing and sent to the Underwriter by registered mail or handed the authorized representative of the Underwriter on receipt.

The notice may be directed to the Underwriter during 60 (sixty) days from the moment of non-fulfillment of payment by the Issuer to the postal address of Joint-Stock Company " Management company "BFA": 212, Moskovskiy pr., Saint Petersburg, 196066 Russia

The following documents should be enclosed to the notice:

- ***A copy of an extract from the account of depot (inter-deposit account) of the Depository of the owner of Bonds in the Depository as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of Bonds;***
- ***A copy of an extract from the account of depot of the owner of Bonds as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of the Bonds, certified by the Depository of the owner of Bonds in case the account of Bonds is carried out in the Depository of the owner of Bonds having inter-deposit account in the Depository;***
- ***The documents confirming powers of persons who have signed the claim on behalf of the owner of Bonds (in case of presentation of the claim by the authorized persons of the owner of Bonds);***
- ***Notarized samples of signatures of the persons who have signed the claim on behalf of the owner of Bonds.***

The notice should include amount of money to be paid to the owner of Bonds under the underwriting as well as description of the breach of the Issuer's obligations secured by the Underwriter.

Claim to the Underwriter can be made by a person – depositor of the Depository which keeps the bonds(hereinafter referred to as - "Bond Holder") for the benefit of Bond owners being depositors of such Bond Holder. In this case, Bond Holder should confirm its powers in the claim applications on behalf of owners of Bonds.

The notice should contain payment essential elements and other data of the person making the claim (the name for the legal person or a surname, name and patronymic for the physical person, the address of his site (residence), TIN, for physical persons - passport data, for legal persons - codes OKPO and OKVED (OKONKh), for bank establishments - BIK), necessary for transferring money to the owner of Bonds. The claim on payment of cash shall not be satisfied.

Within 10 (ten) days from the date of receiving the above-stated documents, the Underwriter shall carry out their check and in case they meet the requirements of the present Guarantee, fulfill payment of the sum due to the owner of Bonds, according to the payment essential elements specified in the claim. Obligations of the Underwriter are considered executed from the moment of charge-off of the corresponding sum from the account of the Underwriter for the benefit of the owner of Bonds.

If the Notice or the enclosed documents do not meet the requirements of the present Guarantee, the Underwriter is obliged to send notification on the reasons of refusal to satisfy the claim of the Bond owner to the owner of Bonds not later than 5 (five) working days from the moment of receiving the requirement.

The Underwriter admits that each Bond Owner has the right to bring the claim directly against the Underwriter for compulsory realization of obligations undertaken by the Underwriter.

In relations between the Underwriter and the owner of Bonds, but not belittling obligations of the Issuer, the Underwriter bears the responsibility under the underwriting as though it is the only one principal debtor and the person who has undertaken the obligations on Bond issue, but only if in all cases the Underwriter receives the notification in such a way and in such term as it is specified in the present Decision on Bond Issue.

Provided that the Underwriter receives the notification in such a way and in such term as it is specified in the present Decision on Bond Issue, obligations of the Underwriter are being maintained as constant underwriting until the whole par value of Bonds is paid off and will be ceased only after full execution of the obligations stipulated by the terms of the Bond Issue.

Terms of underwriting are regulated and subject to interpretation according to the legislation of the Russian Federation.

Any dispute arising out of the given underwriting between the Underwriter and Bond Owners - legal persons as well as between the Underwriter and the Issuer shall be settled by Arbitration court of Moscow, and between the Underwriter and Bond Owners - physical persons shall be litigated in the court of the general jurisdiction at the place of the Underwriter's residence.

After the period of submission of the orders for the Auction expires, MICEX shall make a joint register of the submitted orders for the Issuer and/or Underwriter.

The joint register of the submitted orders shall include all terms specified in each order, namely: the price of acquisition, number of securities, date and time of the order's reception as well as the name of the Member of the Section who submitted the order. The joint register of the submitted orders shall be approved by the Financial Consultant in the equity market.

Individual executive body of the Issuer shall make decision on the size of the annual interest rate under the first coupon on the basis of total number of the submitted orders and the interest rates on the first coupon indicated in them. The Issuer shall inform the MICEX about such decision in written form not later than 30 minutes prior to its sending to a news agency. After sending notification on the size of the interest rate under the first coupon to a news agency the Issuer informs the Underwriter about the size of the interest rate under the first coupon. The Underwriter informs all members of the MICEX Stock Market Section about the size of the interest rate under the first coupon fixed by the Issuer using MICEX Trading system by means of e-mail to all members of the MICEX Stock Market Section.

The information on the interest rate under the first coupon shall be disclosed in terms and order stipulated in item 11 of the Decision on the bond issue and item 2.9 of the Emissive Prospectus of the securities.

After the Issuer fixes the interest rate under the first coupon on the first day of the bond placement the Underwriter on behalf of the Issuer shall satisfy orders for purchase of Bonds on the conditions and in order stated in the Decision on Bond Issue and the Prospectus of Bonds. All transactions of bond sale and purchase during their placement shall be concluded at the price of the Bond par value.

Transactions of sale and purchase of Bonds during the placement shall be concluded only after the Financial Consultant approves the Register of the submitted orders for bonds purchase formed by the MICEX.

During the Auction the Underwriter shall satisfy the orders of the members of the Stock Market Section for Bonds acquisition in ascending order of the interest rate specified in such orders. If the interest rates specified in the orders are equal, they are satisfied on a first-come basis. . If the number of Bonds indicated in the last order exceeds the number of unplaced Bonds, such order shall be satisfied at the amount of the Bonds that have not been placed. The order of the Members of the stock market Section for purchase shall be satisfied provided that the coupon rate specified in it is not higher than the rate on the first coupon specified in the counter order of the Underwriter. Unsatisfied during the Auction orders for bond purchase of the Members of the stock market Section are to be cancelled.

The interest rate under the first coupon having been fixed and the orders submitted during the Auction having been satisfied, the member of the MICEX Stock Market Section acting on its own behalf and at own expense, or on its own behalf, but for the account and on behalf of the potential buyers who are not the members of the MICEX Stock Market Section may submit orders for purchase of Bonds at the price of 100 percent of the bond par value at any working day during the

period of placement with indication of the number of bonds to be acquired.

Starting from the second day of the bond placement, the buyer shall pay accumulated coupon income under the Bonds calculated from the starting date of the Bond placement according to item 15 of the Decision on Bonds Issue and item 2.6 of the Prospectus of the Bonds. Financial Consultant in the equity market shall approve the Register of the submitted orders for bonds purchase formed by the MICEX according to the results of each day of the bond placement. The Register of the submitted orders shall include the terms specified in each order, namely: the price of acquisition, number of securities, date and time of the order's reception as well as the name of the Member of the Section.

Time and procedure for orders' submission shall be established by the Moscow Interbank Stock Exchange as agreed with the Underwriter. The Underwriter shall inform the Members of the Section about the unplaced Bonds on the trading account of the Underwriter through the MICEX trading system by means of offering non-target orders.

The submitted orders for Bonds purchase are satisfied by the Underwriter in full if the number of Bonds indicated in the order does not exceed the number of unplaced Bonds on the trading account of the Underwriter. If the number of Bonds indicated in the order exceeds the number of unplaced Bonds, such order shall be satisfied at the amount of the Bonds that have not been placed. The Underwriter satisfies the orders for the bonds' acquisition on a first-come basis. If the total volume of par value of the bond issue is placed, further orders for bond purchase shall not be accepted.

Obligatory condition of Bonds acquisition at their placement is reservation of money resources of the buyer on the account of the Member of the stock market Section on behalf of which the order has been sent, in the MICEX Clearing house.

Fax: *(095) 755-97-01*

e-mail: *moscow@eyi.com*

Data on Auditor's license:

No. of license for auditing: *E003246*

Date of issue: *17.01.2003*

Period: *till 17.01.2008*

Authority issuing the license: *Ministry of Finance of the Russian Federation*

Fiscal year, for which the auditor independently checked the issuer's accounts and financial (book-keeping) reports: *Financial accounts according to RAS for the years 2002-2003, consolidated financial accounts according to GAAP USA for the year 2001, consolidated financial accounts according to IAS for the year 2002.*

Factors are described that may have influence on independence of the auditor on the issuer, and measures are indicated that have been taken by the Issuer and the auditor to reduce the influence of the said factors:

Pursuant to the Law "On Audit" № 119-FZ of 07.08.2001 audit shall not be performed by:

- 1) auditors being founders (shareholders) of audited persons, their executive officers, accountants or other persons responsible for accounting and making financial (accounting) reports;*
- 2) auditors being immediate family members of founders (shareholders) of audited persons, their executive officers, accountants or other persons responsible for accounting and making financial (accounting) reports (their parents, spouse, brothers, sisters, children as well as mothers- and fathers-in-law, sons- and daughters-in-law, brothers- and sisters-in-law);*
- 3) auditing companies whose executive officers and other officials are founders (shareholders) of audited persons, their executive officers, accountants or other persons responsible for accounting and making financial (accounting) reports;*
- 4) auditing companies whose executive officers and other officials are immediate family members of founders (shareholders) of audited persons, their executive officers, accountants or other persons responsible for accounting and making financial (accounting) reports (their parents, spouse, brothers, sisters, children as well as mothers- and fathers-in-law, sons- and daughters-in-law, brothers- and sisters-in-law);*
- 5) auditing companies in relation to audited persons being their founders (participants), in relation to audited persons of whom these auditing companies are founders (participants), in relation to affiliates, branches and representative offices of the indicated audited persons as well as in relation to the companies having the same founders (participants);*
- 6) auditing companies and auditors who provided services on accounting and making financial reports to natural and legal persons – in relation to such persons - until three years after provision of such services.*

Terms and size of compensation to be paid to auditing companies and individual auditors for performing audit (including mandatory one) and providing auxiliary services shall be determined in the Agreements on providing audit services and may not depend on the results of the audit.

Issuer's auditor selection procedure:

Every year the Company engages a qualified auditor having no material relationships with the Company and its shareholders to carry out audit and confirm authenticity of the Company's annual financial accounts.

The Auditor performs audit of the Company's financial and economic activity in accordance with the legislation of the Russian Federation on a contractual basis.

Board of Directors proposes an auditor for election. The auditor is to be approved by the Annual General Shareholders' Meeting. Terms of the Contract with the Auditor including size of compensation (fee) are to be approved by the Company Board of Directors.

Audit of economic and financial activity of the company shall be performed at any time at the request of shareholders owning in the aggregate 10 (ten) or more percent of the legal capital. The shareholders initiating an audit shall submit a written request to the Board of Directors including reason of the request, names of the shareholders, number and type of shares owned by them, signature of the shareholder or his proxy. Market capitalization is calculated by the method for determining the Issuer's market capitalization recommended by the Provisions №03-32/ps on information disclosure by the issuers of emissive securities approved by FCSM of Russia.

The Issuer's market capitalization is calculated as a product of the number of shares of the corresponding category (type) and the weighted average price of one share of this category (type). The weighted average price of one share is calculated on the basis of 10 largest transactions

concluded at the trading session in the RTS Stock Exchange in the month preceding the expiry date of the last reporting quarter, or in the last month of each complete financial year for which the Issuer's market capitalization is specified. If less than 10 transactions are concluded during the specified month, the average weighted price of one share shall be calculated on the basis of 10 largest transactions concluded at the trading session in the RTS Stock Exchange during the specified month and two preceding ones. If less than 10 transactions are concluded during the abovementioned three months, the average weighted price of one share shall not be calculated.

No such agreements.

2.4. Goals of the Issue and Areas of Using the Funds Received as a Result of placement the Issued Securities

Goals of the issue: *diversification of the credit portfolio, bond issue is the most cost-effective way to attract borrowed funds.*

Areas of Using the Funds Received as a Result of placement the Issued Securities: *it is planned that the funds obtained from placement of the Company's bonds will be used for financing the current activities by replenishment of current assets, development of existing telecommunications facilities and acquisition of new ones, modernization of telecom equipment, increase of its digitization level and development of new telecom services.*

No funds were borrowed for financing a specific transaction (interrelated transactions) or any other operation.

The Issuer is not a state or municipal unitary company.

Payback of expenses based on forecast financial flows for the entire period of the bonds' circulation.

As no funds are borrowed for a specific transaction or any other specific operation, then the expenses at the cost of bond placement are estimated in the structure of general costs of the Issuer for day-to-day operation. That is why, payback of expenses made at the cost of bond placement agrees with payback of general costs of the Issuer for day-to-day operation.

During 2004 – 2009 earnings from day-to-day activities is expected to constantly exceed the running expenses (including coupon payments and retirement of bonds). Thus, indices of day-to-day activity payback calculated as ratio of the amount of earnings to total amount of running expenses will be from 101,04 to 101,46%.

The specified values are declarations about "forecasts of future results". Due to the effects of the risks and uncertainties described hereinafter the actual results could be significantly different from the forecasts stated in this part of the quarterly report.

Such risks include the possibility that the economic and financial environment of the Issuer may change affecting its development prospects. There are also risks related to possible change of political and economic situation in Russia, change of the Russian legislation, change of the current or future regulation of the Russia telecommunications sector as well as risks associated with competition and other factors.

2.5. Risks Related to Acquisition of the Placed Issued Securities (to be Placed)

2.5.1. Sector risks

The level of a competition in the Russian market of telecommunication services steadily grows. In spite of the fact that the market of fixed telephone services is shared among 7 inter-regional consolidated telecom operators, each of them being an absolute monopolist in the sphere of traditional services, we observe strengthening of competition with alternative operators in the sphere of providing new telecom services and services of long-distance telephony. There is a risk of reduction in revenues from long-distance telephony as a result of termination of the traffic of alternative operators via IP-channels by the telecom operators connected to "UTK" PJSC. Market position of fixed telephony is weakening due to growth of the cellular market. According to 2004 preliminary results share of cellular services in total revenues of regional telecom market has made

50.5%. One of the major factors of uncertainty still remains a tariff reform, character and terms of which are not clear.

Deterioration of situation in the sector and the market position of the Company can be also caused by growth of competition in the Russian cellular market among Russian and foreign telecom operators, expansion of operators of competitive standards in the cellular market. We consider this risk to be the most essential of sector risks in the long term, but the existing situation in the high growth telecom market allows to estimate the given risk as minimal in the short and long terms.

"UTK" PJSC acts as a telecommunications operator, the Issuer does not export any products, works or services. In this connection we describe changes only for domestic market.

As a whole, sector risks influence on activity of the Issuer is estimated as minimal because due to consolidation "UTK" PJSC has an opportunity to use common infrastructure and technique of the Southern federal district, that allows to provide customers with maximum range of telecom services, and develop inter-regional communication networks for reduction in the cost price and increase in profitability of services.

In case of unfavorable development of the situation in the region and in the national economy, the Issuer plans:

- **To optimize structure of production costs.**
- **To reconsider the Company's investment program;**
- **To correct the Company's price and marketing policy,**
- **To change the structure of provided services in order to maximize the profit.**

"UTK" PJSC acts as a telecommunications operator, the Issuer does not export any products, works or services. In this connection we describe risks connected to possible change of prices for raw materials and services used by the Issuer only for domestic market.

Though sector risks are unlikely to occur, the specified risks may result in decrease of the Issuer's revenues that will have an adverse effect on its paying capacity.

One of the important development trends of the telecommunications sector within the next few years is radical improvement of a tariff policy used by telecommunications companies by means of bringing regulated tariffs to the level of economically justified costs, minimization of cross-subsidies of telecom services. In particular, within the framework of reform of pricing of telecom services, local tariffs are to be increased and cross-subsidy of local telephony at the expense of long-distance services is to be eliminated. Work on improvement of tariff policy is carried out by holding of Svyazinvest together with Ministry of information technologies and communications of the Russian Federation and Federal Antimonopoly Service.

2.5.2. National and regional risks

Main factors of national risks are the following:

- **imperfection of the legislation regulating economic relations;**
- **inefficiency of judicial system;**
- **instability of the authorities in the subjects of the Russian Federation.**

Economic situation in the Southern Federal district may become worse in case of material changes in the economic situation in Russia, including drastic changes of national currency exchange rate that may result in reduction of the number of industry and agricultural enterprises of all forms of ownership operating in the district, growth of unemployment, decrease in the solvent demand of population. Such succession of events would result in suspension of the Issuer's investment program, decrease in volume of telecommunications services provided by the Issuer in the territory of the Southern federal district, and slowdown of revenues growth rate.

Political and economic situation in the country can be estimated as stable in the medium-term period. Results of the elections to the State Duma and the presidential elections in Russia held on March 14, 2004 allow to predict with confidence that economic, legal and other reforms in the country will be continued that will result in increase in political and economic stability. In connection therewith we can speak about the essential downtrend of national risks. Their effect on the Issuer's economic operations can be recognized immaterial in the intermediate-term prospect.

Among the factors of regional investment risk for SFD, sociopolitical risks owing to presence of the potential centers of development of conflicts in boundary territories of Northern Caucasian Republics and affinity of the Chechen republic are of the greatest importance. The basic risks are connected with the possibility of nationalization of the private capitals at sharp change of a political policy or their destruction in case of armed conflict. However, the basic part of the territory of the Southern federal district is occupied by the subjects of the Russian Federation with quite favorable conditions for development of business and with a level of regional risk being not lower than average values in the country. It is important to note that "UTK" PJSC does not operate in the territory of the Chechen and Ingush republics which sociopolitical instability considerably worsens an integrated risk parameter of SFD.

At present process of creation of vertically and horizontally integrated holdings, reorganization of the companies continues in the district that in the future may lead to increase of efficiency of business sector of the district, and thus to growth of investments into economy of SFD. In opinion of the Issuer, an economic situation in the region and relations with administrations of the subjects of the Federation and municipalities are developing positively that affects favorably the activity of the company and execution of its obligations.

The territory of the Northern - Caucasian district is characterized by high natural and climatic risks connected with geographical features of the region. At the same time "Southern Telecommunications Company" PJSC has many years' experience of successful liquidation of consequences of acts of nature related to technical means and telecom infrastructure. "UTK" PJSC closely cooperates with federal and regional bodies of the Ministry of Emergency Measures of Russia and in case emergency gets essential state support. "UTK" PJSC carries out regularly preventive actions with a view of prevention and minimization of influence of unfavorable climatic conditions on efficiency of the Company's economic activities.

In case of any deterioration of the situation in the district, the Issuer will fulfill its obligations under securities at the expense of its operating profit and, if necessary, it will attract commercial bank credits for that purpose.

On the basis of the abovementioned facts we can make a conclusion about the low level of regional risks.

2.5.3. Financial risks

Risks associated with change of interest rates, exchange rate of foreign currencies (in connection with the Issuer's operations or hedging carried out to reduce adverse results of the above-stated risks):

The situation in the credit market is characterized by stable interest rates having an insignificant downtrend that allows to speak about the insignificant risks connected with change of interest rates.

Rates of refinancing of the Central Bank of the Russian Federation being reduced, the Issuer undertakes measures on change of conditions of the current credit contracts and agreements relating to reduction of cost of credits, as well as on advanced repayment of costly credits.

Changes of the currency exchange rate may increase the expenses and reduce the reserves of the Issuer or hamper repayment of its debts.

Influence of the change of the exchange rate on the financial condition of the Issuer (its liquidity, sources of financing, performance results) (currency risks):

During the year there has been a tendency of the growth of the exchange rate of the rouble as compared to the US dollar within the limits of the established currency corridor. The Central Bank of RF has imposed various restrictions on trading operations involving foreign currency, trying to support the rouble exchange rate and carried out periodically currency interventions. The capability of the Government and of the Central Bank of RF to support a stable rouble exchange rate depends on many political and economic factors. These factors include the capability of funding the budget deficit without resorting to issuing banknotes, control of the inflation level and maintaining sufficient foreign currency reserves to support the rouble exchange rate.

A certain part of expenses and liabilities of the Issuer is nominated in US dollar, Euro and Japanese yen (0.57%, 18.5 % and 0.12% accordingly as of 31.12.2004). Thus, devaluation of the

rouble relative to the main world currencies may have an adverse effect on the Issuer by increasing expenses in roubles. The issuer will not be able to eliminate this risk by tying its tariff rates to the US dollar/Euro exchange rate because at an existing level of a competition it will lead to reduction of proceeds in dollar calculation. Therefore the risk remains that rate of growth of tariffs will lag behind rates of falling of a rouble exchange rate. In case of a decrease of the rouble exchange rate ahead of the increase of the rates for services, the Issuer may experience difficulties in payment or re-financing of a debt in foreign currency in case of sharp devaluation of rouble of the Russian Federation in relation to US dollar and euro. Efforts of the Government of the Russian Federation to support a high rate of national currency as well as high prices of energy resources in the last year stimulated a growth of a rouble exchange rate as compared to the US dollar within the limits of the established currency corridor. The Issuer believes that this tendency is rather stable. In this connection the risk of change of the rouble exchange rate can be deemed insignificant in the intermediate-term prospect.

In addition, the Issuer takes measures on decrease of the share of a debt in foreign currency in structure of a credit portfolio.

During the last years the inflation rate in Russia has been decreasing. In 2000 the inflation rate was 20.2 %, in 2001-18.6%, in 2002 – 15.1 %, in 2003 – 12 %, in 2004 – 11.5 % (preliminary results). 2005 federal budget of the Russian Federation approved by the State Duma on 04 December 2004 stipulates for further decrease in the inflation rate (7,5 - 8,5 %), that allows to draw a conclusion on a low level of inflation risks.

In case of inflation growth, the issuer is planning to pay special attention to acceleration of the circulating assets turnover, for the first hand, at the expense of the reduction of the accounts receivable as well as to revise the existing contractual relations with the customers for the purpose of reducing the accounts receivable.

According to the Issuer, due to annual tariff growth, inflation levels with which "UTK" PJSC may have difficulties in fulfilling its obligations to bond holders are much higher than the inflation level planned in the Russia's federal budget for the years 2004 -2009.

Indicators of the financial reporting of the Issuer most subject to financial risks:

In the Issuer's opinion, main financial indicators of the Issuer - profit and cost price of services - are most subject to influence of the financial risks listed herein. Financial risks have a minimum effect on revenues. Probability of financial risks listed herein (sudden change of exchange rates, inflation, growth of interest rates) is estimated by the Issuer as low for the nearest years. Nevertheless, should such risks occur, cost price of services provided and reduction of profit are possible and it can be compensated by tariff growth and decrease in volume of borrowed funds.

Risks influencing the financial indicators of the Issuer	Probability of their occurrence	Changes in financial reports
Change of interest rates	Low	Change of interest rates can influence the Issuer's policy on debt management
Change of the exchange rate	Low	Changes of the currency exchange rate may increase the expenses and reduce the reserves of the Issuer or hamper repayment of its debts.
Inflation	Low	Inflation may result in increase of expenses of the Company (because of the increased prices of fixed assets, materials, works and services of external organizations)) and, as a consequence, in a drop in profits of the Issuer and, respectively, in the profitability of its business. Besides, growth of inflation will lead to an increase in the borrowed funds value for

Risks influencing the financial indicators of the Issuer	Probability of their occurrence	Changes in financial reports
		the Issuer, which may result in shortage of the Company's working capital.

2.5.4. Legal risks

"UTK" PJSC acts as a telecommunications operator, the Issuer does not export any products, works or services. In this connection we describe legal risks only for domestic market.

As a whole risks associated with the Issuer's activity are typical for most part of companies operating in the territory of the Russian Federation and can be considered as country risks.

Risks of change of currency exchange regulations:

Risks connected to change of currency exchange regulation are minimal in the Issuer's opinion. Risks connected to the change of the currency exchange legislation are being reduced due to the current policy on liberalization of currency exchange regulation .

Risks of change of tax legislation:

1. Article 1 of Federal law № 139-FZ of 11.11.2003 "On making addition in the second part of the Tax code of the Russian Federation and making amendments and additions in Article 20 of the Law of the Russian Federation "On Tax structure in the Russian Federation", as well as on declaring invalid legal acts of the Russian Federation regarding taxes and dues" has become effective since January, 1 2004. Item 30 "Property Tax of organizations" has been added to chapter IX of the second part of the Tax Code of the Russian Federation.

2. Article 27 of the second Part of the Tax Code of the Russian Federation (purchase tax) has become ineffective since January 1, 2004 – Federal Law № 148-FZ of 27.11.2001.

3. Since Customs Code of the Russian Federation had come into force from January 1, 2004, corresponding amendments were introduced in Parts I and II of the Tax Code of the Russian Federation as well as into Federal Law № 120-FZ of 21.11.1996 "On Accounting (article 438 of Federal law № 61-FZ of 28.05.2003).

4. Pursuant to the Decree of the Government of the Russian Federation № 84 of 16.02.2004, amendments were introduced into the Rules of book-keeping of invoices, books of records of purchases and sales when calculating value-added tax, approved by the Decision of the Government of the Russian Federation № 914 of 02.12.2000.

In case of observance and correct application of norms of the above-stated legal acts the Issuer has no risks related to its activity.

As no special taxation procedures are applicable to the operations of "UTK" PJSC, and the Issuer has no overdue debts under taxes and fees to be paid to budgets of all levels, tax risks of the Issuer should be considered as minimal within the framework of activity of a diligent tax-payer.

Risks associated with change of customs laws and duties:

1. New Customs Code of the Russian Federation has come into force from January 1, 2004 approved by Federal Law № 61-FZ of 28.05.2003 .

Customs Code of the Russian Federation approved by Supreme Soviet of the Russian Federation № 5221-1 of 18.06.93 remains in force regarding items 6, 8 of Article 110, Articles 114, 116 as well as Article 119 (regarding customs duties) which will remain effective till December 31, 2004.

2. Normative legal acts of the State Customs Committee of Russia, issued with a view of realization of the new Customs code of the Russian Federation were listed in the letter of the State Customs Committee of the Russian Federation № 14-10/7236 of 27.02.2004 "On coming into force, including in I quarter of 2004, of normative legal acts of the State Customs Committee of Russia issued with a view of realization of the Customs code of the Russian Federation". It is also noted that prior to coming into force of normative legal acts of the State Customs Committee of Russia issued with a view of realization of new edition of the Customs code of the Russian Federation,

normative and other legal acts of the State Customs Committee of Russia, issued before 31.12.2003 remain valid in the part not contradicting new edition of the Customs code of the Russian Federation.

Joint Regulations of the State Customs Committee of Russia and the Central Bank of Russia № 01-100/1/243-P of 22.12.2003 "On application of the Regulations of the Bank of Russia and the State Customs Committee of Russia № 86-I and № 01-23/26541 of 13.10.1999 "On currency control over revenues from export of goods received by the Russian Federation" and the Regulations of the Bank of Russia and the State Customs Committee of Russia № 91-I and № 01-11/28644 of 04.10.2000 "On the procedure of the currency control over validity of payment by residents of the imported goods " effective since 15.02.2004 are specified among the statutory acts that have come into force.

As the most part of acquired telecommunications equipment is imported or made of component parts of foreign manufacture, change of the customs Rules and customs duties can result in certain risks for the Issuer associated with rise in prices of acquired fixed assets.

New Customs code has reduced the risks associated with the procedures of customs registration and customs supervision. The new code is based on the provisions of the new edition of Kyoto treaty on simplification and harmonization of customs procedures, it eliminates contradictions and discrepancies of the provisions of the previous Customs code with civil, tax and administrative legislations.

Risks associated with change of licensing terms:

New Federal Law "On Telecommunications" has come into force since January 1, 2004. According to the Law the list of licensing services and lists of licensing terms are formed and annually adjusted by the Government of the Russian Federation. The new Law enlarges the list of documents to be submitted to the licensing authority for obtaining of a license.

List of documents to be submitted for prolongation of a license is the same as for its obtaining.

According to the Decree of the President of the Russian Federation № 314 of March, 9 2004 and the Decree of the Government of the Russian Federation № 163 of 06.04.2004 licensing of activity in the field of telecommunications will be carried out by the Federal Service on Supervision in the sphere of telecommunications.

The given changes may cause additional expenditures of a licensee operating in the sphere of telecommunications.

Risks of licensing of rights for use of objects having limited circulation (including natural resources):

At present such risks are considered minimal.

Risks of changes in judiciary practices on the matters relating to the Issuer's activity (including on licensing matters) which can have an adverse effect on its performance results as well as the results of the current litigations in which the Issuer is a participant:

Changes in court practices on the matters relating to the Issuer's activity are possible due to coming into force of the new law "On Telecommunications". Such changes in court practices are possible in favor of both the Issuer and its opponents. There is also a risk of occurrence of new kinds of litigations. As a whole the new law is aimed at elimination of existing deficiencies and, in the Issuer's opinion, it will decrease a total number of court trials.

Changes in court practices on the matters relating to the Issuer's activity cannot affect essentially its performance results, as well as the results of the current lawsuits of the Issuer with the third parties as the current lawsuits have no adverse effect on the Issuer's core activity (volume of claims against the Issuer under the existing lawsuits is insignificant in proportion to its total turnover).

At present main legal risks are associated with uncertainties in legal regulation of separate kinds of services and conditions of economic activities in the telecommunications sector after coming into force since January 01, 2004 of Federal law № 126-FZ "On Telecommunications". More than 30 statutory acts regulating various operations in the sphere of rendering telecom services should be developed and accepted in connection with the new Law. But till now such statutory acts are under development stage, and the existing by-laws do not fully correspond to the requirements of the new law.

2.5.5. Risks connected to the Issuer's activity

Company-specific risks, including:

Risks related to the current litigations in which the Issuer is a participant:

As of 31.12.2004 the Issuer does not participate in litigations which may affect essentially the results of its financial and economic activity.

Risks concerning a possibility of prolongation of the Issuer licenses:

Terms of obtaining new licenses by telecom operators and prolongation of the existing ones are determined by the federal executive authority which functions are now exercised by the Ministry of information technologies and communications of the Russian Federation. The Ministry of information technologies and communications of the Russian Federation is entitled to determine a way of licensing of certain kinds of services and certain regions of the Russian Federation on a competitive basis or according to the research results of the application of a telecom operator. Pursuant to the Decree of the President of the Russian Federation № 314 of March 9, 2004 and the Decree of the Government of the Russian Federation № 163 of 06.04.2004 licensing of activity in the sphere of telecommunications will be executed by the Federal Service on supervision in the sphere of telecommunications. Validity of UTK licenses expires during 2004 - 2012 and can be prolonged after submission of the application to the Federal Service on supervision in the sphere of telecommunications. The Issuer has no guarantees that after expiry of the term of action the licenses will be prolonged and there will be no changes in the conditions of the prolonged licenses connected to increase in charges and, probably, restriction of a zone of operation. If the Issuer will not be able to prolong the working licenses or receive the updated licenses on comparable conditions, it will be forced to reduce range of provided services that will entail decrease in number of subscribers. At the same time, validity of licenses for the right of rendering telecom services having the main share in structure of the company's revenues, makes from 4 to 9 years, that essentially reduces the risk of uncertainty on prolongation of licenses in the intermediate term prospect.

Risks concerning a possibility of prolongation of the Issuer's licenses for use of objects having limited circulation (including natural resources):

At present such risks are considered as minimal.

Risks associated with the possible responsibility of the Issuer relating to obligations of the third parties, including affiliated companies of the Issuer:

Total amount of obligations of the third parties secured by the Issuer, including in the form of a pledge or a guarantee, stands at 3,573,364.732.19 roubles as of 31 December, 2004.

Risks associated with high level of short-term liabilities:

As of December 31, 2004 total amount of short-term debts of the Issuer exceeded total value of its working capital by 10,058, 619 thousand rubles.

Great portion of short-term obligations of the Issuer is caused by two bonded loans in their structure on which offers are stipulated within a year.

It is possible that a part of the Issuer's short-term debts will not be repaid in due time, if a situation arises when the Issuer is unable to refinance a part of its short-term financial obligations. In unfavorable circumstances the Issuer will reduce its investment program and allocate funds to execution of its obligations.

This information is to be provided on the basis of the Company's accounting reports as of 31 December 2004 to be presented within 90 days after the end of the year.

3.2.5 Issuer's Products (Works, Services) Sales Markets

General information on the Issuers sales markets:

Territory of the Southern federal district of the Russian Federation (except for Chechen Republic, Ingushetia and Dagestan).

Consumers of Issuer's products, on whom at least 10% of the total receipts from Issuer's sales fall:

There are no such consumers.

Possible adverse factors that may affect the sales of the Issuer's products are:

- *rapid development of cellular services; their share in 2004 total volume of regional revenues of telecommunications sector (according to the preliminary results) stood at 50.5%.*
- *keen competition among Internet providers.*
- *expected increase of competitive activity in the sphere of new technologies and value-added services taking into account high level of potential competitiveness (757 issued licenses).*

Actions of the Company's management in case of occurrence of adverse factors:

The Company's management regularly exercises monitoring and control over the most important indices of the Company's business efficiency in the sphere of economic, financial, technical and marketing policies to make forecasts and quickly respond for occurrence and/or strengthening the influence of various negative factors. Strategic and medium-term plans of the Company's development are being worked out in the context of pessimistic estimations thus providing additional safety factor in case of crisis situations. Yearly the Company corrects the forecasts of economic development and marketing strategy on the basis of performance results for the last reporting period and analysis of the changes of the conditions of the Company's activity.

3.2.6 Practice of activities in respect of circulating capital and inventories

PJSC "UTK" follows the policy of material reserves' reduction by using normative coefficients of TMC reserves in the branches' budgets.

To make the analysis of turnover of reserves they estimate quarterly the factors showing the efficiency of reserves' usage and material expenditures' formation.

For practical usage the branches make quarterly detailed analysis of their financial activity including turnover ratios.

The inventories turnover ratio can be calculated only on the basis of the Company's accounting reports as of 31 December 2004 to be presented within 90 days after the end of the year:

- 88% - long-distance telephone services
- 44% - value-added services
- 75% – other services

According to preliminary 2004 performance results UTK market share was 43%.

Results of marketing analysis carried out in 2004 in "UTK" PJSC licensed area revealed essential dissatisfied demand for value-added services: VPN (data transmission), ISDN, dedicated lines, broad band access, IP-telephony, access to Internet. In this connection "Southern Telecommunications Company" PJSC states the following priority tasks in this market segment:

- *Introducing new technologies and services meeting the market development tendencies and customers' real requirements*
- *Making value-added services more competitive*
- *Developing integrated data networks (multi-service networks) in the Southern Federal District*
- *Introduction of pre-paid universal service cards throughout the licensed territory of "UTK" PJSC.*
- *Technical realization of intra-regional service roaming.*
- *Provision of services "in packet".*

Priority services of the Issuer are the following:

- **“Packet” services**
- **IP-telephony**
- **VPN**
- **Call-center services**
- **ISDN services**
- **Wi-Fi access to Internet**
- **multi service networks (including digital cable TV).**

One of the priorities in the service sphere is introduction and further development of pre-paid service cards including universal cards, development of “self-service” system, as well as development of the content to be accessed by subscribers through various information access channels (Internet, E-mail, SMS, WAP, IVR, operators of the Contact-center).

The Issuers sales markets:

b) Communication networks

Physical communications networks used by the Issuer for provision of telecom services:

Operating digital, quasi-electronic, cross-bar and step-by-step (2.0%) telephone exchanges, "UTK" PJSC uses inter-zonal and local communication networks to render telecom services. As at 1 January, 2005 installed capacity of urban telephone network reached 3,104.3 ths lines including 2,026.1 ths digital lines and 1, 078.2 analog lines. Thus, digitization level of urban TN constituted 65.3%.

Installed capacity of rural telephone network reached 987.9 ths lines including 404.9 ths digital lines and 583.0 ths analog lines. Thus, digitization level of rural TN constituted 41.0 %.

Total installed capacity of urban and rural telephone networks reached 4,092.2 ths lines with digitization level of 59.4 %.

"UTK" PJSC operates 12 automatic long-distance telephone exchanges with equipped capacity level being 86.72% including 87.43% - in zonal networks. Trunks are derived using analog and digital equipment of data transmission including SDH digital equipment. Linear signals are transmitted via copper and fiber-optic cables as well as via radio channels of radio-relay systems. Length of long-distance telephone channels for the reported period stood at 14,699.9 thousand ch/km including 12,560.1 ths of those formed using digital transmission systems. Length of intra-zonal communication lines made up 17,403.2 km, including 7,102.38 km of fiber-optic communication lines and 2,204.3 km of radio-relay lines.

Characteristics of leased channels:

"UTK" PJSC leases both digital and analog channels and trunk lines from other operators. The following typical digital links and channels are being leased: primary digital link (PDL) with transfer rate of 2048 Kb/s, main digital links (MDL) with transfer rate of 64 Kb/s, digital channels with transfer rate of nx64 Kb/s. Analog telephone voice-frequency channels (v f of 0.3-3.4 κGz), primary and secondary analog links are leased.

The Issuer leases channels and links from:

"Rostelecom" OJSC, "Transtelecom" CJSC, "KubanGSM" CJSC, "Volgograd - GSM".

Terms of lease contracts:

Terms of lease is usually 1 year with the next prolongation. Less links and channels are leased for the term of from several days to several months.

3.4 Plans of Issuer's Future Operation

"Southern Telecommunications Company" PJSC expects to generate 2004 total revenue of RUR 16,660.0 mln which is up 23.4% compared with 2003. Revenues from core activity (sale of telecom services) are to be increased by 22.9% reaching RUR 16 254.0 mln including local telephony – RUR 6,460.0 mln (a 20.5 %-increase), long-distance telephony – RUR 7,514.7 mln (+10.4 %), value-added services – RUR 926 mln (+69.6%).

One of the main directions of "UTK" PJSC business activity in order to increase revenues, raise the Company's business efficiency and strengthen its financial position is the increase in number of basic telephone sets. "UTK" PJSC is actively developing its communication network and increasing its number capacity. In 2004 the considerable revenue growth from traditional services will result from putting into service the planned capacity of 580 800 lines and increase in number of basic telephones by 336 000 sets. Total installed capacity is expected to reach 4, 098.4 thousand lines at the end of 2004.

When planning revenue structure the Company gives preference to growth of value-added services' share. Telecom market of the Southern Federal District is characterized by low level of penetration of value-added services (intelligent services, broadband access, etc) which tariffs are not regulated by government. "UTK" PJSC main task for 2004 is to strengthen its position in the market of perspective and profitable services and to increase VAS share in total revenue structure in order to raise the Company's general level of profitability.

Implementation of 2004 investment plan will allow to increase the digitization level to 58.2%.

The Company's development plans are supported by 2004 plan of capital expenditures which provide for RUR 12,566.4 mln of capital investments (up 12.4% over 2003) and about RUR 12,000 mln of basic assets to be put into operation.

Medium-term strategic directions of "UTK" PJSC development:

- *meeting the solvent demand for key telecom services by increase of equipped number capacity, introduction of the system of time-based (per-minute) billing of local telephone call;*
- *creation of integrated accounting and service centers;*
- *development of public Internet-access center, connection of regional data transmission networks to Internet;*
- *introduction of intelligent services;*
- *improvement of corporate client service, formation of optimal package of services for corporate clients;*
- *formation of departments for work with vip-clients, equipping public communication centers with conferencing equipment, selling services to corporate users, active target advertising.*

Long-term strategic directions of "UTK" PJSC development:

- *creation of up-to-date telecommunication system including imposed digital telecommunication network equipped with digital automatic switching exchanges, digital transmission systems, fiber-optic communication lines (FOLs);*
- *introduction of new technologies: ISDN, IP-telephony, ATM, xDSL;*
- *integration of communication and management infrastructures with international informational and switching systems;*
- *improvement of the provided services;*
- *optimization of the provided services' list , aiming at increasing proportion of the most progressive services. It will require corresponding reorientation of resources;*
- *maximization of the Company's profitability;*
- *optimal tariff policy taking into consideration interests of the Company and its shareholders;*
- *pressing marketing policy;*
- *hard control of expenditures' volume;*
- *improvement of corporate management*

"UTK" PJSC does not plan to change type of its key activity – rendering telecom services according to the licenses in force and the Company Charter.

Sources of future revenues:

The main sources of future revenues are rendering telecommunications services (providing value-added services, growth of the volume of international traffic).

Analysis of the change of the size and structure of the Issuer's working capital (with indication of the amount of such changes of factors of availability of the Issuer's capital and circulating assets (in the opinion of the Issuer's governing bodies)):

In 3Q04 the Issuer's circulating assets increased by 11.02 % as compared to 2Q04.

The main portion in the working capital structure constitutes inventories, value-added tax, short-term accounts receivable. As of 30.09.2004 inventories stood at 24.42 % of the total amount of the working capital, VAT – 40.33 %, short-term receivables – 28.8 %.

The third quarter of 2004 saw the following changes in the circulating assets structure as compared to 2Q04: inventories increased by 4.52 %, VAT rose by 24.27 %, long-term debts decreased by 0.91%, short-term debts decreased by 4.09 %, short-term financial investments increased by 1.47 times, monetary funds increased by 47.21 %.

The Issuer's policy on financing the Issuer's working capital:

The Issuer tries to minimize the current accounts payable which makes it possible to ensure smaller liquidity risk and greater total efficiency. Such strategy requires usage of long-term liabilities and own capital for financing most part of working capital.

Factors that may result in changing the policy of financing the circulating assets

- **actions aimed at reduction of accounts receivable, decrease of the stock level, acceleration of the circulating assets turnover;**
- **growth of market prices of working stock and other kinds of inventories;**
- **financial risks associated with the change of interest rates caused by possible alteration of refinancing rates of the Central Bank of the Russian Federation;**

- **change of prices on services provided by the Issuer.**

Probability of such factors' occurrence:

- **the Issuer's policy on assets management regarding receivables and stock is aimed at reduction of their level and turnover period. Possibility of negative influence of the given factor on financing the working capital is estimated as low;**
- **cost of bank credits and the rate of refinancing of the Central Bank of the Russian Federation have a downward tendency. Possibility of adverse effect of the given factor on financing the working capital is estimated as low;**
- **prices of inventories used by the Issuer in its business activity are not liable to the sudden ups and downs of the market. Possibility of adverse effect of the given factor on financing the working capital is estimated as low;**
- **the Issuer's marketing strategy is aimed at broadening its activity in the market sectors with non-regulated prices and tariffs. Possibility of adverse effect of the given factor on financing the working capital is estimated as low.**

4.5. Analysis of the Development Trends in the Sector of the Issuer's Principal Activity

During many years telecom sector of Russia has a growing tendency of industrial and economic activity. It demonstrates increase of solvent demand for telecom services and growth of volume of the provided telecom services. Investment activity of the telecom sector is increasing against the background of economic growth in all telecom market segments.

In 1H03 process of reorganization of Svyazinvest holding structure completed and resulted in creation of seven interregional telecom companies which could be compared with East-European operators of fixed communications. Completion of the legal procedure of reorganization of Svyazinvest subsidiaries has become an initial phase of reforming telecom sector. At present corporate restructuring of the consolidated telecoms is being carried out.

The basic tendencies in telecommunications sector within the next few years will be the following:

- *Transition to time-based billing system for local outgoing calls;*
- *fundamental improvement of tariff policy;*
- *Increase of a technical level of public telephone systems.*

One of the strategic directions of telecom sector development in the nearest future is radical improvement of tariff policy of the telecom companies. The key points here are to bring telecom tariffs to the level of economically justified costs and to minimize cross subsidizing of various telecom services. This improvement implies growth of local telephony tariffs to put an end to its subsidizing by long-distance and international telephony. "Svyazinvest" PJSC works out new tariff policy together with Ministry of Telecommunications and Informatics of the Russian Federation and Federal Anti-Monopoly Service of the Russian Federation.

Heavy capital investments will be continued to extend and modernize public telephone and data transmission networks of the united telecom companies in the Federal Districts aimed at liquidation of waiting lists for installation of telephone sets and increase of level of network digitization.

Main factors of the Issuer's tariff income growth in medium-term outlook will be the following:

- *Growth of local tariffs;*
- *Increase of long-distance traffic per line due to improvement of the residents' standard of living and growth of revenues from business sector;*
- *Considerable increase in number of communication lines in operation and as a result growth of telephone density in the country;*
- *Growth of revenues from value-added telecom services especially from providing Internet access, because this market segment is characterized by low satiety level.*

Development of the Issuer's business corresponds to the general development tendencies of the telecommunications sector.

Grounds for the received activity results (satisfactory and unsatisfactory results in the opinion of the Issuer):

Telecommunications sector development corresponds to common positive trends in the Russia economy. The sector has been developing dynamically during the last several years: new technologies and new services have appeared, solvent demand for telecom services has increased. The Issuer's activity is aimed at providing full range of telecom services to wide circle of customers.

Factors and terms having effect on the Issuer's activity and its performance results:

The main risk factors of the Issuer's activity:

1) The most recent version of the federal law "On Telecommunications" came into effect on 1 January 2004. It determines the authority that various branches of the government exercise over the regulation of the telecommunications sector. The law can increase a degree of regulation of the Issuer's business. Till the moment of approval of the corresponding normative acts, the period of contradictions and uncertainties relating to different interpretation of the Law by regulating authorities is inevitable.

Pursuant to the new Law the Company is obliged to establish equal status of connection of communication networks and pass-through of traffic for telecom operators providing similar services and to render to these operators services on connection and pass-through of traffic on the same conditions and of the same quality as for its own structural divisions and affiliated persons.

In addition, according to the new Law "On Telecommunications" a subscriber (natural person) has the right to choose form of payment for local telephone calls: monthly subscriber fee or time-based billing system of payment.

The management cannot predict effect of the new Law on the Company activity.

2) Running processes of integration of alternative telecoms in large holdings.

Forecast concerning duration of the specified factors and conditions:

It is difficult to predict the duration of the main adverse factors because it is impossible to determine

the period of validity of the main law regulating activity in telecommunications sector. Integration process of alternative operators is very dynamic and it will be continued for several more years.

Actions undertaken by the Issuer and actions which the Issuer plans to undertake in the future for effective usage of the given factors and conditions:

The Issuer is going to make advantage of its main competitive strengths.

Essential events / factors which can have a negative effect on the opportunity of the Issuer to receive similar or better future results than those received in the last accounting period:

In future the main negative effect is expected from strengthening of competition especially with mobile operators.

Probability of occurrence of such events (factors):

Probability of the situation that mobile operators will be strong competitors is very high, since they are actively building up their presence in all regional markets.

Essential events / factors which can improve the Company's performance results:

General economic growth in Russia and increase of the telecommunications sector share in Gross National Product have a positive effect on the Company's activities.

Opinions of the Issuer's governing bodies concerning the mentioned factors and-or level of their effect on financial and economic activities of the Issuer are similar.

None of the members of the Board of Directors or collective executive body (Management Board) of the Issuer has special opinion on the mentioned factors and-or level of their effect on financial and economic activities of the Issuer.

5.4. Data on the Structure and Terms of Reference of the Bodies of Control over Financial and Economic Operation of the Issuer

Description of the structure and terms of reference of the bodies of control over financial and economic operation of the Issuer in accordance with its Charter.

To exercise control over financial and economic operation, the Company creates an Auditing Commission, a special structural division exercising the internal control functions, and engages an external auditor.

The Auditing Commission is an independent control body of the Company, elected at the annual general meeting of the shareholders for a period till the next annual general meeting of the shareholders, with 5 members.

Powers of several or all members of the Auditing Commission may be terminated before the appointed time by General Shareholders' Meeting.

Should the powers of the members of the Auditing Commission be terminated before the appointed time, terms of reference of the new membership of the Auditing Commission shall be continued till the next annual General Shareholders' Meeting.

Should the actual number of the members of the Auditing Commission become less than half of the elected number, Board of Directors shall be obliged to call an extraordinary General Shareholders' Meeting for election of the members of the Auditing Commission. The remaining members of the Auditing Commission shall exercise their functions for a period till election of the new members of the Auditing Commission at the next extraordinary General Shareholders' Meeting.

The terms of reference of the Auditing Commission include:

- **checking the reliability of the data contained in the reports and other financial documents of the Company;**
- **revealing any facts of violation of the procedure for book-keeping and submission of financial reports, established by the legal acts of the Russian Federation;**

Russia national scale rating of PJSC "Southern Telecommunications Company" was decreased from "ruBBB" to "ruBBB-".

Full and abbreviated registered names, location of organization that assigned the credit rating:
Company " Standard & Poor's International Services Inc. " (Standard & Poor's)

Location: **9th floor, 11, Gogolevskiy bulvar, Moscow, 121019.**

Brief description of the method of assigning the credit rating:

Issuer's credit rating according to Standard & Poor's international scales expresses the current opinion on general credit capacity of the Issuer of bonds, underwriter or guarantee, business partner, its ability and intention to service its debt in full and in due time.

Standard & Poor's assigns ratings on the basis of transparent methodology taking into consideration quantitative and qualitative factors, financial risks and business risks only if there is sufficient information.

Depending on categories of issuers and type of rating, there are different methods of Standard & Poor's rating assignment. Thus, in the case of companies, the characteristics of the business (market, position in competition, management and strategy) are analyzed, as well as the financial profile (financial policy, profitability, capital structure, cash flow indices, financial flexibility).

Standard & Poor's Russian national credit rating scale serves issuers, insurers, counterparties, intermediaries and investors in the Russian financial market by providing both Debt Credit Ratings which apply to a specific debt instrument, and Enterprise Credit Ratings which apply to an obligor (i.e., borrower, guarantor, insurer, or other provider of credit enhancement). The Russian national credit rating scale uses Standard & Poor's global rating symbols with the addition of "ru" prefix to denote "Russia" and the scale's focus on Russian financial markets. The criteria employed for determining ratings on the Standard & Poor's Russian National Scale are broadly similar to those employed on the Standard & Poor's Global Scale.

However, certain direct sovereign risk considerations weigh less heavily on the Standard & Poor's Russian National Scale than on the global scale. For example, some types of sovereign risk considerations that can adversely affect all Russian obligors equally are not considered within the bounds of Standard & Poor's National Scale. Indeed, sovereign risk is examined only in a local context relative to the credit risk of other Russian obligors. As a result, the Standard & Poor's Russian National Scale is not directly comparable to Standard & Poor's global scale or to any other national rating scale.

Other information about the credit rating specified at the Issuer's own discretion:

The rating action of 02.04.2003 reflects the net benefits of the merger of Southern Telecom with nine other fixed-line incumbents in the southern region of Russia that are controlled by the state-owned holding Svyazinvest. The merger has resulted in a stronger competitive position and improved business profile for the company. The outlook is stable. The new company--which had approximately 3x greater revenues of about \$331 million in 2002 --should benefit from its larger scale by receiving better terms from vendors of telecoms equipment. The merger will also give it a

stronger market position that is less vulnerable to weaknesses in a particular area or customer segment, and make it easier to access capital markets.

Offsetting these gains to some extent is the fact that the enlarged service area has marginally less attractive average market characteristics and will require integration work and additional investments to reconcile and improve network characteristics to a more uniform level across the whole area. It is expected that Southern Telecom will continue with its structural reorganization, management improvement, and network modernization, and that it will execute its business plan without materially weakening its financial profile and ability to service its debt obligations.

A manageable increase in debt is already factored into the rating on Southern Telecom. The rating assumes, however, that operating cash flow will be sufficient to service debt in the short-term and that the company can return to free operating cash flow generation in the medium term as network investments are completed.

On August 6, 2003 Standard & Poor's assigned its "ruBBB" Russia national scale rating to "Southern Telecommunications Company" PJSC. At the same time Standard & Poor's assigned its "ruBBB" Russia national scale rating to "UTK" PJSC proposed Russian ruble 1.5 billion senior unsecured bond issue due 2006. The proceeds from the bond issue will be used to finance RUR 5 billion capital expenditure program in 2003 which will further upgrade the company's outdated network and expand its network capacity.

The ratings continue to be supported by "UTK" PJSC dominant market share as the main provider of essential telecoms services in the southern region of the Russian Federation and progress in enabling the provision of a wider range of higher-quality services. Standard & Poor's expects "UTK" PJSC to increase its debt to a manageable level without materially weakening its financial profile and ability to service its debt obligations.

On 10.02.2004 Standard and Poor's changed the outlook of UTK ratings from "Stable" to "Negative" that reflected expectations of the rapid growth of a negative operating cash flow and debt obligations in 2003.

At the same time Standard and Poor's confirmed its "B-" long-term credit rating of "UTK" PJSC according to international scale, but decreased Russia national scale credit ratings of the Company and its senior unsecured bond issues from "ruBBB" to "ruBBB-".

Credit analyst of Standard and Poor's Pavel Kochanov noted: "Increase in a negative free operating cash flow and debt obligations has exceeded initial expectations of Standard and Poor's; similar changes in financial position of "UTK" PJSC can be continued in 2004".

The aggressive investment policy is aimed at essential increase in revenues from traditional telecommunications services and new non-regulated telecommunications services, however Standard and Poor's believes, that impact of capital investments on revenue growth and profitability of the Company in the next several years are uncertain at the given stage. Demand for new telecommunications services due to which the Company expects to increase proceeds, and also revenue growth from extension of the subscriber base can appear not so optimistic.

As of 30 September 2003 (according to RAS) total debt of the Company made 8.44 billion roubles. Standard and Poor's assumes, that the size of the debt could increase up to 12 billion roubles, and total debt to EBITDA ratio as of 31 December 2003 could exceed 2.5 times.

"The aggressive financial policy will probably continue to result in debt growth and significant negative free operating cash flow in the immediate future, - Pavel Kochanov added. - Ability of the Company to increase revenues and profitability by means of the intensive investment program while maintaining satisfactory liquidity level will be the key factor for the Company's rating within one year".

6) Credit rating as at the expiry date of the quarter under report:

Long-term national- scale credit rating of Baa3 (rus).

Short-term Russia- scale credit rating of RUS-3.

assignment (change):

Date of assignment (change)	Credit rating
12.04.2004	Interfax Rating Agency in association with Moody's Investors Service assigned a long-term national- scale credit rating of Baa3 (rus) and short-term rating of RUS-3 to "Southern Telecommunications Company" PJSC.

Full registered name of organization that assigned the credit rating: *private Joint –Stock Company "Interfax Rating Agency"*

Abbreviated registered name: *CJSC "RA Interfax"*

Location: *building 1, 2, 1-st Tverskaya-Yamskaya Str., Moscow, 127006*

Brief description of the method of assigning the credit rating:

Issuer's credit rating expresses the current opinion on its ability and intention to service its debt in full and in due time.

Interfax rating agency (IRA) assigns credit ratings to the Russian companies according to national scale of the agency. Credit rating of IRA is an instrument allowing local investors to differentiate credit risks of various Russian borrowers as well as their obligations. Such borrowers and obligations can turn out to be indistinguishable when using international ratings which takes into consideration country risks. IRA national scale credit ratings do not take into account some country risks, in particular, risk of introduction of governmental restrictions on transfer of foreign currency abroad, as well as other system-defined risks relating equally to all borrowers in Russia.

Quantitative analysis plays an important role when assigning credit rating to a company, however assignment of a credit rating is not reduced to application of some universal formula including a number of quantity indicators. IRA pays special attention to qualitative analysis of existing and future credit risks to which companies and their obligations are subject. Experts of IRA make their final opinion on a company's credit status on the basis of the qualitative analysis of risk factors and possible changes in the environment of the company's activity which may result in the company's default on its obligations. Great attention is paid to comparison of the company being under rating procedure with other companies of the sector and-or special group of companies. The main object of the analysis is the company's ability to generate cash flow sufficient for financing urgent investments, dividend payments and debt service.

When assigning a credit rating, experts of IRA usually rely on the information about the activity of a company being under rating procedure including on its financial accounts for the last 3-5 years as well as use corresponding forecasts both of a company's specialists and of its own.

The basic aspects of the analysis of companies' credit status are the following:

- sector risks,*
- political and regulatory risks,*
- market position of the company and its business efficiency,*
- management quality,*
- ownership structure,*
- financial risk.*

Other data on the credit rating specified by the Issuer at its own discretion:

Credit ratings have been assigned in association with international rating agency Moody's Investors Service.

The rating reflects UTK's strong position on the telecommunications market of the Southern Federal District; the company's strengthening position on the fast-growing and lucrative segment of the market for new communications services; improved technical condition of networks; and opportunity to receive support from the state. The rating is constrained by government tariff regulation, aggressive investment policy, growing competition from alternative telecoms providers.

b) Credit rating as at the expiry date of the quarter under report:

Full registered name of organization that assigned the credit rating: **Moody’s Investor Services Ltd.**

Abbreviated registered name: **Moody’s**

Location: **2 Minster Court, Mincing Lane, London, EC3R 7XB, UK**

Brief description of the method of assigning the credit rating:

Rating methodology consists in expressing the opinion of the rating agency whether an issuer is able to pay its debts in due time and revealing the stable cash flow to debt ratio. Rating methodology includes the following main criteria:

- **State support (participation of the state in the Company). The principle is to analyze a degree of participation of the state in the Company. Companies which are completely privatized as well as state corporations are not supported;**
- **Degree of the state regulation of the market. The principle partly follows from the previous one – influence of the state regulation can not correspond with the conditions of the market economy;**
- **Competitive Environment. The principle is to estimate the potential of theregional market;**
- **Management potential. The principle is to estimate the ability of the management to make correct decisions in the conditions of the market dynamics (market adaptation);**
- **Management strategy. The principle – the strategy should reflect viability of the approved plans of the Company, taking into account every possible risks;**
- **Diversification strategy. The principle is to reveal the signs of the business diversification;**
- **Financial management. The principle is to control the conformity of made (planned) capital investments with the amount of attracted funds;**
- **Financial showing. The principle – the higher the indicators providing duly debt services (debt + interest), the better. Regular costs control and outstripping growth of revenues over expenses.**
- **Stock market strategy. The principle is the ability of the Company to generate its own sources of circulating assets (as the factor of the liquidity growth).**

The Company’s credit rating is determined on the basis of analysis and combination of the given principles.

Abbreviated registered name: **CJSC "RA Interfax"**

Location: **building 1, 2, 1-st Tverskaya-Yamskaya Str., Moscow, 127006**

Brief description of the method of assigning the credit rating:

Credit rating of a bonded issue or type of the company's bonded issues expresses the current opinion on its credit status relating to such bonded issue/type of bonded issues.

Interfax rating agency (IRA) assigns credit ratings to the Russian companies according to national scale of the agency. Credit rating of IRA is an instrument allowing local investors to differentiate credit risks of various Russian borrowers as well as their obligations. Such borrowers and obligations can turn out to be indistinguishable when using international ratings which takes into consideration country risks. IRA national scale credit ratings do not take into account some country risks, in particular, risk of introduction of governmental restrictions on transfer of foreign currency abroad, as well as other system-defined risks relating equally to all borrowers in Russia.

Credit rating of a separate obligation (bonded issue) cannot coincide with the company's credit rating because it must take into account the issue's structure, degree of security of the rights of the creditor under the obligation, credit status of underwriters of the bonded issue. If the bond issue is

objectively secure enough, that is, provides for certain forms of risks reduction such as, for example, reliable security, then credit rating of the obligation can be higher than the rating of the borrower.

Quantitative analysis plays an important role when assigning credit rating to a company, however assignment of a credit rating is not reduced to application of some universal formula including a number of quantity indicators. IRA pays special attention to qualitative analysis of existing and future credit risks to which companies and their obligations are subject. Experts of IRA make their final opinion on a company's credit status on the basis of the qualitative analysis of risk factors and possible changes in the environment of the company's activity which may result in the company's default on its obligations. Great attention is paid to comparison of the company being under rating procedure with other companies of the sector and-or special group of companies. The main object of the analysis is the company's ability to generate cash flow sufficient for financing urgent investments, dividend payments and debt service.

When assigning a credit rating, experts of IRA usually rely on the information about the activity of a company being under rating procedure including on its financial accounts for the last 3-5 years as well as use corresponding forecasts both of a company's specialists and of its own.

The basic aspects of the analysis of companies' credit status are the following:

- *sector risks,*
- *political and regulatory risks,*
- *market position of the company and its business efficiency,*
- *management quality,*
- *ownership structure,*
- *financial risk.*

Other data on the credit rating specified by the Issuer at its own discretion:

Credit ratings have been assigned in association with international rating agency Moody's Investors Service.

The rating reflects UTK's strong position on the telecommunications market of the Southern Federal District; the company's strengthening position on the fast-growing and lucrative segment of the market for new communications services; improved technical condition of networks; and opportunity to receive support from the state. The rating is constrained by government tariff regulation, aggressive investment policy, growing competition from alternative telecoms providers.

Brief description of the method of assigning the credit rating:

Rating methodology consists in expressing the opinion of the rating agency whether an issuer is able to pay its debts in due time and revealing the stable cash flow to debt ratio. Rating methodology includes the following main criteria:

- **State support (participation of the state in the Company). The principle is to analyze a degree of participation of the state in the Company. Companies which are completely privatized as well as state corporations are not supported;**
- **Degree of the state regulation of the market. The principle partly follows from the previous one – influence of the state regulation can not correspond with the conditions of the market economy;**
- **Competitive Environment. The principle is to estimate the potential of the regional market;**
- **Management potential. The principle is to estimate the ability of the management to make correct decisions in the conditions of the market dynamics (market adaptation);**
- **Management strategy. The principle – the strategy should reflect viability of the approved plans of the Company, taking into account every possible risks;**
- **Diversification strategy. The principle is to reveal the signs of the business diversification;**
- **Financial management. The principle is to control the conformity of made (planned) capital investments with the amount of attracted funds;**
- **Financial showing. The principle – the higher the indicators providing duly debt services (debt + interest), the better. Regular costs control and outstripping growth of revenues over expenses.**
- **Stock market strategy. The principle is the ability of the Company to generate its own sources of circulating assets (as the factor of the liquidity growth).**

The Company's credit rating is determined on the basis of analysis and combination of the given principles.

A Bond Owner, if it/he/she is not a depositor of the Depository may authorize a Bond holder to receive amounts from the Bond yield (coupon) payment and Bond redemption.

It is presumed that a bond holder who is a depositor of the Depository is authorized to receive amounts from the Bond yield (coupon) payment and Bond redemption.

Not later than four working days prior to the date of the Bond yield (coupon) payment and/or Bond redemption, a bond holder being a depositor of the Depository and/or other parties who are not authorized by their clients to receive amounts from the Bond yield (coupon) payment and Bond redemption provides the Depository with the List of Bond Owners, containing all essential elements necessary for Making up the List of Bond Holders and Bond Owners , as set forth below.

Repayment of Bonds is made for the benefit of owners of the Bonds being those as of the end of working hours of the Depository, previous to the fifth business day before the maturity date (further under the text - " Date of making up a list of owners and Holders of Bonds with a view of their redemption).

Execution of obligations in relation to the Bond owner being those at the date of making up a list of owners and Holders of Bonds with a view of redemption, declares appropriate including in case of alienation of Bonds after Date of making up a list of owners and Holders of Bonds with a view of redemption.

Not later than 2 (two) working days prior to the Maturity Date the Depository provides the Issuer with the list of owners and Holders of the Bonds, made on Date of making up the list of owners and Holders of Bonds with a view of the bond redemption including the following data:

a) A full name of the person, authorized to receive the redemption sums under Bonds.

If Bonds are transferred by the owner to the Holder and the Holder is authorized to receive the sums of repayment under Bonds, the full name of the Holder shall be specified. If Bonds have not been transferred to the Holder and-or the Holder is not authorized by the owner to get the sums of repayment under Bonds, the full name of the owner of Bonds (First name, middle initial, last name

the owner - for the physical person) shall be specified:

b) Number of the Bonds on the account of depot of the owner or inter-deposit account of depot of the Holder of Bonds, authorized to receive the sums of repayment under Bonds;

c) Location and postal address of the person, authorized to receive the sums of repayment under Bonds;

d) The name and essential elements of the bank account of the person, authorized to receive the sums of repayment under Bonds, namely:

- Number of the account;

- The name of bank in which the account is open;

- The correspondent account of bank in which the account is open;

- Bank identification code (BIK) of bank in which the account is open;

e) Tax-payer's Identification number (TIN) of the person, authorized to receive the sums of repayment under Bonds;

f) The tax status of the person authorized to receive the sums of repayment under Bonds (resident, non-resident with permanent representative office in the Russian Federation, non-resident without permanent representative office in the Russian Federation, etc.).

A Bond Holder independently monitors the completeness and actuality of the data provided by it to the Depositary (the information necessary for execution of obligations under Bonds). Should the said data fail to be submitted, or fail to be submitted in due time to the Depositary, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of the Depositary's data. In this case obligations of the Issuer are considered executed in full and properly.

Not later than 1 (one) working day before the Maturity Date, the Issuer transfers the appropriate money to the Payment Agent's account.

At repayment of Bonds the coupon income is paid for last coupon period also.

On the basis of the list of Bond Owners and Holders, provided by the Depositary, the Payment Agent calculates the amounts of money to be paid to each Bond Owner and Holders authorized to receive Bond redemption amounts.

As at the date of Bonds redemption the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of redemption under Bonds, specified in the list of the Bond Holders and Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner. The Bond holders who are not owners of Bonds, transfer money received as Bond redemption payment to the Bond owners according to the procedure determined between the Holder of Bonds and the owner of Bonds.

Obligations of the Issuer on Bonds redemption are considered executed after charge-off of money from the correspondent account of the bank serving the Issuer and-or the correspondent account of the bank / credit organization of the Payment agent in return for face-value of Bonds and the coupon income for the last coupon period in favour of owners and Holders of Bonds.

Bonds are being charged off the accounts of depot in the Depositary at repayment of all Bonds after execution by the Issuer and/or Payment Agent of the obligations on transferring amounts required to fulfill the payment commitments on Bonds redemption and payment of the coupon income for the last coupon period.

The Certificate is to be cancelled after all Bonds are written off the accounts of depot of the Depositary.

Coupon period		Coupon income
Starting date	Expiry date	

1st Coupon: Annual interest rate on the first coupon is to be fixed during the auction held in the MICEX Stock market section among the potential buyers of the Bonds on the starting day of the bond placement (12.3%).

On the date of the Auction the members of the Stock Market Section of MICEX (hereinafter referred to as the Section Members) shall submit target orders for the Bond acquisition with T0 code through the trading system of MICEX in compliance with the Securities Trading Rules of MICEX and other regulatory documents of MICEX both at their own expense and at the expense and on behalf of their client. Time and procedure for submission of orders for participation in the auction on determination of the first coupon interest rate are defined by the Moscow Interbank Currency Stock Exchange as agreed with the Issuer and-or the Underwriter. The members of the Stock Market Section of MICEX shall submit orders for the Bond acquisition to the Underwriter.

Each order shall include the interest rate under the first coupon at which potential buyers are ready to acquire the number of Bonds specified in the order. Interest rate on the first coupon specified in the order shall be expressed as annual interest rate to the 100-th share of percent.

By the beginning of the Auction the members of the Stock Market Section of MICEX participating in the Auction shall have to reserve money resource, sufficient for full payment of the Bonds specified in the orders for purchase including MICEX commission fee.

The orders which do not conform with the above mentioned conditions are not allowed to take part in the Auction.

After the period of submission of the orders for the Auction expires, members of the Stock Market Section of MICEX cannot withdraw the submitted orders.

After the period of submission of the orders for the Auction expires, MICEX shall make a joint register of the submitted orders for the Issuer and/or Underwriter.

The joint register of the submitted orders shall include all terms specified in each order, namely: the price of acquisition, number of securities, date and time of the order's reception as well as the name of the Member of the Section who submitted the order. The joint register of the submitted orders shall be approved by the Financial Consultant in the equity market.

Individual executive body of the Issuer shall make decision on the size of the annual interest rate under the first coupon on the basis of total number of the submitted orders and the interest rates on the first coupon indicated in them. The Issuer shall inform the MICEX about such decision in written form not later than 30 minutes prior to its sending to a news agency. After sending notification on the size of the interest rate under the first coupon to a news agency the Issuer informs the Underwriter about the size of the interest rate under the first coupon. The Underwriter informs all members of the MICEX Stock Market Section about the size of the interest rate under the first coupon fixed by the Issuer using MICEX Trading system by means of e-mail to all members of the MICEX Stock Market Section.

The information on the interest rate under the first coupon shall be disclosed in terms and order stipulated in item 11 of the Decision on the bond issue and item 2.9 of the Emissive Prospectus of the securities.

Procedure of Coupon Yield payment:

Payment of the coupon yield on the Bonds is effected by a payment agent upon instructions and at the expense of the Issuer. Payment of the Bond yield is effected in the currency of the Russian Federation in the non-cash order for the benefit of owners of Bonds. It is presumed that a nominal bond holder who is a depositor of NDC is

authorized to receive amounts from the Bond yield (coupon) payment.

Bond Owners, their authorized persons including depositors of NDC independently control the completeness and actuality of the data provided by them to the Depository and bear all the risks related to non-provision/untimely provision of such information. Should the said data fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. The Issuer fulfils the obligations under the Bonds on the basis of the NDC's data. In such a case obligations of the Issuer are considered executed in full and properly. If the essential elements of bank account and other information necessary for execution by the Issuer of its obligations under Bonds, provided by a Bond owner or Bond Holder or available in the Depository, do not allow the Payment agent to transfer money resources in due time such delay cannot be considered as a delay of execution of obligations under Bonds, and a Bond owner has no right to claim extra interest or any other compensation for such delay in payment. In cases stipulated by the Agreement with NDC the Issuer is entitled to demand confirmation of such data by information from the Register.

Coupon income payment is made for the benefit of owners of the Bonds being those as of the end of working hours of NDC, previous to the seventh business day before the date of the coupon payment. Obligations on coupon income payment are executed by the Issuer on the basis of the List of owners and/or nominal Holders of Bonds presented by NDC.

Not later than 6 (six) working days prior to the date of coupon income payment NDC depositor who is not authorized by the clients to receive amounts from coupon income on the Bonds shall provide NDC with the List of the Bond owners including all the essential elements mentioned below in the List of the Bond Owners and/or Nominal Holders.

If the Bond Owners who authorized a nominal holder to receive amounts from the Bond redemption are non-residents and-or physical persons, the nominal holder is obliged to specify the following information about such persons in the list of Bond Owners:

- full name/first name, middle initial, last name the owner of Bonds;
- number of the Bonds owned;
- full name of the person, authorized to receive the redemption sums under Bonds;
- location (or place of registration – for individual persons) and postal address of the Bond Owner including postal code;
- essential elements of the bank account of the person, authorized to receive the sums of repayment under Bonds;
- Tax-payer's Identification number (TIN) of the Bond Owner;
- tax status of the Bond Owner.

If a Bond Owner is a juridical person – non-resident:

- personal identification number (IIN) – if any.

If a Bond Owner is a natural person:

- kind, number, date and place of issue of the identity document of a Bond Owner, name of the authority issuing the identity card;
- number of the certificate of the state retirement insurance of the Bond Owner (if any);
- Tax-payer's Identification number (TIN) of the Bond Owner (if any);
- date, month and year of birth of the Bond Owner.

Execution of obligations in relation to the Bond owner being those at the date of making up a list of owners and nominal Holders of Bonds declares appropriate including in case of alienation of Bonds after Date of making up a list of owners and nominal Holders of Bonds.

If the rights of an owner to Bonds are transferred to a nominal holder and a nominal holder is authorized to receive amounts from the Bond redemption, then a person authorized to receive amounts from the Bond redemption is understood as a nominal holder.

If the rights of an owner to Bonds are not transferred to a nominal holder or a nominal holder is not authorized by a Bond owner to receive amounts from the Bond redemption, then a person

authorized to receive amounts from the Bond redemption is understood as a Bond owner.

Not later than 4 (four) working days prior to the date of coupon income payment NDC provides the Issuer and the Payment agent with the List of owners and nominal Holders of the Bonds, made on the Date of making up the list of owners and nominal Holders of Bonds including the following data:

- a) A full name of the person, authorized to receive the coupon income sums under Bonds.
- b) Number of the Bonds on the account of depot of the owner or inter-deposit account of depot of the nominal Holder of Bonds, authorized to receive the sums of coupon income under Bonds;
- c) Location and postal address of the person, authorized to receive the sums of coupon income under Bonds;
- d) Essential elements of the bank account of the person, authorized to receive the sums of coupon income under Bonds, namely:
 - Number of the account;
 - The name of the bank in which the account is open;
 - The correspondent account of the bank in which the account is open;
 - Bank identification code (BIK) and Tax-payer's Identification number (TIN) of the bank in which the account is open;
- e) Tax-payer's Identification number (TIN) of the person, authorized to receive the sums of coupon income under Bonds;
- f) The tax status of the person authorized to receive the sums of coupon income under Bonds.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, the Issuer bears no responsibility for untimely or undue execution of obligations on coupon income payment on Bonds. It is the Owner of Bonds who takes the risks of damages in case of untimely or incomplete submission of the above mentioned data.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of the NDC's data.

On the basis of the list of Bond Owners and nominal Holders, provided by NDC, the Payment Agent calculates the amounts of money to be paid to each person authorized to receive Bond coupon income amounts.

Not later than 3 (three) working day before the date of coupon income payment under Bonds, the Issuer transfers the appropriate money to the Payment Agent's account.

As at the date of coupon income payment the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of coupon income under Bonds for the benefit of the Bond Owners.

If one person is authorized to receive Bond coupon income amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

8.5. Conditions of Ensuring Fulfillment of Commitments under the Bonds of the Issue

1) **Conditions of ensuring fulfillment of commitments under series 01 non-convertible interest-bearing certificated pay-to-bearer bonds with mandatory centralized custody**

Kind of security: *underwriting.*

Volume of security that the Underwriter provides for Bond owners in case of default by the Issuer of the payment commitments on Bonds (payout of par value, coupon income payment, other property rights granted by the bonds):

Maximum sum - the size of obligations of the Underwriter under the given security, shall not exceed 1500000000 (one and a half billion) roubles.

Underwriting is an unconditional and irrevocable commitment of the Underwriter to each owner of Bonds to pay the sum equal to par value of Bonds, to be paid by the Issuer according to the Decision on Bond Issue and the Prospectus of Bonds (hereinafter referred to as - terms of Bond Issue) to any owner of Bonds, for any reason, in time, currency and at the date, stipulated by terms of Bond Issue within the limits of the Maximum sum.

Acquisition of Bonds means the conclusion of contract of the guarantee among the purchaser of Bonds (further – Bond owners) and the Underwriter. Rights under the specified contract of guarantee shall be transferred to a purchaser together with other rights on Bonds in the same volume and on the same conditions which exist at the moment of transferring such rights.

The Underwriter and the Issuer carry joint liability before Bond owners under obligations to pay par value of the Bonds arising in connection with Bond issue and placement.

Procedure of making claims by Bond owners to the Underwriter

Under condition of reception of the notice from the owner of Bonds about non-fulfillment of payment by the Issuer the Underwriter undertakes to provide (without any demand to the owner of Bonds to take measures concerning the Issuer or any other person) fulfillment of such payment as though the Underwriter has been specified instead of the Issuer as the basic person who has accepted the terms of Bond issue so that the Owner of Bonds would receive the same sum of the same currency as he should receive if this payment would be made by the Issuer according to terms of Bond issue, within no more than 70 (seventy) days after the date of such payment, but as a whole not later than 10 (ten) days after receiving the notice from the owner of Bonds.

The notice should be made in writing and sent to the Underwriter by registered mail or handed the authorized representative of the Underwriter on receipt.

The notice may be directed to the Underwriter during 60 (sixty) days from the moment of non-fulfillment of payment by the Issuer to the postal address of Joint-Stock Company " Management company "BFA": 212, Moskovskiy pr., Saint Petersburg, 196066 Russia

The following documents should be enclosed to the notice:

- **A copy of an extract from the account of depot (inter-deposit account) of the Depository of the owner of Bonds in the Depository as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of Bonds;**
- **A copy of an extract from the account of depot of the owner of Bonds as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of the Bonds, certified by the Depository of the owner of Bonds in case the account of Bonds is carried out in the Depository of the owner of Bonds having inter-deposit account in the Depository;**
- **The documents confirming powers of persons who have signed the claim on behalf of the owner of Bonds (in case of presentation of the claim by the authorized persons of the owner of Bonds);**
- **Notarized samples of signatures of the persons who have signed the claim on behalf of the owner of Bonds.**

The notice should include amount of money to be paid to the owner of Bonds under the underwriting as well as description of the breach of the Issuer's obligations secured by the Underwriter.

Claim to the Underwriter can be made by a person – depositor of the Depository which keeps the bonds(hereinafter referred to as - "Bond Holder") for the benefit of Bond owners being depositors of such Bond Holder. In this case, Bond Holder should confirm its powers in the claim applications on behalf of owners of Bonds.

The notice should contain payment essential elements and other data of the person making the claim (the name for the legal person or a surname, name and patronymic for the physical person, the address of his site (residence), TIN, for physical persons - passport data, for legal persons - codes OKPO and OKVED (OKONKh), for bank establishments - BIK), necessary for transferring money to the owner of Bonds. The claim on payment of cash shall not be satisfied.

Within 10 (ten) days from the date of receiving the above-stated documents, the Underwriter shall carry out their check and in case they meet the requirements of the present Guarantee, fulfill payment of the sum due to the owner of Bonds, according to the payment essential elements specified in the claim. Obligations of the Underwriter are considered executed from the moment of charge-off of the corresponding sum from the account of the Underwriter for the benefit of the owner of Bonds.

If the Notice or the enclosed documents do not meet the requirements of the present Guarantee, the Underwriter is obliged to send notification on the reasons of refusal to satisfy the claim of the Bond owner to the owner of Bonds not later than 5 (five) working days from the moment of receiving the requirement.

8.8. Description of the Taxation Procedure for Income under Issuer's Placed Securities

Taxation of income of legal persons under the placed securities received in the form of dividends according to the current legislation

	Categories of owners of securities	
	Legal persons – tax residents of the Russian Federation	Foreign legal persons – non-residents gaining income from the sources in the Russian Federation
Form of income under placed securities	Dividends	
Kind of the tax on income under securities	Tax on income	
Tax rates	6 %	15 %
Procedure and terms of tax payment	Dividends are subject to a tax deducted from the source of income payment and transferred to the federal budget by the fiscal agent within 10 days from the date of income payment.	The tax amount deducted from the foreign organizations is transferred by the tax agent to the federal budget together with payment of the income either in currency of payment of this income or in currency of the Russian Federation at the official rate of the Central bank of the Russian Federation as at the date of tax payment.
Peculiarities of taxation of the given category of owners of securities	The total tax amount is determined as product of the tax rate of 6 percent from differences between the sum of the dividends to be distributed among shareholders-residents in the current tax period and the sum of the dividends received by the fiscal agent himself in the current accounting (tax) period. In case the received difference is negative, the duty on tax payment does not arise and compensation from the budget is not made. The tax amount to be deducted from taxable income of the tax payer - recipient of dividends, is calculated on the basis of the total tax amount and share of each tax payers in the total sum of dividends.	Double taxation agreements The rules of double taxation agreements. If a foreign company is entitled to avoid tax under a double tax agreement, it should provide documentary evidence in advance to any fiscal agent from which it receives dividends to confirm that it is a tax resident of a state with which the Russian Federation has a double taxation agreement. This confirmation must be certified by the tax authority of that state. If such confirmation was not filed prior to the date of income tax payment, the tax agent is obliged to deduct the tax from the income of foreign company. In accordance with item 2 of article 312 of the RF Tax Code the income recipient is entitled to claim the tax back from the Russian tax authority within three years from the end of taxation period in which he received this income. Foreign company – income recipient needs to fill out and present all
