#### Report of Independent Auditors

To the Board of Directors and Shareholders of JSC Gazprom Neft:

We have reviewed the accompanying interim condensed consolidated balance sheet of JSC Gazprom Neft and its subsidiaries as of March 31, 2008, and the related interim condensed consolidated statements of income, of changes in shareholders' equity and of cash flows for the three-month period ended March 31, 2008. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards generally accepted in the United States of America. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 2007, and the related consolidated statements of income, of changes in shareholders' equity, and of cash flows for the year then ended (not presented herein), and in our report dated May 14, 2008 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying interim condensed consolidated balance sheet as of March 31, 2008, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

#### 1. General

### Description of Business

JSC Gazprom Neft (formerly OAO Siberian Oil Company) and its subsidiaries (the "Company") is a vertically integrated oil company operating in the Russian Federation. The Company's principle activities include the exploration, production and development of oil and gas fields, the production of refined petroleum products and distribution and marketing operations through its retail outlets. Export trade is conducted through a wholly owned subsidiary Gazprom Neft Trading GmbH, which operates as a trader for the Company's export sales.

OAO Siberian Oil Company ("Sibneft") was created by Presidential Decree Number 872 dated August 24, 1995. On September 29, 1995 Sibneft's charter was approved when the Government of the Russian Federation issued Resolution Number 972. The Omsk Registration Chamber officially registered Sibneft on October 6, 1995. In October 2005 JSC Gazprom completed its acquisition of a 75.68% stake in Sibneft, becoming a subsidiary of JSC Gazprom. On May 30, 2006 Sibneft was renamed into "JSC Gazprom Neft".

#### Basis of Presentation

The Company maintains its books and records in accordance with accounting and taxation principles and practices mandated by the Russian legislation. The accompanying interim condensed consolidated financial statements were derived from the Company's Russian statutory books and records with adjustments and reclassifications made to present them in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The Company uses the US Dollar as its reporting currency.

The interim condensed consolidated financial statements are unaudited and have been prepared in accordance with US GAAP for interim financial reporting of public companies (primarily Accounting Principles Board Opinion 28 ("APB 28") "Interim Financial Reporting") and do not include all disclosures necessary required by US GAAP. The Company omitted disclosures which would substantially duplicate the disclosures contained in its 2007 audited consolidated financial statements, such as accounting policies and details of accounts which have not changed significantly in amount or composition. Management believes that the disclosures are adequate to make the information presented not misleading if these interim condensed consolidated financial statements are read in conjunction with the Company's 2007 audited consolidated financial statements and the notes related thereto. In the opinion of the Company's management, the unaudited interim condensed consolidated financial statements and notes thereto reflect all known adjustments of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows for the interim periods.

The results for the three-month period ended March 31, 2008 are not necessarily indicative of the results expected for the full year.

## **Management Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheet as well as the revenues and expenses during the reporting periods. Certain significant estimates and assumptions for the Company include: recoverability and useful lives of long-term assets and investments; allowances for doubtful accounts receivable; asset retirement obligations; legal and tax contingencies; depreciation, depletion and amortization; environmental remediation obligations; oil reserves; recognition and disclosure of guarantees and other commitments. While management uses its best estimates and judgments, actual results could differ from those estimates and assumptions used.

#### Foreign Currency Translation

The management of the Company has determined the US Dollar is the functional and reporting currency of the Company as the majority of its revenues, costs, property and equipment purchased, debt and trade liabilities are either priced, incurred, payable or otherwise measured in US Dollars. Monetary assets and liabilities have been translated into US Dollars at the exchange rate as of the balance sheet date. Non-monetary assets and liabilities have been translated at historical rates. Revenues, expenses and cash flows are translated into US Dollars at average rates for the period or exchange rates prevailing on the transactions dates where practicable. Gains and losses resulting from the re-measurement into US Dollars are included in the interim condensed consolidated statement of income.

The official rates of exchange of the Ruble to the US Dollar as of March 31, 2008 and December 31, 2007 were 23.52 Rubles and 24.55 Rubles per US \$1.00, respectively.

The translation of local currency denominated assets and liabilities into US Dollars for the purpose of these interim condensed consolidated financial statements does not indicate that the Company could realize or settle, in US Dollars, the reported values of these assets and liabilities. Likewise, it does not indicate that the Company could return or distribute the reported US Dollar value of capital to its shareholders.

#### **Income Taxes**

The Company follows the provisions of APB 28 to arrive at the effective tax rate. The effective tax rate is based on the best estimate of the expected annual tax rate to be applied to the taxable income for the current reporting period. The rate is based on the currently enacted tax rate of 24% and includes estimates for the annual tax effect of permanent differences and realization of deferred tax assets.

#### Recently Accounting Standards

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which establishes a formal framework for measuring fair values of assets and liabilities in financial statements that are already required by US GAAP to be measured at fair value. SFAS No. 157 clarifies guidance in FASB Concepts Statement (CON) No. 7 which discusses present value techniques in measuring fair value. Additional disclosures are also required for transactions measured at fair value. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. In February 2008, the FASB issued FASB Staff Position (FSP) No. FAS 157-2, "Effective Date of FASB Statement No. 157," which granted a one year deferral (to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years) for certain non-financial assets and liabilities to comply with SFAS No. 157. The Company will adopt the provisions of FAS No. 157 covered under FSP No. 157-2 on January 1, 2009. Additionally, in February 2008, the FASB issued FSP No. FAS 157-1, "Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13," which amends SFAS No. 157 to exclude SFAS No. 13 and related pronouncements that address fair value measurements for purposes of lease classification and measurement. FSP No. FAS 157-1 is effective upon the initial adoption of SFAS No. 157. The Company adopted SFAS No. 157 and the related FSPs discussed above effective January 1, 2008 which did not have an impact on its financial position or results of operations for the three-month period ended March 31, 2008.

SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115," became effective on January 1, 2008 and permits companies to choose, at specified dates, to measure certain eligible financial instruments at fair value. The provisions of SFAS No. 159 apply only to entities that elect to use the fair value option and to all entities with available-for-sale and trading securities. At the effective date, companies may elect the fair value option for eligible items that exist at that date, and the effect of the first remeasurement to fair value must be reported as a cumulative-effect adjustment to the opening balance of retained earnings. Since the Company has not elected to adopt the fair value option for eligible items, SFAS No. 159 has not had an impact on its financial position or results of operations.

## 2. Cash and Cash Equivalents

Cash and cash equivalents as of March 31, 2008 and December 31, 2007 comprise the following (in US\$ thousands):

|  | 2008 |         | 2008 20 |         |
|--|------|---------|---------|---------|
|  |      |         |         |         |

The Company's investment in JSC Slavneft and various minority stakes in Slavneft' subsidiaries ("Slavneft") are held through a series of off-shore entities and an investment trust. During 2005, the Company and TNK-BP agreed to jointly manage the refineries of the Slavneft group with each party purchasing its share of production. For the three-month periods ended March 31, 2008 and 2007, Slavneft paid dividends to the Company of US\$ 6.4 million and US\$ 11.3 million, respectively.

In December 2007 the Company acquired a 50% equity interest in JSC Tomskneft VNK ("Tomskneft") and its subsidiaries from a subsidiary of OJSC Oil Company Rosneft ("Rosneft") for US\$ 3,567.3 million. The purchase price was based on the fair value of Tomskneft, which amounted to US\$ 3,670.0 million as determined by an independent appraiser. As part of this transaction, the Company and Rosneft agreed to jointly manage the business operations of Tomskneft and to each purchase their respective share of Tomskneft's annual production. As both the Company and Rosneft are ultimately controlled by the Russian Federation, the transaction was deemed to have occurred between entities under common control and therefore was accounted for at Rosneft's historical cost. Accordingly, the difference of US\$ 2,153.7 million between the purchase price and historical cost was charged to additional-paid-incapital and reserves in shareholders' equity for the year ended December 31, 2007.

#### 9. Commitments and Contingencies

#### <u>Taxes</u>

The tax authorities are currently reviewing the operation of the Company and its subsidiaries for the year 2005. The review is in process; the impact of the result of the tax review is not determinable, however management believes that the ultimate resolution of this matter will not have a material impact on the Company's financial position, results of operations and cash flows.

Russian tax and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant authorities. The Russian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged. The Supreme Arbitration Court issued guidance to lower courts on reviewing tax cases providing a systemic roadmap for anti-avoidance claims, and it is possible that this will significantly increase the level and frequency of tax authorities scrutiny. As a result, significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods. The years 2006 and 2007 are currently open for review.

#### **Operating Environment**

While there have been improvements in the economic situation in the Russian Federation in recent years, the country continues to display some characteristics of an emerging market. These characteristics include, but are not limited to, the existence of a currency that is not freely convertible in any countries outside of the Russian Federation, restrictive currency controls, and a level of inflation. The prospects for future economic stability in the Russian Federation are largely dependent upon the effectiveness of economic measures undertaken by the government, together with legal, regulatory, and political developments.

#### **Environmental Matters**

The enforcement of environmental regulation in the Russian Federation is evolving and the enforcement posture of government authorities is continually being reconsidered. The Company periodically evaluates its potential obligations under environmental regulation. Management is of the opinion that the Company has met the government's requirements concerning environmental matters, and therefore believes that the Company does not have any material current environmental liabilities.
