Moscow, Russia – November 27, 2014 – Sistema JSFC ("Sistema" or the "Company", together with its subsidiaries, "the Group") (LSE: SSA), the largest publicly-traded diversified holding company in Russia and the CIS, today announces its unaudited consolidated US GAAP financial results for the third quarter ended September 30, 2014.

BASHNEFT RELATED EVENTS

- On September 24, 2014, a civil claim was filed with the Arbitrazh (Commercial) Court of the City of Moscow by the First Deputy General Prosecutor seeking the return to federal ownership of all shares in Bashneft held by Sistema and Sistema-Invest.
- On November 7, 2014, the Arbitrazh (Commercial) Court of the City of Moscow issued a written decision, ruling in favour of the civil claim seeking the return of Bashneft shares to the Russian Federation. On November 12, 2014, Sistema's Board of Directors has decided not to appeal this decision and is focusing on filing claims as a buyer in good faith to recover damages from the counterparties and/or their legal successors (Ural-Invest LLC) that sold the Bashneft shares to Sistema and Sistema-Invest.
- In response to these events the Company has launched an internal review of its investment strategy, portfolio composition and corporate costs in order to optimise the Company's current and future performance.

Comparison of Sistema's US GAAP consolidated financial information as of September 30, 2014 and for the nine months then ended to the respective "proforma" financial information prepared as if Bashneft and UPC were deconsolidated starting from January 1, 2014 is presented in Attachment B.

- Sistema paid dividends on Sistema's shares of RUB 19.9 billion, representing a payment of RUB 2.06 per ordinary share in the third quarter of 2014.

Mikhail Shamolin, President and Chief Executive Officer of Sistema, commented:

"The reporting period and recent weeks have been the most challenging the Company has faced. Despite our key investments posting a steady performance with consolidated revenue increasing 5.6% to 321 billion roubles and OIBDA growing 2.2% to 83 billion roubles, our results have largely been overshadowed by the events surrounding Bashneft which have unfolded in recent months.

It is clear that this episode has a significant impact on Sistema. A substantive review of our future strategy has already commenced with internal analysis and consultations regarding our future portfolio, corporate costs and investment capacity. Whilst these discussions are still preliminary, we hope that, subject to a swift resolution of the aforementioned legal issues, a more focused holding structure will emerge allowing us to invest further in Russia".

In the third quarter of 2014, Sistema's consolidated revenues increased by 3.7% quarter-on-quarter in rouble terms and by 0.3% quarter-on-quarter in US dollar terms, reflecting strong operating performance at MTS, as well as revenue growth at Detsky mir and RTI. The Group's revenues decreased by 4.3% year-on-year in US dollar terms, but were up 5.6% year-on-year in rouble terms in the reporting period, due to continuing increase in voice and data services consumption at MTS and revenue growth at Bashneft on the back of rouble depreciation against the US dollar.

Selling, general and administrative expenses (SG&A) decreased by 7.1% year-on-year and by 3.2% quarter-on-quarter to US\$ 976.2 million in the reporting quarter, mainly as a result of rouble depreciation against the US dollar. SG&A at the Corporate Holding level decreased by 38.1% year-on-year and 12.5% quarter-on-quarter to US\$ 59.9 million in the reporting quarter. Depreciation, depletion and amortisation expenses were down 3.5% year-on-year to US\$ 767.4 million in the third quarter of 2014.

The Group's adjusted OIBDA was up 9.5% quarter-on-quarter in US dollar terms and 13.3% quarter-on-quarter in rouble terms in the third quarter, mainly as a result of positive growth trends at MTS. The average rouble to US dollar exchange rate decreased by 3.4% quarter-on-quarter and 10.3% year-on-year.

MTS

(US\$ millions)	3Q 2014	3Q 2013	Year on Year Change	2Q 2014	Quarter on Quarter
Revenues	2,959.2	3,153.6	(6.2%)	2,824.6	4.8%
Adjusted OIBDA	1,431.0	1,450.5	(1.3%)	1,246.2	14.8%

Net income attributable to Sistema	234.6	289.6	(19.0%)	319.7	(26.6%)

In the third quarter of 2014, MTS increased its revenue by 3.5% year-on-year in rouble terms, as a result of the continued rise in usage of voice and data services. This year-on-year revenue growth was, however, impacted by the devaluation of the Ukrainian hryvnia. MTS' revenues were up 8.3% quarter-on-quarter in rouble terms reflecting seasonally higher roaming revenues, subscriber base growth and increased sales of smartphones. In the reporting quarter, adjusted OIBDA increased by 8.9% year-on-year in rouble terms following revenue growth and the transfer of a 50.01% stake in Universal Mobile Systems LLC ("UMS"), a subsidiary in Uzbekistan, to MTS. At the same time, adjusted OIBDA was impacted by higher expenses related to MTS' expansion in Russia. The operator's revenues and OIBDA in US dollar terms were down year-on-year as a result of depreciation of the average rouble exchange rate vs. the US dollar.

MTS' mobile subscriber base grew by 8.1% year-on-year to 100 million⁵ customers as of September 30, 2014. Average monthly revenue per user (ARPU) of the mobile business in Russia increased by 2.8% year-on-year to RUB 358 in the third

⁴ Here and from hereon, revenues are presented on an aggregated basis, excluding revenues from intra-segment (between entities in the same segment) transactions, but before inter-segment (between entities in different segments) eliminations, unless accompanied by the word "consolidated". Amounts attributable to individual companies, where appropriate, are shown prior to both intra-segment and inter-segment eliminations and may differ from respective standalone results due to certain reclassifications and adjustments.

quarter, as a result of upselling customers to tariff plans with larger data packages and higher penetration of smartphones and tablets. Russian subscribers' average monthly minutes of usage (MOU) increased by 2.4% year-on-year to 377 minutes.

In the fixed broadband business, the number of households passed grew by 6.5% year-on-year to 12.5 million in the reporting quarter as a result of MTS' expansion in the regions. The fixed-line subscriber base decreased by 6.6% year-on-year, due to the ongoing migration of pay-TV subscribers to MTS' digital TV platform, which, in turn, led to defection of certain types of subscribers and decline in the number of telephony subscribers in Moscow. Fixed-line ARPU grew by 6.2% year-on-year in the reporting quarter as a result of customers increasingly subscribing to packaged services, subscribers switching to higher tariff plans in the regions and the migration of ADSL customers in Moscow to GPON.

In September 2014, MTS obtained a controlling stake in the Russian-Uzbek joint venture Universal Mobile Systems LLC ("UMS"). In accordance with the terms of a Settlement Agreement between MTS and the Republic of Uzbekistan, a 50.01% stake in the charter capital of UMS was transferred to MTS, while a state-owned unitary enterprise established and managed by the State Committee for Communications, Development of Information Systems and Telecommunications Technologies of the Republic of Uzbekistan will retain the remaining 49.99% stake. The assets, equipment and infrastructure, which were previously owned by Uzdunrobita FE LLC, a former subsidiary of MTS in Uzbekistan, were transferred to UMS. Operations across Uzbekistan are due to be commercially launched on December 1, 2014.

In September 2014, MTS' Extraordinary General Meeting of shareholders approved semi-annual dividends of RUB 6.20 per ordinary MTS share (RUB 12.40 per ADR), which equates to a total of RUB 12.8 billion based on the operator's first half 2014 financial and operating results. The dividends were paid in full in November, 2014.

Significant events after the end of the reporting period

In October 2014, MTS opened a non-revolving line of credit with Sberbank of Russia worth RUB 50 billion, which will mature in September 2021. The funds will be used for general corporate needs. The operator has also amended the terms of the credit agreement originally signed with Sberbank of Russia in April 2014 by extending the final maturity of the facility from July 2015 to September 2017.

Adjusted OIBDA ⁶	826.4	971.7	(14.9%)	787.6	4.9%
Operating income	674.4	331.4	103.5%	632.7	6.6%

Adjusted net income attributable to Sistema	347.2	471.0	(26.3%)	334.9	3.7%

Bashneft's revenues fell by 6.1% year-on-year and by 3.5% quarter-on-quarter in US dollar terms in the reporting period, due to lower export prices for oil and oil products. In the third quarter, adjusted OIBDA was down 14.9% year-on-year following a decline in revenues, but grew by 4.9% quarter-on-quarter in US dollar terms as a result of a decreased extraction tax rate, reduced transportation cost, lower prices for oil purchased and rouble depreciation.

In the reporting quarter, Bashneft produced 4.6 million tonnes of oil, representing an increase of 11.2% year-on-year. This was mainly a result of a 3.8% year-on-year rise in oil production at mature fields in Bashkortostan. Oil production also increased at the Trebs and Titov fields and at Burneftegaz, which accounted for 9.4% of the total oil produced in the reporting period.

The company sold 6.9 million tonnes of oil and oil products in the third quarter, a 3.3% year-on-year increase, with exports amounting to 1.5 million tonnes of crude oil and 2.3 million tonnes of oil and petrochemical products.

Refining volumes increased by 0.8% quarter-on-quarter to 5.5 million tonnes of crude oil. In the reporting quarter, the average refining depth was 85.0% and light-product yield was 59.3%.

In July 2014, in conjunction with the criminal investigation, Sistema received a notice from OJSC REESTR related to the shares of Bashneft, owned by Sistema and Sistema-Invest, which imposed a restriction on transactions with those shares.

In September 2014, a similar notice restricting transactions with Bashneft shares was received as part of a civil claim against Sistema and Sistema-Invest.

⁶ In the third quarter of 2013, Bashneft's OIBDA was impacted by the effect from the sale of Bashneft's stake in OJSC Belkamneft.

In November 2014, the Arbitrazh (Commercial) Court of the City of Moscow issued a written decision, ruling in favour of the civil claim seeking the return of Bashneft shares owned by Sistema and Sistema-Invest to the Russian Federation. In the best interests of the Company, as a good faith buyer, Sistema's Board of Directors has decided not to appeal this decision and to instead focus on filing claims to recover damages.

Bashkirian Power Grid Company (BPGC)

(US\$ millions)	3Q 2014	3Q 2013	Year on Year Change	2Q 2014	Quarter on Quarter Change
Revenues	84.0	95.6	(12.1%)	89.9	(6.5%)
OIBDA	38.6	45.3	(14.8%)	35.2	9.8%
Operating income	26.7	32.4	(17.6%)	22.8	16.8%
Net income attributable to Sistema	22.7	21.5	5.6%	17.9	26.7%

In the third quarter of 2014, BPGC's revenues decreased by 6.5% quarter-on-quarter reflecting a seasonal decline in consumption. The company's revenues and OIBDA declined year-on-year in US dollar terms mainly due to rouble depreciation against the US dollar, as well as a redistribution of tariff revenues in favour of territorial grid companies in accordance with the regulation policy of the Republic of Bashkortostan.

The volume of electricity transmitted through distribution grids was down 4.0% quarter-on-quarter mainly due to seasonal factors, but it grew by 2.0% year-on-year reflecting an overall increase in electricity consumption. Distribution grid losses decreased by 0.26 p.p. year-on-year to 5.62%, as a result of installing a power metering system and monitoring off-the-meter usage.

In the reporting quarter, the effective transmission grid output decreased by 13.7% year-on-year and by 4.0% quarter-on-quarter, due to changes in the power system mode. Transmission grid losses were up 0.25 p.p. year-on-year as a result of an increase in reversed cross-flows in adjacent sites through 500kV overhead power transmission lines.

In September 2014, Sistema-Invest received a notice from OJSC REESTR about restrictions on transactions with the shares of JSC Bashkirian Power Grid Company owned by Sistema-Invest. The restrictions are related to the criminal investigation, to which Sistema is not party.

Sistema Shyam TeleServices Ltd. (SSTL)

(US\$ millions)		Quarter on			
	3Q 2014	3Q 2013	Change	2Q 2014	Quarter Change
Revenues	56.5	44.6	26.6%	55.9	1.1%
OIBDA	(17.0)	(35.0)	-	(22.8)	-
Operating loss	(32.6)	(45.9)	-	(30.2)	-
Net loss attributable to Sistema	(36.2)	(60.2)	-	(29.1)	-

In the third quarter of 2014, SSTL's revenues increased by 26.6% year-on-year and 1.1% quarter-on-quarter, reflecting an increase in data services usage. The company narrowed its OIBDA loss year-on-year as a result of this revenue growth, as well as due to the company's ongoing cost optimisation programme.

SSTL's wireless (voice and data) subscriber base totalled 9.2 million as of September 30, 2014. The data subscriber base grew by 6.3% quarter-on-quarter to 1.5 million. In the third quarter, subscribers' MOU decreased by 3.7% quarter-on-quarter to 401 minutes mainly due to seasonality factors. Blended mobile ARPU in rupees grew by 2.0% quarter-on-quarter and amounted to an equivalent of US\$ 1.93. During the third quarter, SSTL continued expanding its high-speed data footprint and is now providing its services in 700 towns across India.

Sistema Mass Media⁷ (SMM)

(US\$ millions)	3Q 2014	3Q 2013	Year on Year Change	2Q 2014	Quarter on Quarter Change
Revenues	22.6	30.2	(25.3%)	17.8	26.8%
OIBDA	7.8	16.8	(53.7%)	3.9	98.7%
Operating income	3.1	4.1	(25.0%)	0.6	378.5%
Net income/ (loss) attributable to Sistema	1.7	1.4	22.0%	(0.3)	-

SMM's revenues increased by 26.8% quarter-on-quarter in the third quarter due to the redistribution of revenue between different reporting periods. A year-on-year revenue decrease resulted mainly from deadlines for World Russian Studios' (WRS) TV projects being rescheduled to the fourth quarter of 2014, as well as from rouble depreciation.

In the third quarter of 2014, SMM's OIBDA doubled quarter-on-quarter, but decreased year-on-year due to rescheduling deadlines for WRS TV series, along with rouble depreciation.

The Stream-TV subscriber base grew by 18.1% year-on-year to 10.8 million subscribers in the reporting period, as a result of growth in the penetration of large operators' networks. The WRS content library was up 9.9% year-on-year to 1,851 hours as of September 30, 2014.

In the third quarter of 2014, SMM's subsidiary, LLC Digital Broadcasting, obtained a satellite broadcasting licence. The Federal Service for Supervision in the Sphere of Telecom, Information Technologies and Mass Communications (ROSCOMNADZOR) registered "Digital Broadcasting INFO", a subsidiary of Digital Broadcasting, as a media entity.

RTI⁸

(US\$ millions)	3Q 2014	3Q 2013	Year on Year Change	2Q 2014	Quarter on Quarter Change
Revenues	435.3	477.4	(8.8%)	411.3	5.8%
Adjusted OIBDA ⁹	39.0	16.7	133.0%	18.4	111.7%
Adjusted operating income/ (loss)	13.8	38.0	(63.7%)	(4.7)	-
Adjusted net loss attributable to Sistema	(21.2)	(16.5)	-	(42.8)	-

In the third quarter of 2014, RTI's revenues grew by 9.4% quarter-on-quarter in rouble terms and by 5.8% quarter-on-quarter in US dollar terms, mainly as a result of revenue growth at Defence Solutions BU. A year-on-year revenue decrease in US dollar terms resulted largely from a decline in operations at Information and Communication Technologies BU. RTI's adjusted OIBDA increased significantly year-on-year and quarter-on-quarter in the third quarter of 2014, reflecting revenue growth.

Binnopharm

(US\$ millions)	3Q 2014	3Q 2013	Year on Year Change	2Q 2014	Quarter on Quarter Change
Revenues	15.0	26.3	(42.9%)	21.6	(30.3%)
OIBDA	1.4	2.2	(37.0%)	6.2	(77.4%)
Operating (loss)/income	(0.1)	0.6	-	4.7	-
Net (loss)/income attributable to Sistema	(0.7)	(0.01)	-	2.4	-

Binnopharm's revenues declined by 42.9% year-on-year in the third quarter, largely due to lower levels of government procurement in 2014, which consequently had a negative impact the company's distribution business. A 30.3% quarter-onquarter decrease in revenue mainly resulted from biotech drugs (Regevak B vaccine and Erythropoietin beta) being unevenly distributed during the course of the year.

The company's OIBDA decreased, reflecting the lower share that production revenues have in Binnopharm's total sales structure.

Stream CJSC is owned by Sistema (55%) and MTS (45%). For reporting purposes, Stream's financial results were allocated to SMM segment.
 RTI consolidates OJSC Concern RTI Systems, Mikron group of companies and CJSC NVision Group and comprises of four principal business units ("BU") – Defence Solutions BU, Comprehensive Security Systems BU, Microelectronics Solutions BU and Information and Communication Technologies BU. RTI results do not include the results of SITRONICS-N for all periods presented.

⁹ Financial measures for the second quarter of 2014 were adjusted to exclude one-off item – gain from sale of non-core assets.

In the reporting period, Binnopharm launched its upgraded filling line for infusion solutions at the Alium plant. Binnopharm also signed new cooperation agreements with international pharmaceutical companies.

Significant events after the end of the reporting period

In November 2014, the binding agreements signed in April 2014 with Fresenius Kabi and Zenitco Finance Management, the minority shareholder of Binnopharm CJSC¹⁰, to establish a pharmaceuticals joint venture for operations in Russia and the CIS, were terminated by mutual consent. Binnopharm, which in recent years has successfully produced a number of biotech products, intends to focus on developing its product portfolio and is exploring other options to continue its cooperation with Fresenius Kabi.

MTS Bank

(US\$ millions)	3Q 2014	3Q 2013	Year on Year Change	2Q 2014	Quarter on Quarter Change

In the third quarter of 2014, MTS Bank's interest income grew by 4.1% year-on-year in rouble terms, but fell by 5.6% year-on-year in US dollar terms due to the average rouble exchange rate depreciating against the US dollar by 10.3%. Operating income before provisions in rouble terms was up 3.8% year-on-year in the third quarter, while its cost/income ratio decreased to 51.0% from 53.0%. MTS Bank's assets increased by 5.6% quarter-on-quarter in rouble terms. The year-on-year decline in the bank's total loan portfolio was mainly due to a decrease in interbank lending.

In the reporting quarter, MTS Bank's AGM approved the bank's additional share issue by closed subscription. In October 2014, Sistema signed a binding agreement with MTS Bank to acquire 2,474,818 ordinary shares of the bank's additional share issue for RUB 9.46 billion. In the third quarter, Detsky mir's revenues increased by 26.4% quarter-on-quarter and by 7.8% year-on-year in US dollar terms, reflecting like-for-like sales growth and high revenue growth dynamics in stores opened in 2012 and 2013. In the third quarter of 2014, Detsky mir opened 33 new stores, including 24 Detsky mir stores and nine ELC stores. Like-for-like sales increased by 8.1% year-on-year in rouble terms, supported by strong growth in the company's like-for-like average ticket.

In the reporting quarter, Detsky mir's OIBDA more than doubled quarter-on-quarter in US dollar terms, as a result of increased seasonal demand. The company reported a 25.5% year-on-year increase in OIBDA in US dollar terms, reflecting revenue growth and decreased operating expenses. Detsky mir's SG&A expenses declined as a percentage of revenue to 26.2% in the third quarter, compared to 30.0% in the previous quarter.

Medsi's revenues decreased by 6.2% year-on-year in US dollar terms in the reporting quarter, but were up 3.5% year-on-year in rouble terms, largely as a result of organic growth, including an increase in the number of services provided. In the third quarter, OIBDA grew by 36.0% quarter-on-quarter, mainly due to reduced costs after some of Medsi's facilities were closed for reconstruction. This also resulted in a decreased number of patient visits.

The number of services provided increased by 3.2% year-on-year, while the average bill was up 5.1% year-on-year in rouble terms and totalled RUB 1,711. As of September 30, 2014, Medsi's network consisted of 23 medical clinics, a clinical and diagnostic centre, 3 hospitals, an ambulance service, 3 wellness centres and 3 sanatoriums.

In the third quarter of 2014, Intourist's revenues increased by 15.0% quarter-on-quarter in US dollar terms and by 18.9% quarter-on-quarter in rouble terms, primarily driven by increased seasonal demand for the hotels abroad. Intourist's revenues fell by 11.4% year-on-year in US dollar terms and by 2.2% year-on-year in rouble terms, mainly as a result of a decline in the number of tourists from Russia travelling abroad, and a reduction in inbound tourism in Russia.

Intourist's OIBDA was down 28.8% year-on-year in the third quarter of 2014, following a decrease in revenues. As of September 30, 2014, Intourist owned, managed and rented 2,947 rooms.

Bashneft related events

During the reporting quarter, a civil claim was filed with the Arbitrazh (Commercial) Court of the City of Moscow by the First Deputy General Prosecutor seeking to return all shares in Bashneft held by Sistema and Sistema-Invest to to the Russian Federation.

¹¹ Here and further, OIBDA and net income (loss) of the Corporate category are shown without an effect of intragroup dividends.

On September 16, 2014, the majority shareholder and Chairman of the Board of Directors of Sistema, Mr Vladimir Evtushenkov, was charged with legalisation with respect to the BashTEK companies and placed under house arrest. These charges are related to criminal investigation and stem from Sistema and Sistema-Invest's acquisition of the BashTEK shares. Mr Vladimir Evtushenkov maintains his innocence and intends to contest the charges.

Later, on November 7, 2014, the Arbitrazh (Commercial) Court of the City of Moscow ruled in favour of the civil claim seeking to return the Bashneft shares owned by Sistema and Sistema-Invest to the Russian Federation.

After careful consideration, Sistema's Board of Directors decided not to appeal this decision. In the best interests of the Company, as a buyer in good faith, it was decided that Sistema should, without delay, focus on filing claims to recover damages from the counterparties and/or their legal successors (Ural-Invest LLC) that sold the Bashneft shares to Sistema and Sistema-Invest.

Significant events after the end of the reporting period

In October 2014, Sistema completed the purchase of a 40% stake in a holding company that owns Concept Group, one of Russia's leading fashion clothing retailers by revenue growth, for a total consideration of approximately RUB 1 billion. In October 2014, Sistema signed a binding agreement with its subsidiary MTS Bank to acquire 2,474,818 ordinary shares of the Bank's additional share issue for RUB 9,460,684,754. The deal is expected to close by the end of 2014 after all the conditions as set out in the emission documentation are fulfilled.

In October 2014, Sistema terminated the contract for the acquisition of 162,837,500 Sistema ordinary shares for RUB 7.6 billion as announced on July 18, 2014.

FINANCIAL REVIEW

Non-GAAP financial measures. This press release includes financial information prepared in accordance with accounting principles generally accepted in the United States of America, or US GAAP, as well as other financial measures referred to as non-GAAP. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP.

Operating Income Before Depreciation and Amortization (OIBDA) and OIBDA margin. OIBDA represents operating income before depreciation and amortization. OIBDA margin is defined as OIBDA as a percentage of our net revenues. Our OIBDA may not be similar to OIBDA measures of other companies; is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statement of operations. We believe that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our ongoing business operations, including our ability to fund discretionary spending such as capital expenditures, acquisitions of businesses and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under generally accepted accounting principles, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies.

Adjusted OIBDA, operating income and net income attributable to Sistema. The Company uses adjusted OIBDA, operating income and net income attributable to Sistema to comment on its financial performance. These adjusted measures are used internally to evaluate performance and represent underlying financial measures adjusted for a number of one-off gains and losses which are of an exceptional nature. We believe that adjusted measures provide investors with additional useful information to measure our underlying financial performance, particularly from period to period, because these measures are exclusive of certain exceptional gains and losses.

Adjusted operating income and OIBDA can be reconciled to our consolidated statements of operations as follows:

	3Q 2014	3Q 2013	2Q 2014
Operating income	1,537.4	2,368.2	1,340.5
Effect from the sale of Bashneft's stake in OJSC Belkamneft	-	492.0	-
Gain from sale of Sistema's stake in OJSC RussNeft	-	(1,200.0)	-
Other	-	31.8	-
Adjusted operating income	1,537.4	1,692.0	1,340.5
Depreciation, depletion and amortisation	767.4	795.5	763.6
Adjusted OIBDA	2,304.8	2,487.4	2,104.2

Adjusted net income attributable to Sistema is calculated as net income attributable to Sistema adjusted for the impacts of the one-off items described above in the amounts attributable to the parent company.

Net debt at the Corporate Holding level. We define net debt as indebtedness less cash, cash equivalents and other highly liquid deposits and financial instruments. The indebtedness is defined as long-term debt, including its current portion, and short-term debt. We believe that the presentation of net debt at the Corporate Holding level provides useful information to investors because our management reviews this measure as part of its management of our liquidity, financial flexibility, capital structure and leverage. The US GAAP financial measure most directly comparable to net debt at the Corporate Holding level is the indebtedness of our Corporate segment as reported in our segment disclosures. Net debt at the Corporate Holding level can be reconciled to the indebtedness of our Corporate segment as follows:

Corporate Centre's net debt reconciliation

	3Q 2014	3Q 2013	2Q 2014
Indebtedness	1,675.1	1,605.3	1,774.7
Cash and cash equivalents	(722.3)	(699.8)	(608.1)
Highly liquid deposits and liquid financial instruments	(416.8)	(120.4)	(338.9)

Attachment B

On November 07, 2014 the Arbitrazh (Commercial) Court of the City of Moscow issued a written decision, ruling in favour of the civil claim seeking to return the shares of JSOC Bashneft owned by Sistema and its subsidiary Sistema-Invest to the Russian Federation.

In November 2014 Sistema's Board of Directors has carefully considered and decided not to appeal the decision of the Arbitrazh (Commercial) Court of the City of Moscow.

In the best interests of the company, as a buyer in good faith, Sistema will now focus on filing claims for the recovery of damages from the counterparties and/or their legal successors (Ural-Invest LLC) that sold the Bashneft shares to Sistema and Sistema-Invest.

It is highly likely that these decisions will have significant impact on Sistema's consolidated financial statements in the future periods, including deconsolidation of Bashneft. We believe that the presentation of Sistema's consolidated financial information excluding Bashneft (together with OJSC UPC) provides useful information to investors.

Comparison of Sistema's US GAAP consolidated financial information as of September 30, 2014 and for the nine months then ended to the respective "proforma" financial information prepared as if Bashneft and UPC were deconsolidated starting from January 1, 2014 is presented below. This comparison does not account for possible effects from filing claims for the recovery of damages from the mentioned above counterparties.
