

# X5 RETAIL GROUP N.V. REPORTS YEAR-ON-YEAR TOP LINE GROWTH OF 60%, EBITDA GROWTH OF 81% IN Q2 2008<sup>\*</sup>

**Amsterdam, 29 August 2008 -** X5 Retail Group N.V., Russia's largest retailer in terms of sales (LSE ticker: "FIVE"), published today its unaudited IFRS results for the six months and quarter ended 30 June 2008 based on management accounts. This press release also contains adjusted Karusel's results and X5's pro-forma results that include Karusel's performance since 1 January 2008.

# Q2 2008 X5 Highlights\*

- X5's net sales<sup>\*\*</sup> surged 60% year-on-year to USD 1,980 mln;
- X5's gross profit grew by 58% year-on-year to USD 520 mln, gross margin totaled 26.3%;
- X5's EBITDA reached USD 190 mln, a year-on-year increase of 81%; EBITDA margin totaled 9.6%;
- X5's net profit grew to USD 74 mln from USD 14 mln a year ago.

# H1 2008 X5 Highlights\*

- X5's net sales<sup>\*\*</sup> surged 60% year-on-year to USD 3,766 mln;
- X5's gross profit grew by 59% year-on-year to USD 978 mln, gross margin totaled 26.0%;
- X5's EBITDA reached USD 351 mln, a year-on-year increase of 66%; EBITDA margin totaled 9.3%;
- X5's net profit grew to USD 161 mln from USD 41 mln a year ago.

### X5 Retail Group CFO Evgeny Kornilov commented:

"After reporting solid sales growth in the second quarter, we are pleased to announce that our financial results were strong as well. Whilst our continual investment in prices and customer loyalty resulted in increased sales volumes, our cost control policy has enabled us to enhance profitability. Going forward we will maintain our focus on efficiency, and our key task for the rest of the year is to ensure smooth integration of Karusel and improvement of its operational and financial performance."

# X5 Gross Profit & Gross Margin Analysis

For the second quarter 2008, gross profit increased by 58% to USD 520 mln, translating into a 59% year-on-year growth to USD 978 mln for the first half 2008. Gross margin for the second quarter 2008 totaled 26.3% versus 26.6% for the same period a year ago, while fist half 2008 gross margin amounted to 26.0% compared to 26.3% a year ago. Such gross margin evolution is in line with the management's expectations and represents a result of the Company's "closer-to-the-customer" pricing strategy aimed at creating long-term customer loyalty.

For the second quarter 2008, SG&A expenses totaled USD 410 mln – an increase of 47% year-onyear. For the first half 2008, SG&A costs increased by 50% over the same period a year ago to USD 769 mln primarily due to growth in staff costs, lease expenses and higher utility bills. At the same time, SG&A expenses decreased as percentage of revenue due to cost control policy pursued by X5.

### Staff Costs

For the second quarter 2008, staff costs, including ESOP totaled USD 196 mln and increased by 42% compared to the same period of last year, translating into a 60% year-on-year increase for the first half 2008 to USD 370 mln.

<sup>&</sup>lt;sup>\*</sup> Please note that all SG&A expenses provided in the above table are net of logistic expenses as those were reclassified to Cost of Sales.

Net of ESOP costs, first half 2008 staff costs grew by 71% to USD 360 mln. This staff costs dynamics is mainly attributable to the flow trough effect of the first quarter 2008, when staff costs change of 82% was explained by low comparative base in the first quarter 2007.

Also, in the second quarter this year X5 revised salaries for X5 store personnel – the revisions ranged from 4 to 9% in RUR terms depending on format and region. Q2 2008 average number of employees totaled 44,450 people versus 36,914 people for the second quarter 2007.

### Lease Expenses

For the second quarter 2008, lease expenses increased by 55% year-on-year to USD 64 mln on the back of rent inflation and expansion. First half 2008 lease expenses totaled USD 126 mln, an increase of 54% year-on-year. As a large proportion of the Group's stores are owned, this reduces its exposure to the growth in rent prices.

#### Utilities

For the second quarter 2008, utility expenses increased by 48% year-on-year to USD 28 mln, translating into 62% year-on-year growth for the first half 2008 (to USD 51 mln) on the back of growth in electricity, gas and other utility prices.

#### X5 Non-Operating Gains and Losses

#### Finance Costs

Net finance costs for the second quarter 2008 amounted to USD 26 mln versus USD 29 mln in the second quarter of 2007. The decrease is explained primarily by a significant decrease in LIBOR year-on-year. X5's outstanding debt stood at USD 1.9 bln at 30 June 2008 vs USD 1.7 bln at the beginning of the year and USD 1.5 bln – at 30 June 2007, while effective interest rate in the first half 2008 totaled approximately 6.8%.

#### FX Gain

Second quarter FX gain was primarily non-cash and amounted to USD 2 mln on the back of slower appreciation of RUR against USD. As a result, first half 2008 FX gain totaled USD 45 mln.

#### X5 Income Tax

Effective tax rate for the second quarter 2008 was 33%, translating into the first half 2008 effective tax rate of 33%. The year-on-year decrease in effective tax rate is in line with the management's expectations.

Net cash from operating activities totaled USD 98 mln versus 14 mln a year ago. Strong cash generation from operations was partially off-set by negative influence of the change in working capital in the first quarter of the year (-USD 60 mln) on the back of seasonal factors, which were discussed in detail in our Q1 financial press release dated 29 May 2008.

Decrease in trade accounts payable	(81.0)	(21.2)
Increase/(Decrease) in other accounts payable	32.5	(108.5)
Changes in Working Capital	(84.0)	(121.0)

The increase in trade and other accounts receivable by USD 68 mln is primarily explained by growth in X5's scale of business.

The decrease in inventories by USD 33 mln is explained mainly by decrease in inventories in the first quarter of the year (by USD 56 mln), which is a seasonal factor – stock is usually very high at the end of the year as a result of inventory accumulation both for the New Year and Orthodox Christmas holidays. During the first quarter inventories return to their normal levels. Same trends explain the decrease in trade accounts payable by USD 81 mln - Q1 decrease in trade accounts payable was USD 103 mln as in the first quarter the Company paid to suppliers for the increased levels of inventories accumulated at the end of 2007. In Q2 2008 trade accounts payable increased by USD 23 mln.

The increase in other accounts payable is mainly attributable to growth in accrued expenses and VAT payable.

#### Non-Current Assets

As at 30 June 2008 PP&E and investment property amounted to USD 3,626 mln, an increase of 71% or USD 1,507 mln since the beginning of the year. This increase is largely attributable to the acquisition of *Karusel* hypermarket chain - in the amount of USD 1,028 mln (for more details on Karusel's impact on the consolidated Balance Sheet, please see Appendix VI to this press release). The rest of the increase is explained by organic expansion and purchase of *Kama Retail* in the first quarter of the year.

<sup>\*</sup> Balance sheet numbers presented in this section of the press release take into account the acquisition of *Karusel* hypermarket chain as of 30 June 2008. Detailed information on the impact of *Karusel* on consolidated balance sheet is provided in Appendix VI to this press release

In line with IFRS requirements, 2007 BS was restated to take into account final *Korzinka* and *Strana Gerkulesia* fair value adjustments

<sup>\*\*\*</sup> H1 2008 net working capital was affected by an unusually high amount of cash (USD 433 mln on stand-alone basis and USD 459 mln on consolidated basis)

As at 30 June 2008 goodwill totaled USD 3,478 mln versus USD 2,956 mln at the end of 2007 (an increase of 18% or USD 522 mln). This increase was mainly due to the acquisition of *Karusel* (USD 370 mln), with the rest being FX revaluation adjustment.

### **Current** Assets

Current assets increased by 88% or by USD 755 mln to USD 1,616 mln. The increase was mainly attributable to the following factors: a) the acquisition of *Karusel* – as a result accounts receivable increased by USD 180 mln<sup>\*</sup>, inventories – by USD 85 mln, VAT and other taxes recoverable – by USD 66 mln; b) an increase in cash balance by USD 280 mln to USD 459 mln as of 30 June 2008, which primarily is explained by the fact that the cash portion of the *Karusel* purchase price was lower than the cash proceeds from the rights issue.

### Non-Current Liabilities

Non-current liabilities totaled USD 2,184 mln, an increase of 27% or USD 458 mln since the beginning of the year. This increase mainly represents: a) *Karusel*'s long-term debt in the amount of USD 281 mln; b) growth in deferred tax liabilities by USD 156 mln, including *Karusel*'s deferred tax liabilities in the amount of USD 138 mln, and FX revaluation adjustments.

# **Current Liabilities**

Current liabilities grew 44% or by USD 688 mln from the beginning of the year and amounted to USD 2,269 mln. This increase is explained primarily by the acquisition of *Karusel* (USD 192 mln in trade and other accounts payable, USD 137 mln in short-term borrowings and USD 122 mln in provisions) and growth in X5's short-term borrowings by USD 172 mln as the Company used its credit lines to finance its store roll-out program.

# Adjusted Karusel P&L – Key Trends and Developments\*\*\*

Karusel reported commendable sales growth both for the second quarter and first half 2008. However its financial results were affected by three key factors: provisional fair value adjustment that resulted in higher depreciation, quite weak pre-integration performance at SG&A level and substantial interest expense due to high debt burden. The management intends to mitigate the effect of the latter two factors as a result of integration and efficiency improvement.

#### **Adjusted Karusel P&L Highlights**

<sup>\*</sup> Includes USD 160 mln of refund on Donson contracts received in the third quarter 2008

\*\* *Karusel*'s P&L numbers for 2007 have been restated to take into account provisional fair value adjustment in accordance with IFRS requirements to pro-forma reporting. *Karusel*'s financials for 2008 are based on management pro-forma accounting and were prepared in accordance with the Group's reporting standards

Karusel's net sales for the second quarter 2008 increased by 60% in USD terms to USD 307 mln, translating into a 63% increase year-on-year to USD 560 mln for the first half 2008. The growth was mainly driven by very strong LFL performance – Karusel's LFL sales in Q2 increased 33%, while H1 LFL sales grew 35%.

Karusel's gross margin remained stable in the first half of the year – at 24.4%. At the same time, Karusel's SG&A increased as percentage of revenue (from 22.4% in H1 2007 to 23.7% in H1 2008) mainly on the back of staff costs growth (by 71%), higher utility bills (by 80%), and insufficient cost management.

As a result, Karusel's H1 EBITDA grew only 25% year-on-year to USD 36 mln, while EBIT remained flat at USD 12 mln. Significant growth in interest expense resulted in net loss in the amount of USD 8 mln reported for the first half 2008 (please see the full version of Karusel's P&L in Appendix IV, and detailed break-down of Karusel's SG&A expenses in Appendix V to this press release).

#### **Pro-Forma P&L Highlights**

Pro-forma net sales surged 60% year-on-year to USD 2,287 mln in the second quarter 2008, translating into 61% year-on-year growth in the first half 2008 (to USD 4,326 mln).

Second quarter 2008 gross profit on pro-forma basis totaled USD 596 mln (gross margin of 26.1%), first half 2008 pro-forma gross profit amounted to USD 1,115 mln – an increase of 59% year-on-year, while gross margin totaled 25.8%.

Pro-forma EBITDA for the second quarter 2008 reached USD 211 mln (year-on-year growth of 74%), EBITDA margin totalled 9.2%, translating into EBITDA margin of 9.0% for the first six months (EBITDA of USD 388 mln, year-on-year growth of 61%).

<sup>&</sup>lt;sup>\*</sup> Including *Karusel*'s performance since 1 January 2007 and 2008, respectively. For pro-forma purposes, *Karusel*'s P&L numbers for 2007 have been restated to take into account provisional fair value adjustment in accordance with IFRS requirements to pro-forma reporting. *Karusel*'s financials for 2008 (on stand-alone basis and for pro-forma purposes) are based on management pro-forma accounting and were prepared in accordance with the Group's reporting standards

Net profit on pro-forma basis was USD 70 mln in the second quarter 2008 versus USD 15 mln in the second quarter 2007. Pro-forma net profit for the first half 2008 totaled USD 153 mln compared to USD 43 mln a year ago. Second quarter and first half net margin was 3.0% and 3.5% respectively.

# Update on Karusel Integration

X5 acquired operational control over *Karusel* hypermarkets on 26 June 2008 and has begun the integration process.

As it was announced on 11 August 2008, X5 decided to retain the *Karusel* brand and to use it for all of the Company's hypermarkets. This decision was made after a thorough analysis of *Karusel* brand awareness and customer loyalty. X5 believes that the decision to retain the brand will enable the Company to reduce rebranding expenses (now they will be limited to rebranding of Perekrestok hypermarkets and one Mercado store) and to optimise the *Karusel* integration process, while a single brand for all hypermarkets means more efficiency in terms of operating the stores and clearer value proposition for the customers.

The Company has also revised its initial integration plan and the integration budget. Having analyzed the status of *Karusel* hypermarkets, X5 believes that the total integration costs will amount to approximately USD 60 mln, of which USD 33 mln will be capital expenditures, while up to USD 27 mln will be one-off operating expenses, including anticipated loss of EBITDA as a result of short-term store closings for IT platform replacement. X5 plans to finalize the integration process by the end of 2009, thus all of the above mentioned costs will be reported in 2008.

The key integration measures include alignment of the operational model, integration of purchasing and logistics, replacement of the IT platform, store refurbishment, back office and head office integration.

# Update on Outstanding Issues with Former Karusel Shareholders

As it was announced on 26 August 2008, X5 has reached an agreement with the former shareholders of Formata B.V. (the "Former Shareholders"), the owner of the Karusel hypermarket chain, to resolve the outstanding post-completion issues on the recent acquisition.

In particular, the real estate development contracts between Formata and the affiliates of Donson B.V. (which is associated with the Former Shareholders) have been unwound and all of the prepayments made under these contracts - in the amount of approximately RUR 3.9 billion (an equivalent of approximately USD 160 million) – have been returned to Formata (i.e. to X5) in August 2008. The parties now have no outstanding obligations under these contracts. Additionally, the Former Shareholders will pay to X5 approximately USD 40 million representing their compliance with post-completion obligations under the Call Option Agreement.

At the same time, on Friday, 22 August 2008, the Russian Federal Financial Markets Service (FFMS) has annulled previously registered issue of corporate ruble bonds by Hyperfinance LLC, a subsidiary of Donson, which initially was supposed to be guaranteed by Formata and its subsidiaries. Thus, any obligations of Formata or its subsidiaries with respect to Hyperfinance bonds have been effectively terminated.

## **Revised Outlook for 2008**
